Many Globalizations Cultural Diversity In The Contemporary World:

Many Globalizations Peter L. Berger, Samuel P. Huntington, 2002-06-06 Much discussed but poorly understood globalization is at once praised as the answer to all the world's problems and blamed for everything from pollution to poverty. Here Berger and Huntington bring together an array of experts who paint a subtle and richly shaded portrait showing both the power and the unexpected consequences of this great force. The stereotypes of globalization characterized as American imperialism on the one hand and as an economic panacea on the other fall apart under close scrutiny. Surveying globalization from individual countries of the five major continents, *Many Globalizations* shows that an emerging global culture does indeed exist. While globalization is American in origin and content, the authors point out that it is far from a centrally directed force like classic imperialism. They examine the currents that carry this culture from a worldwide class of young professionals to non-governmental organizations and define globalization's many variations as well as sub-globalizations that bind regions together. Analytical, incisive, and stimulating, *Many Globalizations* offers rare insight into perhaps the central issue of modern times: one that is changing the West as much as the developing world. Provocative. Taken together, the trenchant, well-written essays included in this collection provide indisputable evidence that an identifiable global culture is indeed emerging. *World Policy Journal*. Analytical and penetrating, belongs on the desks of anyone with an abiding interest in the forces shaping the world. *Publishers Weekly*

Many Globalizations Peter L. Berger, Samuel P. Huntington, 2002 *Many Globalizations* is an attempt to account for the cultural impact of globalisation in the lives of ordinary citizens from ten countries. The results of the study portray vast numbers of people intermixing participation in a global economy with indigenous values and lifestyles.

Understanding Cultural Diversity in Today's Complex World Dr. Leo Parvis, 2005 No one in this country is untouched by the impact of diversity. Yet as diverse as diversity is, are too the many different emotions and attitudes evoked by diversity. As a nation, we are not well equipped to deal with the swirling transitions that are converging on us on a daily basis because of the nature of being the most diverse country in the world. This text will well serve the purpose for many who decide to learn and teach the fundamentals of cultural diversity. It will be beneficial for college students, high school juniors and seniors, and organizations whose ever-changing workforce leads to the necessity of educating employees on how to deal with the diversity of employees and customers in a positive manner. This timely publication is filled with current and relevant examples taken from pop culture, from TV shows, song lyrics, and poetry of the times. These excerpts make this publication much more interesting and easy for the reader to relate to and understand.

Multiple Globalizations: Linguistic Landscapes in World-Cities Eliezer Ben-Rafael, Miriam Ben-Rafael, 2018-11-26 This work studies aspects of the symbolic construction of public spaces by means of linguistic resources, i.e. linguistic landscapes or LLs in a number of world cities. The sociology of language leads us to this field and to study the intermingling impacts of globalization, the national principle, and multiculturalism, each one conveying its own distinct linguistic markers: international codes, national languages, and ethnic

vernaculars Eliezer and Miriam Ben Rafael study the configurations of these influences which they conceptualize as multiple globalization in the LLs of downtowns residential quarters and marginal neighborhoods of a number of world cities They ask how far worldwide codes of communication gain preeminence national languages are marginalized and ethnic vernaculars impactful They conclude by suggesting a paradigm of multiple globalizations *Global Television Formats* Sharon Shahaf,Tasha Oren,2013-06-17 Winner of the 2013 SCMS Best Edited Collection Award For decades television scholars have viewed global television through the lens of cultural imperialism focusing primarily on programs produced by US and UK markets and exported to foreign markets *Global Television Formats* revolutionizes television studies by de provincializing its approach to media globalization It re examines dominant approaches and their legacies of global local and center periphery and offers new directions for understanding television s contemporary incarnations The chapters in this collection take up the format phenomena from around the globe including the Middle East Western and Eastern Europe South and West Africa South and East Asia Australia and New Zealand North America South America and the Caribbean Contributors address both little known examples and massive global hits ranging from the Idol franchise around the world to telenovelas dance competitions sports programming reality TV quiz shows sitcoms and more Looking to global television formats as vital for various cultural meanings relationships and structures this collection shows how formats can further our understanding of television and the culture of globalization at large *Global Ireland* Tom Inglis,2007-10-18 *Global Ireland* offers a concise synthesis of globalization s dramatic impact on Ireland In the past fifteen years Ireland has transformed from a sleepy and depressed European backwater to the emerald tiger a country with a booming economy based on knowledge and high tech industries Not long ago it was one of the poorest and most traditional countries in Europe yet now it is one of the wealthiest and most cosmopolitan Using a number of case studies of Ireland s transition Tom Inglis explains what this means for traditional Irish culture and society and offers an incisive social portrait of globalizing Ireland Concise descriptive interdisciplinary and theoretically informed this volume is an ideal introduction to Ireland **Religion in Global Civil Society** Mark Juergensmeyer,2005-11-03 The extraordinary changes in world society at the beginning of the 21st century have involved religion to a degree that would have amazed earlier observers of modernity Within the past decade religion has been associated with some of the world s most strident forms of political encounter including new movements of nationalism the clerical leadership of political sects and the religiously motivated acts of terrorism Religion seems to be trying to tear the planet apart even as other cultural forces seem to be trying to pull it together The technology of the Internet film television cell phones and other forms of rapid universal communication seem to be knitting the world into a single social fabric Consumer franchises and popular culture seem to be making the world a single global city Religion seems to be at odds with all of this Is religion the natural enemy of globalization The essays in this volume explore the difficulties and possibilities of a diversity of religious groups occupying the same civil society The authors avoid simplistic generalizations Religion they show

is not only identified with the culture and politics of the hostile anti urban village it is not simply the jihad that Benjamin Barber identified as the opponent of the homogenous global culture of McWorld True some religious activists have blown things up But others have tried to smooth things over Even the religious opposition to globalization is nuanced Some violent activists like Hindu extremists in India want a new religious state Others like Christian militias or al Qaeda envision a transnational religious entity a kind of religious globalization to supplant the secular one Prophetic religious voices call for moderation justice and environmental protection Religion these essays demonstrate plays diverse and sometimes contradictory roles in the new cultural globalization In a global culture the shared values of different religious traditions can provide a collective sense of virtuous conduct in public life But religion can also support the position of enemies of global society those who see in globalization the effort to impose the values and power of one country over the others

From Post-Industrial to Post-Modern Society Krishan Kumar, 2009-02-09 The second edition of this classic study revised with a new and substantial opening chapter New edition of a classic study by a leading social theorist Explores three major ideas crucial to contemporary social theory the information society post Fordism and post modernism Places the three key ideas within the context of contemporary discourse on globalization

Global Fissures Clara A.B. Joseph, 2006-01-01 The essays in this volume examine the tensions between two major political and intellectual structures the global and the postcolonial charting the ways in which such tensions are constitutive of changing power relations between the individual the nation state and global forces Contributors ask how postcolonialism with its emphasis on cultural difference and diversity can respond to the new neo imperialist imperatives of globalization Signalling the discursive grounds for debate is the fissures fusions title suggesting alternative categorizations of stereotypes like global homogenization and postcolonial resistance Interwoven are considerations of the intellectual or writer s position today Literary texts from a wide range of countries are analysed for their resistance to global hegemony and for representations of manipulative power structures in order to highlight issues such as environmental loss nationality migrancy and marginality Specific topics covered include westernizing the Indian academy ecotourism and the new media of computer technology the corporatization of creativity in re branding New Zealand including film and the hybrid forms of Latin American photography Writers discussed include Chinua Achebe Samuel Beckett Hafid Bouazza Bei Dao Mahmoud Darwish Witi Ihimaera James Joyce Yann Martel Rohinton Mistry Ellen Ombre Michael Ondaatje George Orwell Arundhati Roy Salman Rushdie and Edward Said Different essays stress the hegemony of global networks the technological revolution s revitalizing of niche marketing while marginalizing postcolonial resistance the implications of the internationalization of culture for the indigene and the potential of cultural hybridity to collapse cultural hierarchies

The Critical Analysis of Religious Diversity Lene Kühle, Jørn Borup, William Hoverd, 2018-06-19 Drawing on international and thematic case studies The Critical Analysis of Religious Diversity asks its readers to pay attention to the assumptions and processes by which scholars religious practitioners and states construct religious diversity The study has

three foci theoretical and methodological issues religious diversity in non Western contexts and religious diversity in social contexts Together these trans contextual studies are utilised to develop a critical analysis exploring how agency power and language construct understandings of religious diversity As a result the book argues that reflexive scholarship needs to consider that the dynamics of diversification and homogenisation are fundamental to understanding social and religious life that religious diversity is a Western concept and that definitions of religious diversity are often entangled by and within dynamic empirical realities Contributors are Martin Baumann Peter Beyer J rn Borup Paul Bramadat Marian Burchardt Henrik Reintoft Christensen Andrew Dawson Mar Grier Anna Halafoff William Hoverd Lene K hle Mar Marcos Stefania Travagnin and Andreas Tunger Zanetti
