Ethics in a Cocoon V. David Schwantes,2007-09 Cocoon demonstrates in easy to understand language that ethics is about trust and happiness Trust is the essential ingredient to mutually supportive and durable relationships focused on reducing life s imperfections Such relationships are the key to happiness But we cannot live deep inside protective cocoons and still build trust and relationships Instead we must develop all the dimensions of what makes us human intellectual truth spiritual unity moral goodness and aesthetic beauty Above all we have to know ourselves and be able to pass the mirror test every day Our most important relationship after all being with ourself and we don t discover our spiritual unity without a Personal Strategic Plan Nor can we become ethically fit without enthusiasm equanimity and a commitment to excellence traits not found in cocoons Only ethical fitness can help us find the resolution to the fundamental ethical dilemmas we all face truth versus loyalty short term versus long term individual versus community and justice versus mercy This book suggests we use a variety of lenses to look at the world today power wealth prestige status We use the lenses of economics politics and technology We do not use nearly enough the lens of ethics relationships happiness decency and the golden mean Once we re ethically fit the result of continuous practice we re able to recognize ethical dilemmas approach them skillfully and resolve them successfully This book shows the way to such fitness which is useful in any context or relationship personal local or global Cocoon is a self improvement book of the first order with real

life macro illustrations of the ethical dilemmas we face in a complex and crowded world in which too many of us pursue the dictates of false gods It includes over 500 practice questions and was developed as a textbook in the ethics courses the author taught to seniors at Ramapo College from 2002 th *Bounding Greed* René O. Guillaume, Edna Martinez, 2023-03-01 Building on the work of Guillaume 2021 the collection of autoethnographies and testimonios in this book highlight positive coping mechanisms strategies and healthy boundaries that early middle and late career Faculty of Color at comprehensive universities have deployed to negotiate home and work As beautifully stated by Aerial A Ashlee whose story you will find in chapter two It is not a formula a blueprint to copy or a recipe to repeat however we hope that the stories about relying on faith family mentors culture and community presented in the following chapters will support Faculty of Color in their own well being and work life integration efforts Certainly work life balance or integration is not the solution to deeply entrenched systemic issues in higher education however research in the area of work life balance integration has affirmed the need for postsecondary institutions to place significant importance on the topic of work life in particular the need for increased support at both the department and institutional levels Denson et al 2018 Thus it is also our hope that this book will serve as a resource for educational leaders in the area of faculty development as well as academic administrators whose role is to recruit retain and evaluate Faculty of Color at comprehensive universities
