## **Philosophies Of Existence An Introduction To The Basic Thought Of Kierkegaard:**

*Philosophies of Existence* Jean Wahl, 2019-04-15 This book first published in 1969 examines the philosophies of existence or Existentialism and the field's leading philosophers. These philosophers the book argues wished to distinguish themselves from other philosophies in their structure and approach and it is that structure that this book takes care to analyse. **Les Philosophies de L'existence** J. Wahl, 1959 **Volume 9: Kierkegaard and Existentialism** Jon Stewart, 2016-12-05 There can be no doubt that most of the thinkers who are usually associated with the existentialist tradition whatever their actual doctrines were in one way or another influenced by the writings of Kierkegaard. This influence is so great that it can be fairly stated that the existentialist movement was largely responsible for the major advance in Kierkegaard's international reception that took place in the twentieth century. In Kierkegaard's writings one can find a rich array of concepts such as anxiety, despair, freedom, sin, the crowd, and sickness that all came to be standard motifs in existentialist literature. Sartre played an important role in canonizing Kierkegaard as one of the forerunners of existentialism. However, recent scholarship has been attentive to his ideological use of Kierkegaard. Indeed, Sartre seemed to be exploiting Kierkegaard for his own purposes, and suspicions of misrepresentation and distortions have led recent commentators to go back and reexamine the complex relation between Kierkegaard and the existentialist thinkers. The articles in the present volume feature figures from the French, German, Spanish, and Russian traditions of existentialism. They examine the rich and varied use of Kierkegaard by these later thinkers and most importantly they critically analyze his purported role in this famous intellectual movement.

**Kierkegaard Bibliography** Peter Šajda, Jon Bartley Stewart, 2016 **Volume 19, Tome II: Kierkegaard Bibliography** Peter Šajda, Jon Stewart, 2017-03-16 The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research. The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars. The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications. The volume is divided into two large sections. Part I which covers Tomes I-V is dedicated to individual bibliographies organized according to specific language. This includes extensive bibliographies of works on Kierkegaard in some 41 different languages. Part II which covers Tomes VI-VII is dedicated to shorter individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard. The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies. *Educational Philosophy of Dr S Radhakrishnan* Dr V N Deshpande, 2017 The spiritual homelessness of modern man cannot last long, thus believed Dr Sarvepalli Radhakrishnan. 1888-1975 a prominent philosopher, educationalist, and one of the makers of modern India. His solution to the problems of humanity is a return to the religion of spirit to be achieved through the right kind of education.

Radhakrishnan advocated a sound educational philosophy aimed at harmonious development of the human personality with utmost emphasis on moral and spiritual education This book effectively presents Radhakrishnan s thoughts highlighting their relevance to the present day The author has at length discussed Indian philosophy in comparison with the Western thought and successfully established that the East West synthesis as propagated by Radhakrishnan is the need of the hour to arrest the self destructive tendency of the world and ensure development and peace Readers will also get an account of

Radhakrishnan s life story in the backdrop of the political history of pre and post Independent India Jean-Paul Sartre: A

international criticism of the works and activities of Jean Paul Sartre The work covers Sartre s stormy career from 1937 to 1975 containing nearly 700 000 entries and over 3 200 authors **The Development and Meaning of Twentieth-century**

**Ricœur at the Limits of Philosophy** Barnabas Aspray,2022-08-25 Can finite humans grasp universal truth Is it possible to think beyond the limits of reason Are we doomed to failure because of our finitude In this clear and accessible book Barnabas Aspray presents Ric ur s response to these perennial philosophical questions through an analysis of human finitude at the intersection of philosophy and theology Using unpublished and previously untranslated archival sources he shows how Ric ur s groundbreaking concept of symbols leads to a view of creation not as a theological doctrine but as a mystery beyond the limits of thought that gives rise to philosophical insight If finitude is created then it can be distinguished from both the Creator and evil leading to a view of human existence that instead of the anguish of no proclaims the joy of yes **The**

**Later Poetry of Wallace Stevens** Thomas Jensen Hines,1976 This is a study of the development of the middle and later poetry of Wallace Stevens that uses comparisons with the phenomenological methods of Edmund Husserl and Martin Heidegger to clarify many of the difficulties in the poet s mature work **Phenomenology and Existentialism in the**

**Twentieth Century** Anna-Teresa Tymieniecka,2009-09-30 Phenomenology and existentialism transformed understanding and experience of the Twentieth Century to their core They had strikingly different inspirations and yet the two waves of thought became merged as both movements flourished The present collection of research devoted to these movements and

their unfolding interaction is now especially revealing The studies in this first volume to be followed by two succeeding ones range from the predecessors of existentialism Kierkegaard Jean Wahl Nietzsche to the work of its adherents Shestov Berdyaev Unamuno Blondel Blumenberg Heidegger and Mamardashvili Dufrenne and Merleau Ponty to existentialism's congruence with Christianity or with atheism Among the leading Husserlian insights are treated essence and experience the place of questioning ethics and intentionality temporality and passivity and the life world The following book will uncover the perennial concerns guiding the wondrous interplay of these two inspirational sources **Heidegger** Thomas

Sheehan, 2017-07-12 Many people consider Martin Heidegger the most important German philosopher of the twentieth century He is indisputably controversial and influential Although much has been written about Heidegger this may be the best single volume covering his life career and thought For all its breadth and complexity Heidegger's perspective is quite simple he is concerned with the meaning of Being as disclosure Heidegger's life was almost as simple He was a German professor except for a brief but significant period in which he supported the Nazi regime While that departure from philosophy continues to haunt his name and work one must question whether his thought from 1912 to 1976 should be measured by the yardstick of his politics from May 1933 through February 1934 This anthology addresses his complex but simple thought and his simple but complex life In a real sense Sheehan claims there is no content to Heidegger's topic and legacy only a method But method must not be taken to mean a technique or procedure for philosophical thinking Rather the topic of Heidegger's thought and his pursuit of that topic the what and the how are one and the same thing Heidegger writes *Alles ist Weg* Everything is way and man's Being is to be on the way in essential movement Heidegger argues in our essence we humans are the topic and the point is not to be led there so much as to come to know what we already know and to become what we already are This brilliant collection confirms this truism and is an excellent introduction to the work of this seminal thinker
