Ritual Memory Els Rose, 2009 Ritual Memory brings together two areas of study which have hitherto rarely been studied in comparison liturgy and the apocryphal Acts of the Apostles The book gives an analysis of the liturgical celebration of the apostles in the medieval West and examines the incorporation of the apocrypha in practices of ritual commemoration It reveals the role that liturgy played in the transmission of the apocryphal Acts and visualises the way these narrative traditions developed and changed through their incorporation into a ritual context The result is a dynamic picture of the ritual reception of the extra canonical Acts in the Latin Middle Ages where the apocryphal legends about the apostolic past were approached as memorable traditions on the origins of Christianity *The Amatory Elegies of Johannes Secundus* Paul Murgatroyd, 2022-05-16 This volume contains the first translation into English of all the major love poetry of the Renaissance neo Latin poet Johannes Secundus and the first detailed critical appreciation of the first two books of his Elegies and the Elegiae Sollemnes The book consists of an introduction on the poet's life and works characters in and dating of the amatory elegies literary background etc facing Latin text and English translation of the Elegies brief explanatory notes and full essays of appreciation an appendix with a translation into English of the Basia and Epithalamium and an index This work contains extensive amounts of valuable information about Secundus models wit style sound diction placement structure manipulation of characters and themes generic innovation etc and facilitates a complete reappraisal of this major Renaissance love poet

Early Medieval Glosses on Prudentius' Psychomachia Sinéad O'Sullivan, 2004-06-01 This book focuses on the glosses on Prudentius Psychomachia as found in the German or Weitz manuscript tradition These glosses provide a fascinating window to the intellectual world of the late Carolingian and Ottonian periods Introducing the reader to the rudiments of Christian exegesis and encyclopaedic information they represent an important moment in the history of early medieval thought and instruction In the book attention is redirected from the philological concerns of conventional glossing studies

toward mainstream intellectual history The first part examines the manuscripts function and sources of the glosses The second part provides an introduction to the edition together with a diplomatic transcription of the Latin and German annotations in three Weitz manuscripts **Rewriting Roman History in the Middle Ages** Marek Thue

Kretschmer,2007-04-30 The Historia Romana was the most popular work on Roman history in the Middle Ages A highly interesting aspect of its transmission and reception are its many redactions which bear witness to the continuous development of the text in line with changing historical contexts This study presents the very first classification of such rewritings and produces new insights into historiographical discourse in the Middle Ages Drawing on an analysis of the paraphrase contained in the manuscript Bamberg Hist 3 which is edited here for the first time the author offers numerous examples of textual transformations of language style and ideology all of which give us a clearer picture of textual fluidity in medieval historiography **Poetry and Philosophy in the Middle Ages** John Marenbon,Peter Dronke,2001-01-01 A

by the ancient art of rhetoric In the past time academic research has concentrated on the rhetorical theories of the Middle Ages Artes rhetoricae Artes praedicandi Artes arengandi while the contemporary practice of oratory has been completely neglected Against the still prevailing opinion the present study shows that there is a medieval tradition of Latin speeches delivered on various occasions The author presents a number of highly interesting Latin texts each accompanied by a historical introduction a German translation and an extensive analysis of the rhetorical quality
