Making History The Radical Tradition In American Life

Charlotte Ryan

Making History The Radical Tradition In American Life:

Making History Richard Flacks, 1988 Woman Suffrage and Women's Rights Ellen Carol DuBois, 1998-07 Collects 14 articles on women's suffrage DuBois history U of California in Los Angeles traces the trajectory of the suffrage story against the backdrop of changing attitudes to politics citizenship and gender and the resultant tensions over such issues as slavery and abolitionism sexuality and religion and class conflict Annotation copyrighted by Book News Inc Portland OR *Class and Power in the New Deal* G. Domhoff, Michael J. Webber, 2011-06-29 This book provides a new perspective on the origins of the three most important New Deal policies the Agricultural Adjustment Act the National Labor Relations Act and the Social Security Act while examining the strengths and weaknesses of historical institutionalism Marxism protest disruption theory and non Marxian class dominance theory **Going Coed** Leslie Miller-Bernal, Susan L. Poulson, 2004 More than a quarter century ago the last great wave of coeducation in the United States resulted in the admission of women to almost all of the remaining men's colleges and universities In thirteen original essays Going Coed investigates the reasons behind this important phenomenon describes how institutions have dealt with the changes and captures the experiences of women who attended these schools *Ordinary Places/Extraordinary Events* Clara Irazábal, 2008-01-17 Clara Irazábal and her contributors explore the urban history of some of Latin America's great cities through studies of their public spaces and what has taken place there The avenues and plazas of Mexico City Havana Santo Domingo Caracas Bogota São Paulo Lima Santiago and Buenos Aires have been the backdrop for extraordinary history making events While some argue that public spaces are a prerequisite for the expression representation and reinforcement of democracy they can equally be used in the pursuit of totalitarianism Indeed public spaces in both the past and present have been the site for the contestation by ordinary people of various stances on democracy and citizenship By exploring the use and meaning of public spaces in Latin American cities this book sheds light on contemporary definitions of citizenship and democracy in the Americas Urban Inequality Jesús Manuel González Pérez, 2018-10-15 This book is a printed edition of the Special Issue Urban Inequality that was published in Urban Science Stephen King and American Politics Michael J. Blouin, 2021-01-01 This is the very first study dedicated exclusively to politics in Stephen King's fiction It is a window into the turbulent political climate of the U S today via popular culture It is an exciting conversation between major political theorists and America's most popular purveyor of horror **Zealotry and Academic Freedom** Neil Hamilton, 2018-04-27 Zealotry and Academic Freedom began with the author's personal experience with suppression of academic speech and obstacles to the pursuit of academic quality Using his own tumultuous experience as a starting point Hamilton explores how significant efforts to create an autonomous space for academic speech within the university over the past 125 years have been thwarted Hamilton charges that a fundamentalist academic left in some humanities and social science faculties views the exercise of standards of academic quality and merit based performance evaluations as tools of oppression and bigotry Academic zealots ferret out and oppose

hidden structures of so called oppression in our Eurocentric culture Any faculty member overtly supporting academic quality is thus suspected of bigotry and subject to investigations The opening portion of the book locates similarities with the religious fundamentalism of the nineteenth century in waves of zealotry in American higher education The first part covers student activism in the 1960s through the emergence of a radical academic left in the early 1990s The second part examines the meaning of academic freedom and the protection of expression that should be secured The third and final portion shows how targets of the coercive tactics of the zealots in any period of zealotry can and have been effectively rebuked and ultimately overcome Neil Hamilton s book will generate controversy particularly the chapters that inquire into the current wave of academic suppression Hamilton warns that history instructs that it can happen here This candid look into the politics of higher education will be gripping reading for all those concerned with the future of education professors administrators students and parents There has been a growing literature on this subject but none cover the legal political aspects of political correctness with such precision

Shaping Abortion Discourse Myra Marx Ferree, 2002-09-19 This book compares the political process and role of the media using controversy over abortion

Gender Revolution Pamela Aronson, Matthew R. Fleming, 2023-10-12 Gender Revolution carefully examines the profound transformations happening in both public and private arenas of gender relations It also draws critical attention to the simultaneous and potent challenges that have risen in response The authors look to large scale phenomena in this contemporary study and address how electoral politics and the MeToo movement are reshaping everyday life This gender revolution has led to a culture in which women and increasing numbers of men refuse to accept traditional gender norms and gender inequalities People of all genders no longer tolerate abuses of power in politics or in their interpersonal relationships Despite vigorous resistance women are seizing power and refusing to back down in ways both large and small The authors note on the one hand that people of all genders in support of these transformations are voting for progressive candidates engaging on social media and making their interpersonal relationships more equal On the other hand they document considerable backlash and contestation as some people are resisting these changes and creating adversarial gender divisions Probing across these issues the book develops an analysis of gendered social and cultural change that reveals how movement ideas diffuse into broader culture Gender Revolution presents a vibrant and essential study for a moment marked by significant changes to attitudes beliefs and views surrounding gender and gender relations and will appeal to readers interested in the scholarly study of gender society politics media law and culture

How To Do Politics With Art Violaine Roussel, Anurima Banerji, 2016-10-26 A major issue in the relation of art to the rest of society is the question of how art penetrates politics From the perspective of most art scholars this is a question of aesthetics whether politics necessarily pollutes and debases the quality of the arts From the perspective of social science it has been primarily a question of meaning how political messages are conveyed through artistic media Recent work has begun to broaden the study of the arts and politics beyond semiosis and content focus Several strands of scholarship are

converging around the general issue of the social relationships within which art takes political form that is how art and artists do politics This perspective of doing moves analysis beyond addressing the meaning of culture to focus on the ways that art is embedded in and intervenes in social relationships activities and institutions This volume brings together an interdisciplinary group of scholars from France and the United States to investigate these directions and themes by exploring the question of how to do politics with art from a comparative standpoint putting sociological approaches in conversation with other disciplinary prisms It will be of interest to scholars of social movements and politicization the sociology of art art history and aesthetics

Prime Time Activism Charlotte Ryan, 1991 An essential primer for all grassroots activists this book demystifies the media in such a way that the reader activist gains a framework for understanding the propaganda industry of the United States

Politics and the Class Divide David Croteau, 1995 People don't believe they have a say anymore so they've given up That's the cynical conclusion of one worker in this study of the relationships between working people and the middle class left This rare accessible book on class differences in American life examines the impact of class status on an individual's participation or non participation in the political process Focusing on the relative absence of white working class involvement in many contemporary U.S. liberal and left social movements David Croteau goes straight to the source members of the working class and activists in the environmental peace women's and other social movements Croteau rejects standard assumptions that apathy or simple conservatism explain working class nonparticipation Instead he highlights the role of class based resources and explores how varying cultural tools developed in different classes are more or less helpful in navigating and influencing the existing political environment Commonly he finds the result is a middle class sense of power and entitlement and a working class sense of powerlessness and fatalism Contemplating the future of social movements he explores how lack of diversity hurts the effectiveness of what have become isolated middle class movements and proposes solutions that would increase the future political participation of working people in social movements Author note David Croteau Assistant Professor of Sociology at Virginia Commonwealth University is co author of *By Invitation Only: How the Media Limits Political Debate*

Fidel! Sheldon B. Liss, 2019-04-08 The author of this book takes a highly original approach to understanding the past three decades of Cuban history he offers an analysis and interpretation of the prolific writings and speeches of Fidel Castro and of numerous interviews with him Through Castro's own words Sheldon Liss examines the evolution of the Cuban leader's political and social thought

Local Democracy Under Siege Dorothy Holland, Catherine Lutz, Lesley Bartlett, Marla Frederick-McGlathery, 2007-02-07 2007 Society for the Anthropology of North America SANA Book Award Complete List of Authors Dorothy Holland Donald M. Nonini Catherine Lutz Lesley Bartlett Marla Frederick-McGlathery Thaddeus C. Guldbrandsen and Enrique G. Murillo Jr What is the state of democracy at the turn of the twenty first century To answer this question seven scholars lived for a year in five North Carolina communities They observed public meetings of all sorts had informal and formal interviews with people and listened as people conversed with each other at bus stops and

barbershops soccer games and workplaces Their collaborative ethnography allows us to understand how diverse members of a community not just the elite think about and experience politics in ways that include much more than merely voting This book illustrates how the social and economic changes of the last three decades have made some new routes to active democratic participation possible while making others more difficult Local Democracy Under Siege suggests how we can account for the current limitations of U S democracy and how remedies can be created that ensure more meaningful participation by a greater range of people Complete List of Authors pictured From Left to Right bottom row Enrique Murillo Jr Thaddeus Guldbrandsen Marla Frederick McGlathery Top row Dorothy Holland Catherine Lutz Lesley Bartlett and Don Nonini

Crisis and Political Beliefs Marc Lendler,1997-01-01 Does the political thinking of ordinary citizens change during periods of crisis Marc Lendler addresses this question by investigating the story behind an unusually prolonged and ultimately successful strike a five year conflict at the Colt Firearms Company in Hartford Connecticut in the 1980s Lendler documents how the participants political consciousness evolved during this period showing what they thought about American politics and institutions

Escape Attempts Stanley Cohen,Laurie Taylor,2003-08-29 From sexual fantasies to holidays this marvellous book charts our escape attempts In a series of dazzling commentaries the authors reveal the ordinary and extraordinary ways in which we seek to defy the despair of the breakfast table and the office But the book is much more than a first rate cartography of everyday life It crackles with important theoretical insights about how normality is managed This fully revised edition contains a superb new introduction Life After Postmodernism which exposes the conceits of the postmodernist adventure and which should be required reading for anyone interested in making sense of everyday life

Community versus Commodity Stella M. ?apek,John Ingram Gilderbloom,1992-01-01

The Leftmost City Richard Gendron,2018-04-17 Almost all US cities are controlled by real estate and development interests but Santa Cruz California is a deviant case An unusual coalition of socialist feminists environmentalists social welfare liberals and neighborhood activists has stopped every growth project proposed by landowners and developers since 1969 and controlled the city council since 1981 Even after a 1989 earthquake forced the city to rebuild its entire downtown the progressive elected officials prevailed over developers and landowners Drawing on hundreds of primary documents as well as original previously unpublished interviews The Leftmost City utilizes an extended case study of Santa Cruz to critique three major theories of urban power Marxism public choice theory and regime theory Santa Cruz is presented within the context of other progressive attempts to shape city government and the authors findings support growth coalition theory which stresses the conflict between real estate interests and neighborhoods as the fundamental axis of urban politics The authors conclude their analysis by applying insights gleaned from Santa Cruz to progressive movements nationwide offering a template for progressive coalitions to effectively organize to achieve political power

New Left, New Right, and the Legacy of the Sixties Paul Lyons,1996 Lyons concludes that despite all of the progress initiated by the political momentum of the Sixties

we as Americans are still plagued by debates about issues like multiculturalism Afrocentrism and affirmative action and in order to effectively address these issues today we must acknowledge and accept the contributions made by both movements
