Nancy K. Baym, 2018-07-10 Explains what happened to music for both artists and fans when music went online *Playing to the Crowd* explores and explains how the rise of digital communication platforms has transformed artist fan relationships into something closer to friendship or family Through in depth interviews with musicians such as Billy Bragg and Richie Hawtin as well as members of the Cure UB40 and Throwing Muses Baym reveals how new media has facilitated these connections through the active and often required participation of the artists and their devoted digital fan base Before the rise of social sharing and user generated content fans were mostly seen as an undifferentiated and unidentifiable mass often mediated through record labels and the press However in today's networked era musicians and fans have built more active relationships through social media fan sites and artist sites giving fans a new sense of intimacy and offering artists unparalleled information about their audiences However this comes at a price For audiences meeting their heroes can kill the mystique And for artists maintaining active relationships with so many people can be both personally and financially draining as well as extremely labor intensive Drawing on her own rich history as an active and deeply connected music fan Baym offers an entirely new approach to media culture arguing that the work musicians put in to create and maintain these intimate relationships reflect the demands of the gig economy one which requires resources and strategies that we must all come to recognize and appreciate
