Philosophical Understanding and Religious Truth /cErich Frank Erich Frank,1949 **Philosophical Understanding and Religious Truth** Erich Frank,1982 **Gadamer and the Question of the Divine** Walter Lammi,2011-10-27 Gadamer and the Question of the Divine uncovers a neglected side of Gadamer's thought namely his life long concern with the question of the divine Not only is this an issue of fundamental importance to philosophical hermeneutics but it also contributes to what Gadamer considered to be the most urgent task of our time a conceptual dialogue among religions New grounds for toleration among communities must be found and Gadamer's study of the divine provides both a model and a starting place for doing so In setting forth a conceptual narrative for global dialogue about religious transcendence Gadamer is the pre eminent twentieth century philosopher of the divine Gadamer's study of the divine is an application of philosophical hermeneutics and phenomenological in its descriptions of temporality and the experience of art Walter Lammi shows how Gadamer provides us with a richly textured study of the divine that finds its bearings in Heidegger and the Greeks and suggests a path to questions of cosmology temporality and religious experience

A Word Fitly Spoken Philip L. Culbertson,1995-02-23 This book compares New Testament and Rabbinical texts in order to recover the oral tradition accompanying the written Biblical text Although New Testament Greek is a hellenistic idiom it reflects a Semitic rather than a hellenistic culture Therefore Culbertson looks to Jewish sources in order to understand the Greek text rather than to the philosophical methodological and literary sources of hellenistic culture The author uses specific examples to illustrate various literary theories and to prove the value of a Listener Response Analysis of Gospel texts A dozen parables are discussed in detail *New Testament Faith for Today* Amos N. Wilder,2014-05-06 What was the faith behind the proclamations of Jesus the message of Paul and the Johannine witness and how can it be recovered today This penetrating and provocative book seeks to probe the various formulations of religious faith in the New Testament with a view to recovering the real essence and genius of Christianity today Dr Wilder sees three principal strains often harmonious but sometimes disparate in New Testament faith the proclamations of Jesus the message of Paul and the witness of John the Evangelist First he studies what has happened to our faith since its original message emerged from the concrete historical act and the resultant community of experience In the time since flesh and spirit as well as humanity and divinity have come to be regarded as mutually exclusive making it necessary for scientific humanism to develop a language of its own for religion has lost communication with it Jesus message however was a total claim and a total hope a prophetic forecast of human destiny Paul though he spoke a different language and used different symbols laid the groundwork for an epochal revolution of the race John for his part emphasized eternal life here and now and previsioned a Christian freedom Dr Wilder ends with a stirring plea for a postliberal viewpoint that will recover the insights of the past without its mythology and terminology *The Prophetic Voice in Protestant Christianity* Ralph G. The Patristic Witness of Georges Florovsky Georges Florovsky, 2019-09-19 Georges Florovsky 1893 1979 was one of the most prominent Orthodox theologians and ecumenists of the twentieth century His call for a return to patristic writings as a source of modern theological reflection had a powerful impact not only on Orthodox theology in the second half of the twentieth century but on Christian theology in general Florovsky was also a major Orthodox voice in the ecumenical movement for four decades and he is one of the founders of the World Council of Churches This book is a collection of major theological writings by George Florovsky It includes representative and widely influential but now largely inaccessible texts many newly translated for this book divided into four thematic sections Creation Incarnation and Redemption The Nature of Theology Ecclesiology and Ecumenism and Scripture Worship and Eschatology A foreword by Metropolitan Kallistos Ware presents the theological vision of Georges Florovsky and discusses the continuing relevance of his work both for Orthodox theology and for modern theology in general The introduction by the Editors provides a theological and historical overview of Florovsky theology in the context of his biography The book includes explanatory notes translation of patristic citations and an index

God and Nature David C. Lindberg, Ronald L. Numbers, 2023-11-15 Since the publication in 1896 of Andrew Dickson White's classic *History of the Warfare of Science with Theology in Christendom* no comprehensive history of the subject has appeared in the English language Although many twentieth century historians have written on the relationship between Christianity and science and in the process have called into question many of White's conclusions the image of warfare lingers in the public mind To provide an up to date alternative based on the best available scholarship and written in nontechnical language the editors of this volume have assembled an international group of distinguished historians In eighteen essays prepared especially for this book these authors cover the period from the early Christian church to the twentieth century offering fresh appraisals of such encounters as the trial of Galileo the formulation of the Newtonian worldview the coming of Darwinism and the ongoing controversies over scientific creationism They explore not only the impact of religion on science but also the influence of science and religion This landmark volume promises not only to silence the persistent rumors of war between Christianity and science but also serve as the point of departure for new explorations of their relationship Scholars and general readers alike will find it provocative and readable Since the publication in 1896 of Andrew Dickson White's classic *History of the Warfare of Science with Theology in Christendom* no comprehensive history of the subject has appeared in the English language Although many twentieth century historians

Religion of the Future Theodore John Rivers, 2011-11-25 In *The Future of Religion and the Religion of the Future* Theodore John Rivers explores the changing relationship between technology and religion. Rivers draws upon his expertise in the fields of medieval and religious history to discuss how the promotion of Christianity and monasticism in the Middle Ages began a process that has lent religious undertones to the way in which we interact with modern technology. Rivers ultimately suggests that the growing presence of technology makes it a likely candidate for the next religious form competing with all the major religions in place today.

The Divine Comedy Dante Alighieri, 1961-12-31 An invaluable source of pleasure to those English readers who wish to read this great medieval classic with true understanding. Sinclair's three volume prose translation of Dante's *Divine Comedy* provides both the original Italian text and the Sinclair translation arranged on facing pages and commentaries appearing after each canto which serve as brilliant examples of genuine literary criticism. This volume contains the complete translation of Dante's *Paradiso*.

Piety and Humanity Douglas Kries, 1997 The nature of the relationship between early modern political philosophy and revealed religion has been much debated. The contributors to *Piety and Humanity* argue that this relationship is one of dissonance rather than concord. They claim that the early modern political philosophers found revealed religion, especially Christianity, to be a threat to the modern political project and that these philosophers therefore attempted to transform revealed religion so that it would be less of a threat and possibly even an aid. Each essay is devoted to a particular work by a single political philosopher; the thinkers and works discussed include Machiavelli's *Exhortation to Penitence*, Francis Bacon's *New Atlantis*, Spinoza's *Theologico Political Treatise*, and Locke's *Reasonableness of Christianity*. Each essay is followed by a brief selected bibliography. This book will be of great importance to philosophers, political theorists, and scholars of religion and early modern European history.
