Younghusband Patrick French, 2016-06-21 Soldier explorer mystic guru and spy Francis Younghusband began his colonial career as a military adventurer and became a radical visionary who preached free love to his followers Patrick French's award winning biography traces the unpredictable life of the maverick with the damned rum name who single handedly led the 190 British invasion of Tibet discovered a new route from China to India organized the first expeditions up Mount Everest and attempted to start a new world religion Following in Younghusband's footsteps from Calcutta to the snows of the Himalayas French pieces together the story of a man who embodies all the romance and folly of Britain's lost imperial dream

The Edwardians Roy Hattersley, 2015-09-01 A convincing account of a watershed epoch Hattersley's concise yet comprehensive history casts new light on a much misunderstood era Publishers Weekly Edwardian Britain has often been described as a golden sunlit afternoon personified by its genial and self indulgent King In fact modern Britain was born during the reign of Edward VII when politics science literature and the arts were turned upside down In Parliament the peers were crushed for the first time since Magna Carta Irish nationalists and suffragettes took politics out on to the streets Home Rule and Votes for Women were delayed not precipitated by the First World War Great parliamentary stars such as Lloyd George and Winston Churchill typified an era in which personalities dominated the headlines of the new tabloid newspapers It was the age of Rolls and Royce Scott and Shackleton Edward Elgar Shaw the Pankhursts and Mrs Alice Keppel whose social life was reported without mention of her relationship with the King The theater of ideas superseded drawing room dramas Novelists of genius from Henry James to D H Lawrence produced a masterpiece each year A London gallery caused a sensation with an exhibition of Postimpressionists Edward Elgar was the first English composer for two hundred years to stand comparison with the continental European masters In sport Victorian chivalry was replaced with unashamed professionalism Man flew for the first time and the motorcar became a common sight on city streets Physicists examined the structure of the atom and philosophers disputed the traditional definition of virtue The churches tried without success to confront and confound a new skepticism Explorers sought to prove that men could live and die like gods Drawing on previously unpublished diaries and letters Roy Hattersley's *The Edwardians* is a beguiling account of a turbulent and frequently misunderstood period It is a full and often humorous portrait of an era that he elevates to its rightful place in British history
