Philosophy, Writing, and the Character of Thought John T. Lysaker, 2021-09-20 Lysaker examines the relationship between philosophical thought and the act of writing to explore how this dynamic shapes the field of philosophy Philosophy s relation to the act of writing is John T Lysaker s main concern in Philosophy Writing and the Character of Thought Whether in Plato Montaigne Nietzsche Wittgenstein or Derrida philosophy has come in many forms and those forms the concrete shape philosophizing takes in writing matter Much more than mere adornment the style in which a given philosopher writes is often of crucial importance to the point he or she is making part and parcel of the philosophy itself Considering how writing influences philosophy Lysaker explores genres like aphorism dialogue and essay as well as logical rhetorical operations like the example irony and quotation At the same time he shows us the effects of these rhetorical devices through his own literary experimentation In dialogue with such authors as Benjamin Cavell Emerson and Luk cs he aims to revitalize philosophical writing arguing that philosophy cannot fulfill its intellectual and cultural promise if it keeps to professional articles and academic prose Instead philosophy must embrace writing as an essential creative activity and deliberately reform how it approaches its subject matter readership and the evolving social practices of reading and reflection

Herder: Philosophical Writings Johann Gottfried Herder, 2002-09-05 Publisher Description

Philosophical Writings Simone de Beauvoir, Margaret A. Simons, 2005-01-26 Despite growing interest in her philosophy Simone de Beauvoir remains widely misunderstood She is typically portrayed as a mere intellectual follower of her companion Jean Paul Sartre In Philosophical

Writings Beauvoir herself shows that nothing could be further from the truth Beauvoir's philosophical work suffers from a lack of English language translation or worse mistranslation into heavily condensed popular versions Philosophical Writings provides an unprecedented collection of complete scholarly editions of philosophical texts that cover the first twenty three years of Beauvoir's career including a number of recently discovered works Ranging from metaphysical literature to existentialist ethics Philosophical Writings brings together diverse elements of Beauvoir's work while highlighting continuities in the development of her thought Each of the translations features detailed notes and a scholarly introduction explaining its larger significance Revelatory and long overdue Philosophical Writings adds to the ongoing resurgence of interest in Beauvoir's thought and to her growing influence on today's philosophical curriculum

Plato and the Art of Philosophical Writing Christopher Rowe, 2007-11-22 Plato's dialogues are usually understood as simple examples of philosophy in action In this book Professor Rowe treats them rather as literary philosophical artefacts shaped by Plato's desire to persuade his readers to exchange their view of life and the universe for a different view which from their present perspective they will barely begin to comprehend What emerges is a radically new Plato a Socratic throughout who even in the late dialogues is still essentially the Plato and the Socrates of the Apology and the so called Socratic dialogues This book aims to understand Plato both as a philosopher and as a writer on the assumption that neither of these aspects of the dialogues can be understood without the other The argument of the book is closely based in Plato's text but should be accessible to any serious reader of Plato whether professional philosopher classicist or student

The Unity of Content and Form in Philosophical Writing Jon Stewart, 2013-07-18 In *The Unity of Content and Form in Philosophical Writing* Jon Stewart argues that there is a close relation between content and form in philosophical writing While this might seem obvious at first glance it is overlooked in the current climate of Anglophone academic philosophy which Stewart contends accepts only a single genre as proper for philosophical expression Stewart demonstrates the uniformity of today's philosophical writing by contrasting it with that of the past Taking specific texts from the history of philosophy and literature as case studies Stewart shows how the use of genres like dialogues plays and short stories were an entirely suitable and effective means of presenting and arguing for philosophical positions given the concrete historical and cultural contexts in which they appeared Now Stewart argues the prevailing intolerance means that the same texts are dismissed as unphilosophical merely due to their form although their content is in fact profoundly philosophical The book's challenge to current conventions of philosophical is provocative and timely and will be of great interest to students and scholars of philosophy literature and history

Writing Philosophy Richard A. Watson, 1992 Richard A Red Watson has published fiction general nonfiction and scholarly books His essay *On the Zeedijk about Descartes in Holland* and first published in *The Georgia Review* was the lead essay in *The Pushcart Prize XV* 1990 1991 Best of the Small Presses Red knows writing He also knows academe and has written *Writing Philosophy* as a kind of survival manual for undergraduates graduate students and junior faculty members in

philosophy Also helpful to those in the humanities and the social sciences the book is a guide to the professional writing and publishing that are essential to an active participation in the conversation and discussion that constitute these professional fields To the extent that publication is the crucial factor in tenure decisions it will help the beginning scholar meet tenure criteria Despite the importance of the oral tradition in philosophy and the influence of the dialogue many philosophical points are so intricate and complex that they can be advanced followed and criticized only if they are written as stepwise arguments for study and contemplation at length and at leisure Watson provides a set of basic principles and a plan for writing argumentative papers of 1 500 to 15 000 words 3 to 30 printed pages and books containing a sequence of sustained arguments of 70 000 to 150 000 words 200 to 300 printed pages Because the first book of most professional philosophers is a revised dissertation Watson presents a plan for writing that dissertation in such a way that its chapters will serve as publishable articles and the dissertation itself will need very little rewriting as a book His discussion of the principles of reason clarity and argument ranges from such topics as dangling participles and the proper usage of ellipses to matters of categorization and univocity
