Children of Nature William Ulick O'Connor Cuffe Earl of Desart, 1878 **Harper's New Monthly Magazine**, 1871 Lewis Carroll's Alice's Adventures in Wonderland and Through the Looking-Glass Zoe Jaques, Eugene Giddens, 2016-05-06 Emerging in several different versions during the author's lifetime, Lewis Carroll's Alice novels have a publishing history almost as magical and mysterious as the stories themselves. Zoe Jaques and Eugene Giddens offer a detailed and nuanced account of the initial publication of Alice's Adventures in Wonderland and Through the Looking Glass and investigate how their subsequent transformations through print, illustration, film, song, music, videos, and even stamp cases and biscuit tins affected the reception of these childhood favourites. The authors consider issues related to the orality of the original tale and its impact on subsequent transmission, the differences between the manuscripts and printed editions, and the politics of writing and publishing for children in the 1860s. In addition, they take account of Carroll's own responses to the book's popularity, including his writing of major adaptations and a significant body of meta-textual commentary and his reactions to the staging of Alice in Wonderland. Attentive to the child reader, how changing notions of childhood identity and needs affected shifting narratives of the story, and the representation of the child's body by various illustrators, the authors also make a significant contribution to childhood studies.
