Platinum Pohl Frederik Pohl,2007-01-23 Frederik Pohl the bestselling author of The Boy Who Would Live Forever is famous for his novels but first and foremost he is a master of the science fiction short story For more than fifty years he has been writing incisive entertaining SF stories several hundred in all Even while writing his bestselling triple crown Hugo Nebula Campbell Award novel Gateway and the other Heechee Saga novels he has always written short fiction Now for the first time he has gathered together the best of his many stories in Platinum Pohl Spanning the decades these tales are in their way a living history of science fiction Because Frederik Pohl has been on the frontlines of the field since the halcyon days of the late 1930s and has written short stories in every decade since And because he has always been a keen observer of the human condition and the world that is shaped by it his stories reflect the currents of political movements social trends major events that have shaken the world Yet at their core all his stories are most acutely concerned with people All sorts of people Some are people you ll love some you ll hate But you will need to find out what happens to the people who inhabit these stories Because Frederik Pohl imbues his characters with a depth and individuality that makes them as real as people you see every day Of course he also employs a mind boggling variety of scientific ideas and science fictional tropes with which his characters must interact And he does it all with seemingly no effort at all That s some trick Not everyone can do that but that s why he was named a Grand Master of Science Fiction by his peers in the Science Fiction Writers of America Here are his two Hugo Award winning stories Fermi and Frost and The Meeting with C M Kornbluth along with such classic novellas as the powerful The Gold at the Starbow s End and The Greening of Bed Stuy and stories such as Servant of the People Shaffery Among the Immortals and Growing Up in Edge City all finalists for major awards And dozens of other
