M. Harris,Richard J. Parker,2016-05-23 COGNITIVE SELF CHANGE The consensus amongst the leading researchers in the  
offender treatment area is that the comprehensive and sophisticated clinical methods the authors have derived for offender  
treatment are unsurpassed Indeed they have formed the basis for what is known as the core correctional practices for  
reducing anti social behavior Paul Gendreau Professor Emeritus University of New Brunswick Bush and colleagues  
phenomenologically based approach to offender rehabilitation is based explicitly on the stories they have collected from  
prisoners and probationers and is a welcome contribution to an academic literature that too often obfuscates the actual work  
involved in delivering help to the hardest to reach in the criminal justice system Shadd Maruna Ph D Dean of the Rutgers

School of Criminal Justice Cognitive Self Change presents a practical guide to rehabilitation based on understanding the way individual offenders experience themselves and the world around them at the moment they offend De incentivizing criminal behavior and replacing it with self empowered change are the keys to upending the traditionally antagonistic relationship between criminals and those meant to help them change The authors with their experience of working with offenders and implementing rehabilitation programs have drawn together clinical and academic perspectives on the treatment of high risk offenders analyzing current approaches to treatment and the problems encountered in their application Cognitive Self Change rejects the traditional dichotomy of control versus treatment devising instead a strategy that integrates both Focusing on high risk and hard core offenders not just those that are ready to change they discuss why offenders offend why they are seldom motivated to change and why they often fail to engage in treatment This leads to a strategy of communication that teaches offenders a set of skills they can use to change themselves and that motivates them to do so

**The Life Worth Living in Ancient Greek and Roman Philosophy** David Machek, 2023-04-27 The account of the best life for humans i e a happy or flourishing life and what it might consist of was the central theme of ancient ethics But what does it take to have a life that if not happy is at least worth living compared with being dead or never having come into life This question was also much discussed in antiquity and David Machek s book reconstructs for the first time philosophical engagements with the question from Socrates to Plotinus Machek s comprehensive book explores ancient views on a life worth living against a background of the pessimistic outlook on the human condition which was adopted by the Greek poets and also shows the continuities and contrasts between the ancient perspective and modern philosophical

**How to Live an Optimal Life** Anthony Ekanem, 2016-06-30 Many people speak about their problems in life In fact this is one of the hottest topics of conversations It doesn't really matter where you meet someone all it takes is a friendly smile to start pouring out your life's woes to them Everyone does the same The result is that no one really knows how happy one is Since everyone is talking about their miseries it does seem that no one around is leading an optimal life This is where the problem lies We think that the term optimal life should have a definition We think that we should be able to peg down someone's life entirely and say Ah now his is an optimal life But it doesn't happen that way You might think that someone with a lot of money or someone with a beautiful wife must have an optimal life But when you get to know them better you begin to see the problems that lie behind the exterior facade of theirs and you realize that their life is not what you thought it to be There's a great saying that If everyone were to throw their problems in a pile and see everyone else's they would grab their own right back This is true We think the neighbours are always happier than we are We think they are leading a more optimal life than we are But if we were really to sit down and make comparisons quite likely we would find our problems to be the least So where are we heading with this The point here is that our lives are only as optimal as we want them to be We have it entirely in our hands how beautiful we want to make our lives If we want to sit and brood that life is toying with us in every way possible it is But if we plan to take things in our hands and not let life jerk us around it won't We have to plan just how much control we want to give our lives An optimal life is a very individualistic thing For us an optimal life would be one in which we are completely contented and satisfied with whatever we have
