The New Era of Global Competition

Daniel Drache, Meric S. Gertler, 1991 The increasing globalization of

production and the conservative agenda for market led growth are dramatically affecting the life of the average Canadian

and the choices made by social and economic policy makers As Daniel Drache Meric Gertler and the contributing authors

show the worldwide reorganization of markets poses new challenges for domestic industry while continental trade initiatives

threaten the livelihood of Canadian workers and the stability of communities across all regions of the country Environmental

quality is similarly at risk from development strategies driven more by possibilities of short term gain from export sales than

by attempts to promote long term sustainability New Visions for Canadian Business Alan M. Rugman, Joseph R. D'Cruz, 1993-06 A study of Canadian competitiveness which has been declining Includes Canada's business scorecard doing business manufacturing and services in the global economy strategies for Canada's international competitiveness and recommendations for a competitive future Graphs Commissioned by Kodak Canada Inc Hollywood on Location Joshua Gleich, Lawrence Webb, 2019-01-14 Hollywood on Location is the first comprehensive history of location shooting in the American film industry showing how this mode of filmmaking changed Hollywood business practices production strategies and visual style from the silent era to the present The contributors explore how major studios came to embrace location shooting as a standard procedure **OECD Studies on SMEs and Entrepreneurship SME and Entrepreneurship Policy in Canada** OECD, 2017-07-25 This report identifies several areas where new policy approaches could help achieve these objectives **Free Trade and Transnational Labour** Andreas Bieler, Bruno Ciccaglione, John Hilary, Ingemar Lindberg, 2016-04-14 Resistance against free trade agreements based on an expanded trade agenda including issues related to intellectual property rights trade in services and trade related investment measures has increased since the demonstrations at the WTO ministerial conference in Seattle in 1999 While the WTO Doha negotiations have broken down the EU and USA are increasingly engaged in bilateral free trade agreements building on this expanded trade agenda Free trade strategies have increasingly become a problem for the international labour movement While trade unions in the North especially in manufacturing have supported free trade agreements to secure export markets for their companies trade unions in the Global South oppose these agreements since they often imply deindustrialisation The purpose of this volume is to understand better these dynamics underlying free trade policy making Academics trade union researchers and social movement activists analyse these issues in detail in order to explore possibilities for transnational labour solidarity This book was published as a special issue of Globalizations *Trade, Industrial Policy, and International Competition, Second Edition* Richard G. Harris, 2015-10-01 Richard Harris's now classic study on trade and industrial policy was written for the Royal Commission on the Economic Union and Development Prospects for Canada also known as the Macdonald Commission First published in 1985 when the Canadian economy faced dramatic changes arising from the emergence of manufacturing competitors among newly industrialized nations and increased protectionism in the US its recommendations were instrumental in the negotiation of the North America Free Trade Agreement Addressing the key issues surrounding the design and choice of policies for the Canadian economy Trade Industrial Policy and International Competition reviews the theory and evidence concerning trade liberalization as a mechanism to enhance economic growth disinvestment in sections that are disadvantageous in the international marketplace and future problems for the marketing sector caused by increasing competition from developing countries Drawing from many streams of conventional economic thinking Harris develops an original and sophisticated model for assessing the broader economic impacts of trade liberalization on the Canadian economy

He concludes that free trade and industrial policy should be regarded as complementary not substitutes for one another and recommends a free trade agreement with the United States as a top priority A new introduction by David Wolfe situates this work within its time and shows how Harris s analytical insights and policy prescriptions are as relevant today as they when they were originally crafted three decades ago **Canada's Information Revolution** Conference on Information Technology: Globalization, Diffusion, Innovation and Retraining (1989 : Toronto, Ont.),Institute for Research on Public Policy,1991 *Our Nation's Finest* The Globe and Mail,2012-04-13 The Globe and Mail Canada s National Newspaper presents Our Nation s Finest a collection of the Globe s 24 nominees for 2011 National Newspaper Awards The Globe and Mail hopes to share its record 24 nominations with you **Royal Histories** Joel Z. Garrod,2025-02-28 The aftermath of the 2008 financial crisis produced diverse solutions from nationalizing banks to increasing government spending and taxing capital However these proposals all faced significant obstacles in being realized Industry lobbying has since weakened reforms leading to ineffective policies raising the larger question of how to understand our current period of globalization where older strategies are ineffective but new solutions seem unattainable In *Royal Histories* Joel Z Garrod presents a historical analysis of the Royal Bank of Canada illustrating how Canadian capitalism and the Canadian banking industry have transformed as they have consolidated nationally and expanded abroad Emphasizing how national institutions and rules are increasingly becoming capabilities for transnational forms of capital accumulation the book draws on extensive primary and secondary sources to document the transformation of the assemblage of territory authority and rights that have supported the bank s activities over time Linking the bank s history to the policy regimes of the welfare state and neoliberalism Garrod contends that our present period of globalization is constituted by a novel organizing dynamic that severely limits the extent to which nation states can absorb capitalist crises or be a site of successful social reform Connecting the Canadian experience to the wider transformation of global capitalism *Royal Histories* illuminates the effects of globalization and the changing landscape of banking and finance **Journal of Small Business and Entrepreneurship** ,1991-07
