Brown, Nicky Smith, 2014-07-15 This is the first published overview of the archaeology of urban common land. By recognising that urban common land represents a valid historical entity, this book contributes towards successful informed conservation. It contains a variety of interesting and illuminating illustrations including contemporary and archive photographs. Historically, towns in England were provided with common lands for grazing the draft animals of townspeople engaged in trade and for the pasturing of farm animals in an economy where the rural and the urban were inextricably mixed. The commons yielded wood, minerals, fruits and wild animals to the town's inhabitants and also developed as places of recreation and entertainment as extensions of domestic and industrial space and as an arena for military, religious and political activities. However, town commons have been largely disregarded by historians and archaeologists; the few remaining urban commons are under threat and are not adequately protected despite recognition of their wildlife and recreational value. In 2002, English Heritage embarked upon a project to study town commons in England to match its existing initiatives in other aspects of the urban scene. The aim was to investigate through a representative sample the archaeological content and Historic Environment value of urban commons in England and to prompt appropriate conservation strategies for them. The resulting book is the first overview of the archaeology of town commons, a rich resource because of the relatively benign traditional land use of commons which preserves the physical evidence of past activities including prehistoric and Roman remains as well as traces of common use itself. The recognition of town commons as a valid historical entity and a valued part of the modern urban environment is an important first step towards successful informed conservation. An important consideration for the future is maintaining the character of town commons as a different sort of urban open space, distinct from parks and public gardens.

History, 1985      Urban History Yearbook 1986      David Alec Reeder, 1986      **A Social History of England**      Frederick Bradshaw, 1918      **Representation of British Cities**      Andreas Fahrmeir, 2003      Water and Roman Urbanism      Adam Rogers, 2013-04-15

Water and Roman Urbanism      Towns, Waterscapes, Land Transformation and Experience in Roman Britain offers a new perspective for investigating Roman settlement and how urban spaces were created and experienced by focusing on the relationship between settlement and water and the meanings attributed to these places. Rather than a descriptive approach to the urban fabric, it emphasises social context and cultural meaning through interpretative frameworks of analysis. Central are the cultural and experiential implications of water forming part of towns rather than economic and practical arguments and the way in which these places were used and altered over time. The book emphasises a social approach and has considerable implications for our understanding of life in the Roman period as a whole.

**Medieval Town Walls** Oliver Hamilton  
Creighton, Robert Higham, 2005 This book provides an up to date study of medieval town defences mainly in England and Wales but with glances elsewhere focusing on the period from the Norman Conquest to the English Civil Wars Emphasis is placed on archaeology and topography but set within an historical framework Due attention is paid to substantially surviving sites such as Canterbury Conwy and York but the extent to which defence extended to much smaller towns is also highlighted **Medieval Town Walls** seeks to further understanding of the chronologies functions and social significance of British town walls and offer an agenda for further academic study A gazetteer guides the reader through the surviving remains providing an aid to discovering Britain s urban walled heritage at first hand **BOOK JACKET**

**Social History in Museums** David Fleming, Crispin Paine, John G. Rhodes, 1993 This manual contains contributions by 30 museum professionals from a wide range of specialisms with chapters that range from The Decorative Art Approach to The Agricultural History Approach to Oral History Excavation Archaeology Photographs and Films and Period Rooms The discipline of social history is in academic terms very young and its introduction into museums is a recent phenomenon While both these factors lie behind the contributions to this volume and definitions are fluid controversy rife confidence is nonetheless high The wealth of material reflects the growth in the museum movement since the 1940s and the concern of curators to ensure that museums are popular and relevant in their communities **The Planner** , 1986 **Mixed Blessings** James Bruce Thomas, 1989 **The School Librarian** School Library Association, 1984
