Making Of Urban Europe 1000 1950:

The Making of Urban Europe, 1000-1950 Paul M. Hohenberg, Lynn Hollen Lees, 1985 **A Social History of Twentieth- Century Europe** Béla Tomka, 2013 A Social History of Twentieth Century Europe offers a systematic overview on major aspects of social life including population family and households social inequalities and mobility the welfare state work consumption and leisure social cleavages in politics urbanization as well as education religion and culture It also addresses major debates and diverging interpretations of historical and social research regarding the history of European societies in the past one hundred years Organized in ten thematic chapters this book takes an interdisciplinary approach making use of the methods and results of not only history but also sociology demography economics and political science Béla Tomka presents both the diversity and the commonalities of European societies looking not just to Western European countries but Eastern Central and Southern European countries as well A perfect introduction for all students of European history *How Modernity Forgets* Paul Connerton, 2009-07-30 Why are we sometimes unable to remember events places and objects This concise overview explores the concept of forgetting and how modern society affects our ability to remember things It takes ideas from Francis Yates classic work *The Art of Memory* which viewed memory as being dependent on stability and argues that today's world is full of change making forgetting characteristic of contemporary society We live our lives at great speed cities have become so enormous that they are unmemorable consumerism has become disconnected from the labour process urban architecture has a short life span and social relationships are less clearly defined all of which has eroded the foundations on which we build and share our memories Providing a profound insight into the effects of modern society this book is a must read for anthropologists sociologists psychologists and philosophers as well as anyone interested in social theory and the contemporary western world *Town and Country in Europe, 1300-1800* S. R. Epstein, 2001 This 2001 book was the first survey of relations between town and country across Europe between 1300 and 1800 **Secondary Cities** Mark Pendras, Charles Williams, 2021-06-03 This book explores cities and intra regional relational dynamics to challenge common representations of urban development success and failure It provides innovative alternative relations and development strategies that reimagine the subordinate status of secondary cities **City Limits** Glenn Clark, Judith Owens, Greg T. Smith, 2010-02-01 In essays that capture the multiple aspects of urban life contributors examine European cities through the lenses of history literature art architecture and music Covering topics such as governance performance high culture and subculture tourism and journalism this volume provides new and invigorating ways to think about cities both past and present An innovative and interdisciplinary work *City Limits* crosses conventional critical boundaries to depict a vibrant and moving cityscape of historical urban experience **Handbook of Historical Sociology** Gerard Delanty, Engin F. Isin, 2003-06-23 Systematic and informative this book is a complete and authoritative guide to historical sociology in three parts foundations different approaches and major substantive themes *European Migrants* Dirk Hoerder, Leslie Page

Moch,1996 Includes statistics *The Routledge Handbook of Comparative Global Urban Studies* Patrick Le Galès,Jennifer Robinson,2023-09-18 The Routledge Handbook of Comparative Global Urban Studies is a timely intervention into the field of global urban studies coming as comparison is being more widely used as a method for global urban studies and as a number of methodological experiments and comparative research projects are being brought to fruition It consolidates and takes forward an emerging field within urban studies and makes a positive and constructive intervention into a lively arena of current debate in urban theory Comparative urbanism injects a welcome sense of methodological rigor and a commitment to careful evaluation of claims across different contexts which will enhance current debates in the field Drawing together more than 50 international scholars and practitioners this book offers an overview of key ideas and practices in the field and extends current thinking and practice The book is primarily intended for scholars and graduate students for whom it will provide an invaluable and up to date guide to current thinking across the range of disciplines which converge in the study of urbanism including geography sociology political studies planning and urban studies **Urban World History**

Luc-Normand Tellier,2019-09-14 This book seeks to deepen readers understanding of world history by investigating urbanization and the evolution of urban systems as well as the urban world from the perspective of historical analysis The theoretical framework of the approach stems directly from space economy and more generally from location theory and the theory of urban systems The author explores a certain logic to be found in world history and argues that this logic is spatial in terms of spatial inertia spatial trends attractive and repulsive forces vector fields etc rather than geographical in terms of climate precipitation hydrography Accordingly the book puts forward a truly original vision of urban world history one that will benefit economists historians regional scientists and anyone with a healthy curiosity **The Urban Logistic Network**

Giovanni Favero,Michael-W. Serruys,Miki Sugiura,2019-11-20 This edited collection examines the formation of urban networks and role of gateways in Europe from the Middle Ages to the modern world In the past gateway cities were merely perceived as transport points only relevant to maritime shipping Today they are seen as the organic entities coordinating the allocation of resources and supporting the growth efficiency and sustainability of logistics including both the transport and distribution of goods and services Using different historical case studies the authors consider how logistics shaped urban networks and were shaped by them *Migration Policies and Materialities of Identification in European Cities* Hilde Greefs,Anne Winter,2018-10-08 This book focusses on the instruments practices and materialities produced by various authorities to monitor regulate and identify migrants in European cities from the sixteenth to the twentieth centuries Whereas research on migration regulation typically looks at local policies for the early modern period and at state policies for the contemporary period this book avoids the stalemate of modernity narratives by exploring a long term genealogy of migration regulation in which cities played a pivotal role The case studies range from early modern Venice Stockholm and Constantinople to nineteenth and twentieth century port towns and capital cities such as London and Vienna *Print*

Culture and Peripheries in Early Modern Europe Benito Rial Costas, 2012-11-09 Despite the fact that if only by number small and peripheral cities played an important role in fifteenth and sixteenth century European print culture book history has mainly been dominated by monographs on individual big book centres Through a number of specific case studies which deploy a variety of methods and a wide range of sources this volume seeks to enhance our understanding of printing and the book trade in small and peripheral European cities in the fifteenth and sixteenth centuries and to emphasize the necessity of new research for the study of print culture in such cities

Synergy in Polycentric Urban Regions Evert J. Meijers, 2007 Thanks to reality and the stubborn resistance of history to accommodate urban planning often cities of about the same size wind up fairly close to each other and although they do not merge or in other ways behave as one entity they become co dependent either formally or informally in terms of identity if not its services Meijers presents here his doctoral dissertation which was undertaken with the support of an urban research project in The Netherlands He describes polycentric urban regions and their nearly universal quest for synergy the division of labor of one set of cities in the Randstad Flemish Diamond and RheinRuhr areas moving from a central places theory too a network model realizing the potential of a polycentric urban region abandoning the idea that adding up small cities makes a metropolis and synthesizing theoretical and case study information

What is Urban History? Shane Ewen, 2016-09-12 Urban history is a well established and flourishing field of historical research Written by a leading scholar this short introduction demonstrates how urban history draws upon a wide variety of methodologies and sources and has been integral to the rise of interdisciplinary and comparative approaches to history since the second half of the twentieth century Shane Ewen offers an accessible and clearly written guide to the study of urban history for the student teacher researcher or general reader who is new to the field and interested in learning about past approaches as well as key themes concepts and trajectories for future research He takes a global and comparative viewpoint combining a discussion of classic texts with the latest literature to illustrate the current debates and controversies across the urban world The historiography of the field is mapped out by theme including new topics of interest with a particular focus on space and social identity power and governance the built environment culture and modernity and the growth and spread of transnational networking By discussing a number of historic and fast growing cities across the world What is Urban History demonstrates the importance of the history of urban life to our understanding of the world both in the present and the future As a result urban history remains pivotal for explaining the continued growth of towns and cities in a global context and is particularly useful for identifying the various problems and solutions faced by fast growing megacities in the developing world

A Thousand Years of Nonlinear History Manuel De Landa, 2021-09-14 Following in the wake of his groundbreaking work *War in the Age of Intelligent Machines* Manuel De Landa presents a brilliant radical synthesis of historical development of the last thousand years *A Thousand Years of Nonlinear History* sketches the outlines of a renewed materialist philosophy of history in the tradition of Fernand Braudel Gilles Deleuze and Félix Guattari while engaging in an

entirely unprecedented manner the critical new understanding of material processes derived from the sciences of dynamics Working against prevailing attitudes that see history merely as the arena of texts discourses ideologies and metaphors De Landa traces the concrete movements and interplays of matter and energy through human populations in the last millennium The result is an entirely novel approach to the study of human societies and their always mobile semi stable forms cities economies technologies and languages De Landa attacks three domains that have given shape to human societies economics biology and linguistics In each case De Landa discloses the self directed processes of matter and energy interacting with the whim and will of human history itself to form a panoramic vision of the West free of rigid teleology and naive notions of progress and even more important free of any deterministic source for its urban institutional and technological forms The source of all concrete forms in the West s history rather is shown to derive from internal morphogenetic capabilities that lie within the flow of matter energy itself A Swerve Edition High Germans In The Low Countries Donald J.

Harreld,2004-01-01 This volume looks at the South German merchant community during Antwerp s Golden Age by examining German involvement in the social life of the city as well as by tracing merchants commercial activities The first section of the book considers the institutions of trade and the role Germans played in their development and how Germans interacted with other foreign merchant communities The second section takes a wider view by tracing the commercial networks that South German merchants operated in and by quantifying South German participation in Antwerp s foreign trade *Ebook: Urban Economics* O'SULLIVAN,2012-01-16 Ebook Urban Economics Capital Cities: Varieties and Patterns of Development and Relocation Vadim Rossman,2018-03-12 The issue of capital city relocation is a topic of debate for more than forty countries across the world In this first book to discuss the issue Vadim Rossman offers an in depth analysis of the subject highlighting the global trends and the key factors that motivate different countries to consider such projects analyzing the outcomes and drawing lessons from recent capital city transfers worldwide for governments and policy makers Capital Cities studies the approaches and the methodologies that inform such decisions and debates Special attention is given to the study of the universal patterns of relocation and patterns specific to particular continents and mega regions and particular political regimes The study emphasizes the role of capital city transfers in the context of nation and state building and offers a new framework for thinking about capital cities identifying six strategies that drive these decisions representing the economic political geographic cultural and security considerations Confronting the popular hyper critical attitudes towards new designed capital cities Vadim Rossman shows the complex motives that underlie the proposals and the important role that new capitals might play in conflict resolution in the context of ethnic religious and regional rivalries and federalist transformations of the state and is seeking to identify the success and failure factors and more efficient implementation strategies Drawing upon the insights from spatial economics comparative federalist studies urban planning and architectural criticism the book also traces the evolution of the concept of the capital city showing that the design iconography and the

location of the capital city play a critical role in the success and the viability of the state
