interests is in the beauty of the cosmos and how it reflects the beauty of God This book is about the beauty of God's realm and it conceives God's realm as the arts politics liturgy religions and human life It touches on the many places where beauty and spirituality overlap It is an engagement in theological aesthetics that goes well beyond the aesthetic Architect Knows Best Simon Richards, 2016-04-15 The idea that buildings could be used to reform human behaviour and improve society was fundamental to the modernist architecture and planning of people like Walter Gropius Le Corbusier and Jos Luis Sert in the first half of the 20th century Their proposals for functional zoning multi level transport high rise living and machine inspired aesthetics came under attack from the 1950s onwards and many alternative approaches to architecture and planning emerged It was thought that the environmental determinist strand of the discourse was killed off at this time as well This book argues that it was not but on the contrary that it has deepened and diversified Many of the most prominent architect planners continue to design with a view to improving the behaviour of individual people and of society at large By looking at and interviewing major figures and movements of recent years in Britain Europe and America including Leon Krier Peter Eisenman Andr s Duany Jane Jacobs Robert Venturi and Denise Scott Brown it demonstrates the myriad ways that architect planners seek to shape human behaviour through buildings In doing so the book raises awareness of this strand within the discourse and examines its different purposes and manifestations It questions whether it is an ineradicable and beneficial part of architecture and planning or a regrettable throwback to a more authoritarian phase discusses why it is seldom acknowledged directly and whether it could be handled more responsibly and with greater understanding Richards does not provide any simple solutions but in conclusion is critical of architect planners who abuse the rhetoric of social reform simply to leverage their attempts to secure building commissions while being more sympathetic towards those who appear to have a sincere desire to improve society through their buildings

Aesthetics from Classical Greece to the Present Monroe C. Beardsley, 1975-10-30 Seeks to bring present day philosophy principles into the history of aesthetics Before the publication of *Aesthetics from Classical Greece to the Present* there were three histories of aesthetics in English Bosanquet's pioneering work the second part of Croce's *Aesthetic* in the Ainslie translation and the comprehensive volume by Gilbert and Kuhn While each of these is interesting in its own ways and together they cover a good deal of ground none of them is very new Thus none could take advantage of recent work on many important philosophers and periods and bring into a consideration of the past the best concepts and principles that have been developed by present day philosophy

Good Taste, Bad Taste, & Christian Taste Frank Burch Brown, 2003 Christians frequently come into conflict with themselves and others over such matters as music popular culture and worship style Yet they usually lack any theology of art or taste adequate to deal with aesthetic disputes In this provocative book Frank Burch Brown offers a constructive ecumenical approach to artistic taste and aesthetic judgment a non elitist but discriminating theological aesthetics that has teeth but no fangs While grounded in history and theory this book takes up such practical questions as How can one religious community accommodate a variety of

artistic tastes What good or harm can be done by importing music that is worldly in origin into a house of worship How can the exercise of taste in the making of art be a viable and sometimes advanced spiritual discipline In exploring the complex relation between taste religious imagination and faith Brown offers a new perspective on what it means to be spiritual religious and indeed Christian *Landscapes of Aesthetic Education* Stuart Richmond,Celeste Snowber,2020-06-12 This book brings together two experienced educators from the fields of teacher education and arts education The authors Richmond a photographer and Snowber a dancer and poet see aesthetic education as aiming to extend creativity appreciation of the arts and nature and the sensuous qualities of everyday life to gain a more intimate understanding of the self and the world They include poetic narrative philosophical and artistic ways of writing to support a more embodied and holistic aesthetics *Landscapes of Aesthetic Education* has significance for educators scholars students and artists and for all who would like to explore the connections between the arts aesthetics and transformation

Modern Organizations and Emerging Conundrums Richard Alan Goodman,1999-01-01 The contributors to this book review the postindustrial subculture emphasizing cross disciplinary and cross contextual inquiry a central idiom of postindustrial organizational life The essays consider alternative methods of understanding media that add variety to meanings within and without organizations This multi method approach in the search for meaning and the limits of word and symbols to express meaning generates a personally interpretive basis to science **The Cosmos and the Creative Imagination** Anna-Teresa Tymieniecka,Patricia Trutty-Coohill,2016-02-03 The essays in this book respond to Anna Teresa Tymieniecka s recent call to explore the relationship between the evolution of the universe and the process of self individuation in the ontopoietic unfolding of life The essays approach the sensory manifold in a number of ways They show that theories of modern science become a strategy for the phenomenological study of works of art and vice versa Works of phenomenology and of the arts examine how individual spontaneity connects with the design s of the logos of the whole and of the particulars while the design s rest not on some human concept but on life itself Life s pliable matrices allow us to consider the expansiveness of contemporary science and to help create a contemporary phenomenological sense of cosmos

The Things That Really Matter Michael Hauskeller,2022-05-10 While being rooted in the academic discourse *The Things That Really Matter* comprehensively explores the most fundamental aspects of human life in an accessible non technical language adding fresh perspectives and new arguments and considerations that are designed to stimulate further debate and in some cases a deliberate redirection of research interests in the respective areas It features a series of conversations about the things in our life that we all in one way or another wrestle with if we are at all concerned about what kind of world we live in and what our role in it is things like birth age and death good and evil the meaning of life the nature of the self and the role the body plays for our identity our gendered existence love and faith free will beauty and our experience of the sacred Situating abstract ideas in concrete experience *The Things That Really Matter* encourages the reader to participate in an open ended

dialogue involving a variety of thinkers with different backgrounds and orientations Lively and accessible it shows thinking as an open ended process and a collaborative endeavour that benefits from talking to each other rather than against each other featuring real conversations where ideas are explored tested changed and occasionally dropped It is thinking in motion personal yet universal

Frontiers of Pleasure Anastasia-Erasmia Peponi,2012-07-03 Frontiers of Pleasure calls into question a number of influential modern notions regarding aesthetics by going back to the very beginnings of aesthetic thought in Greece and raising critical issues regarding conceptions of how one responds to the beautiful Despite a recent rebirth of interest in aesthetics extensive discussion of this key cluster of topics has been absent Anastasia Erasmia Peponi argues that although the Greek language had no formal term equivalent to the aesthetic the notion was deeply rooted in Greek thought Her analysis centers on a dominant aspect of beauty the aural associated with a highly influential sector of culture that comprised both poetry and instrumental music the activity of the Muses or mousik The main argument relies on a series of close readings of literary and philosophical texts from Homer and Plato through Kant Joyce and Proust Through detailed attention to such scenes as Odysseus encounter with the Sirens and Hermes playing of his lyre for his brother Apollo she demonstrates that the most telling moments in the conceptualization of the aesthetic come in the Greeks debates and struggles over intense models of auditory pleasure Unlike current tendencies to treat poetry as an early imperfect mode of meditating upon such issues Peponi claims that Greek poetry and philosophy employed equally complex albeit different ways of articulating notions of aesthetic response Her approach often leads her to partial or total disagreement with earlier interpretations of some of the most well known Greek texts of the archaic and classical periods Frontiers of Pleasure thus suggests an alternative mode of understanding aesthetics in its entirety freed from some modern preconceptions that have become a hindrance within the field

Cosmetics in Shakespearean and Renaissance Drama Farah Karim-Cooper,2006-07-06 This original study examines how the plays of Shakespeare and his contemporaries dramatise the cultural preoccupation with cosmetics Farah Karim Cooper analyses contemporary tracts that address the then contentious issue of cosmetic practice and identifies a culture of cosmetics which finds its visual identity on the Renaissance stage She also examines cosmetic recipes and their relationship to drama as well as to the construction of early modern identities

Time's Visible Surface Michael Gubser,2006-01-09 Expands our understanding of Alois Riegl beyond his role as an art historian to a pivotal figure in cultural theory at large while placing his interest in history and time within the intellectual world of fin de si cle Vienna Alois Riegl s art history has influenced thinkers as diverse as Erwin Panofsky Georg Lukacs Walter Benjamin Paul Feyerabend Gilles Deleuze and Felix Guattari One of the founders of the modern discipline of art history Riegl is best known for his theories of representation Yet his inquiries into the role of temporality in artistic production including his argument that art conveys a culture s consciousness of time show him to be a more wide ranging and influential commentator on historiographical issues than has been previously acknowledged In Time s Visible Surface

Michael Gubser presents Riegl's work as a sustained examination of the categories of temporality and history in art. Supported by a rich exploration of Riegl's writings, Gubser argues that Riegl viewed artworks as registering historical time visibly in artistic forms. Gubser's discussion of Riegl's academic milieu also challenges the widespread belief that Austrian modernism adopted a self-consciously ahistorical worldview. By analyzing the works of Riegl's professors and colleagues at the University of Vienna, Gubser shows that Riegl's interest in temporality, from his early articles on calendar art through later volumes on the Roman art industry and Dutch portraiture, fit into a broad discourse on time, history, and empiricism that engaged Viennese thinkers such as the philosopher Franz Brentano, the historian Theodor von Sickel, and the art historian Franz Wickhoff. By expanding our understanding of Riegl and his intellectual context, *Time's Visible Surface* demonstrates that Riegl is a pivotal figure in cultural theory and that fin de siècle Vienna holds continued relevance for today's cultural and philosophical debates.

A Feminist Companion to Shakespeare Dymphna Callaghan, 2016-03-15 The question is not whether Shakespeare studies needs feminism, but whether feminism needs Shakespeare. This is the explicitly political approach taken in the dynamic and newly updated edition of *A Feminist Companion to Shakespeare*. Provides the definitive feminist statement on Shakespeare for the 21st century. Updates address some of the newest theatrical and creative engagements with Shakespeare, offering fresh insights into Shakespeare's plays and poems and gender dynamics in early modern England. Contributors come from across the feminist generations and from various stages in their careers to address what is new in the field in terms of historical and textual discovery. Explores issues vital to feminist inquiry, including race, sexuality, the body, queer politics, social economies, religion, and capitalism. In addition to highlighting changes, it draws attention to the strong continuities of scholarship in this field over the course of the history of feminist criticism of Shakespeare. The previous edition was a recipient of a Choice Outstanding Academic Title award; this second edition maintains its coverage and range and brings the scholarship right up to the present day.
