Making It In America:

Making It in America Rachel Slade, 2024-01-09 A moving and eye opening look at the story of manufacturing in America whether it can ever successfully return to our shores and why our nation depends on it told through the experience of one young couple in Maine as they attempt to rebuild a lost industry ethically From the best selling author of *Into the Raging Sea* Ben Waxman spent a decade organizing workers in Pennsylvania Ohio and Wisconsin fighting for men and women at a time when national support for unions had sunk to an all time low Frustrated with the state of the world he lands back in his hometown of Portland Maine to rethink his life There he meets Whitney Reynolds a restless bartender eager for a challenge In each other they see a better future a version of the American dream they can build together Ben and Whitney set out to prove that union made all American sourced apparel manufacturing is possible in the twenty first century Their quest takes us across the nation and across time from the cotton fields of Mississippi to the hollowed out garment district in New York City to a family owned zipper company in Los Angeles to the enormous knit and dye houses in North Carolina While battling anti immigrant hostility trade wars and a global pandemic they grapple with the true meaning of made in USA in our globalized world *Making It in America* offers a fascinating new take on free trade economics and manufacturing history Woven through the Waxmans journey is the essential story of textiles and their critical role in shaping capitalism It was the demand for cheap cloth that sparked the industrial revolution It was the brutal conditions in New England s textile mills that first drove workers to organize *Making It in America* is a deeply personal account of how individual choices shape a nation Each touchpoint casts a rare compassionate look at what came before where we are now and where we re going through the people places and ecologies that produce the fabric of our lives **Making America** Berkin, Carol Berkin, 2002-07 *Making America's Streets Safer* United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Crime and Drugs, 2002 **Making America's Budget Policy** Joseph J. Minarik, 1990 This collection of articles traces the evolution over the 1980s of budget policy and tax reform by an architect of the Bradley tax reform bill The articles present a chronological analysis of tax changes and the heated controversy over budget policy and the deficit It concludes with an analysis of what the future holds The author currently staff director of the Joint Economic Committee of Congress has the perspective of a fiscal expert with many years on the Washington scene **Making America / Making American Literature** , 2021-11-01 If 1776 heralds America s Birth of the Nation so too it witnesses the rise of a matching and overlapping American Literature For between the 1770s and the 1820s American writing moves on from the ancestral Puritanism of New England and Virginia though not as yet into the American Renaissance so strikingly called for by Ralph Waldo Emerson Even so the concourse of voices which arise in this period that is between and including Benjamin Franklin and James Fenimore Cooper mark both a key transitional literary generation and yet one all too easily passed over in its own imaginative right This collection of fifteen specially commissioned essays seeks to establish new bearings a revision of one of

the key political and literary eras in American culture Not only are Franklin and Cooper themselves carefully re evaluated in the making of America s new literary republic but figures like Charles Brockden Brown Washington Irving Philip Freneau William Cullen Bryant the other Alexander Hamilton and the playwrights Royall Tyler and William Dunlop Other essays take a more inclusive perspective whether American epistolary fiction a first generation of American women authored fiction the public discourse of The Federalist Papers the rise of the American periodical or the founding African American generation of Phillis Wheatley What unites all the essays is the common assumption that the making of America was as much a matter of creating its national literature as the making of American literature was a matter of shaping a national identity **Making**

Making America's Public Lands Adam M. Sowards,2022-04-15 In the United States the federal government owns more than a quarter of the nation s landscape nearly 640 million acres or more than a million square miles which if consolidated would make it the tenth largest nation on earth Primarily managed by four federal agencies the Bureau of Land Management the U S Forest Service the U S Fish and Wildlife Service and the National Park Service American public lands have been central to developing the American economy state and identity The history of these lands intersects with critical components of the American past namely nature politics and economics From the beginning the concept of public has been the subject of controversy from visions of homesteaders realizing the ideal of the Jeffersonian republic to western ranchers who use the open range to promote a free enterprise system to wilderness activists who see these lands as wild places free from human

encumbrance Environmental historian Adam Sowards synthesizes public lands history from the beginning of the republic to recent controversies Since public lands are located everywhere including iconic national parks like Yellowstone or the Grand Canyon Americans at large have a stake in these lands They are after all ours In a real sense this book is for those citizens who camp in the national forests drive through the national parks or admire distant wilderness landscapes These readers will gain a greater appreciation for the long and complex history of the range of these places

The End of Affirmative Action: Making America Colorblind Again Pasquale De Marco, 2025-03-09 In this groundbreaking book we make a compelling case against affirmative action arguing that it is a failed policy that has actually harmed the very people it was intended to help Affirmative action is based on the assumption that certain groups of people are inherently disadvantaged and therefore deserve preferential treatment This assumption is not only false but it is also harmful It sends the message that members of these groups are not capable of succeeding on their own and that they need special help in order to get ahead This is a demeaning and demoralizing message that has no place in a free and just society Affirmative action also harms the very people it is intended to help By giving preferential treatment to members of certain groups affirmative action creates a system in which these groups are constantly being compared to others This leads to a sense of resentment and division and it undermines the goal of creating a truly unified society In addition to being unfair and harmful affirmative action is also unnecessary There is no evidence that affirmative action has actually helped to level the playing field for historically disadvantaged groups In fact there is evidence that it has actually made things worse For example a study by the National Bureau of Economic Research found that affirmative action programs in higher education have led to a decline in the quality of education for all students We believe that colorblind justice is the only way to achieve a truly just and equal society Colorblind justice means judging individuals solely on their merits without regard to their race gender or other group affiliation This is the only way to ensure that everyone has a fair shot at success This book is a call to action for all Americans who believe in colorblind justice We must work together to end affirmative action and create a society in which everyone is judged solely on their merits If you like this book write a review
