MAKING FURNITURE MASTERPIECES

30 Projects with Measured Drawings

Franklin H. Gottshall

This clearly written how-to book by master craftsman Franklin H. Gottshall allows woodworkers to construct handsome, useful furniture in the most highly regarded antique styles. Characterized by beauty and richness of design, each of 30 different projects—all replicas of actual rare furniture—can be completed by ambitious beginners as well as skilled craftspeople for only a fraction of what vintage originals would cost.

Woodworkers can select from pieces spanning a wide variety of styles—from a simple dovetailed box to an elegant Philadelphia Chippendale highboy. Included as well are directions for constructing a Dutch cupboard, four-poster walnut bed, refectory table, gaming table, shell-top corner cupboard, four-trundle loom, Queen Anne hall table, Pennsylvania Dutch painted chest and other distinctive pieces.

Easy-to-follow, step-by-step instructions are accompanied by isometric drawings and photographs, as well as top, front and end views and detailed drawings of parts and procedures. Decorative skills such as woodcarving, inlaying, veneering, upholstery, finishing, and wrought iron work are also fully described and related to each piece.

Unabridged Dover (1986) republication of *Masterpiece Furniture Making*, published by Stackpole Books, Harrisburg, PA, 1979.
