Trusting God's Timing Steven Stoffelsen, 2017-01-17 Many times Christians excitedly receive a promise or vision from God From that moment forward they want to tell the whole world what God is going to do in and through them It's so exciting to have a promise from God The Bible says Where there is no vision the people perish Proverbs 29:18 But when God gives us a promise or vision it takes time to see it fulfilled Rarely is the vision for tomorrow or even the next year It's for a certain time set by God He shows it to you early but He still wants to prepare you for the journey ahead Many Christians get discouraged during this process and walk away from God But so many people in the Bible like Abraham Joseph and David had to go through years of preparation before they saw their visions fulfilled They waited a long time probably longer than most of us Be encouraged and don't let a thing called time destroy you before you even start God is for you and what He's promised He will bring to pass

 God will be a family favorite for years to come *God in an Open Universe* William Hasker,Thomas Jay Oord,Dean
 Zimmerman,2011-08-01 Since its inception the discussion surrounding Open Theism has been dominated by polemics On
 crucial philosophical issues Openness proponents have largely been devoted to explicating the underlying framework and
 logical arguments supporting their perspective against competing theological and philosophical perspectives As a result very
 little constructive work has been done on the interconnections between Open Theism and the natural sciences Given the
 central place of sciences in today s world any perspective that hopes to have a broad impact must necessarily address such
 disciplines in a sustained and constructive manner To date such engagements from the Openness perspective have been rare
 God in an Open Universe addresses this deficiency This book demonstrates that Open Theism makes a distinctive and highly
 fruitful contribution to the conversation and constructive work occurring between philosophy theology and the sciences The
 various essays explore subjects ranging from physics to prayer from special relativity to divine providence from metaphysics
 to evolution and from space time to God All who work at the intersection of theology and the sciences will benefit greatly
 from these essays that break new ground in this important conversation **How Big Is Your God?** Paul Coutinho,2010-11
