Philosophy And Contemporary Problems A Reader:

A Reader's Guide to Contemporary Literature William Swan Sonnenschein, 1896 Philosophy and **Contemporary Issues** John Roy Burr, Milton Goldinger, 2004 Timely and very approachable this book introduces today s readers to philosophy with readings of philosophical significance It is one of the most successful philosophy books available for the last 20 years Incorporates 15 new readings by authors such as Kai Nielsen Jenny Teichman Jonathan Harrison and Sextus Empiricus Features extensively revised Puzzles and Problems sections that offer unusual and provocative views to arouse reader response Relates traditional philosophical issues to key contemporary problems and follows the explanation of each issue with related readings and Puzzles and Problems Challenges conventional thinking and presents opposing viewpoints on topics such as the existence of God and the limitation of immigration MARKET For anyone interested in learning more about philosophy and applying its principles to everyday life A Reader's Companion to The Prince, Leviathan, and the Second Treatise John T. Bookman, 2018-12-28 Machiavelli Hobbes and Locke each sought a new foundation for political order This book serves as a reader s companion to Machiavelli s The Prince Hobbes s Leviathan and Locke's Second Treatise written for graduate students and scholars seeking a fuller understanding of these classic texts How do these philosophers respond to perennial questions such as why anyone is ever obligated to obey a government and whether there are any limits to such an obligation In this book Bookman begins by sorting out the hermeneutical controversy between textualists and contextualists offers a chapter by chapter commentary on the texts punctuated by questions for the reader's reflection and finally suggests a firmer foundation for a theory of political obligation than Hobbes's and Locke's consent theories Also included are bibliographical essays keyed to select bibliographies providing readers with a wide ranging critical review of the secondary literature Intended to be read alongside the primary work the work is a full intellectual critical and bibliographical history as well as a fresh examination of three classic texts in political theory and philosophy Reading Ancient Texts. Volume II: Aristotle and Neoplatonism, 2008-01-31 What is the history of philosophy Is it history or is it philosophy or is it by some strange alchemy a confluence of the two The contributors to the present volume of essays have tackled this seemingly simple but in reality difficult and controversial question by drawing on their specialised knowledge of the surviving texts of leading ancient philosophers from the Presocratics to Augustine through Plato Aristotle and Plotinus These contributions which reflect the range of methods and approaches currently used in the study of ancient texts are offered as a tribute to the scholarship of Denis O Brien one of the most original and penetrating students of the thousand year period of intense philosophical activity that constitutes ancient philosophy Contributors include T Buchheim I Cleary K Corrigan D Evans G Gurtler S J C Horn J M Narbonne C Natali G O Daly F Schroeder S Stern Gillet P Thillet and C Viano Publications by Denis O Brien Theories of Weight in the Ancient World Four Essays on Democritus Plato and Aristotle A Study in the Development of Ideas 1 Democritus Weight and Size An Exercise in the Reconstruction of Early Greek

Vaughan, 2018-05-11 This book looks at the work and influence of Leo Strauss in a variety of ways that will be of interest to readers of political philosophy It will be of particular interest to Catholics and scholars of other religious traditions Strauss had a great deal of interaction with his contemporary Catholic scholars and many of his students or their students teach or have taught at Catholic colleges and universities in America Leo Strauss and His Catholic Readers brings together work by scholars from two continents some of whom knew Strauss one of whom was his student at the University of Chicago The first section of essays considers Catholic responses to Strauss s project of recovering Classical natural right as against modern individual rights Some of the authors suggest that his approach can be a fruitful corrective to an uncritical reception of modern ideas Nevertheless most point out that the Catholic cannot accept all of Strauss s project The second section deals with areas of overlap between Strauss and Catholics Some of the chapters explore encounters with his contemporary scholars while others turn to more current concerns The final section approaches the theological political question itself a question central to both Strauss s work and that of the Catholic intellectual tradition This section of the book considers the relationship of Strauss s work to Christianity and Christian commitments at a broader level Because Christianity does not have an explicit political doctrine Christians have found themselves as rulers subjects and citizens in a variety of political regimes Leo Strauss s return to Platonic political philosophy can provide a useful lens through which his Catholic readers can assess what it means for there to be a best regime The Cosmopolitanism Reader Garrett W. Brown, David Held, 2010-12-28 In response to a renewed cosmopolitan enthusiasm this volume brings together 25 essays in the development of cosmopolitan thought by distinguished cosmopolitan thinkers and critics It looks at classical cosmopolitanism global justice culture and cosmopolitanism political cosmopolitanism and cosmopolitan global governance

The African Philosophy Reader P.H. Coetzee, A.P.J. Roux, 2004-03 Divided into eight sections each with introductory essays the selections offer rich and detailed insights into a diverse multinational philosophical landscape Revealed in this pathbreaking work is the way in which traditional philosophical issues related to ethics metaphysics and epistemology for instance take on specific forms in Africa's postcolonial struggles Much of its moral political and social philosophy is concerned with the turbulent processes of embracing modern identities while protecting ancient cultures

Beyond Marx and Mach K.M. Jensen, 2012-12-06 A ALEKSANDR BOGDANOV On April 7 1928 the career of one of the most extraordinary

figures of Russian and early Soviet intellectual life came to an abrupt and premature end In the process of an experiment on blood transfusion Aleksandr Aleksandrovich Malinovsky better known as Bogdanov had exchanged his blood with that of a critically ill malaria victim in hopes of saving both the patient and his blood The outcome of this may be guessed both doctor and patient died forthwith Although an extraordinary venture on Bogdanov's part for it was part of a search for the means to immortality 2 the transfusion experiment was only one of a host of startling things he had done in his thirty years in Russian politics and public life In actuality the activities and achievement of his two years as director of the Soviet Union s first institute for the study of blood transfusion seem virtually insignificant beside the events of earlier years 3 It would be fair to say that Aleksandr Bogdanov stood in a singularly prominent position in the political and intellectual life of Russia from the turn of the century to 1930 Politically he had been Lenin's only serious rival for leadership among the Bolsheviks before 1917 In the early years of the Soviet regime Bogdanov stood head and shoulders above any other public figure operating outside the ranks of the Party Only a handful of men i e The Phenomenology of Love and Reading Cassandra Falke, 2018-05-31 The current revival of interest in ethics in literary criticism coincides fortuitously with a revival of interest in love in philosophy The literary return to ethics also coincides with a spate of neuroscientific discoveries about cognition and emotion But without a philosophical grounding this new work cannot speak convincingly about literature s relationship to our ethical lives Jean Luc Marion's articulation of a phenomenology of love provides this philosophical grounding The Phenomenology of Love and Reading accepts Jean Luc Marion's argument that love matters for who we are more than anything more than cognition and more than being itself Cassandra Falke shows how reading can strengthen our capacity to love by giving us practice in love s habits attention empathy and a willingness to be overwhelmed Confounding our expectations literature equips us for the confounding events of love which Falke suggests are not rare and fleeting but rather constitute the most meaningful and durable part of our everyday life Chromatikon VI Michel Weber, Ronny Desmet, 2011-01-15 Le r seau Chromatiques whiteheadiennes a pour objectif premier de f d rer les recherches sur les diff rents aspects A Reading Book in Modern Philosophy George Everett Partridge, 1913 **System Design Modeling and Metamodeling** John P. van Gigch, 2013-06-29 This book is a venture in the worlds of modeling and of metamodeling At this point I will not reveal to readers what constitutes metamodeling Suf fice it to say that the pitfalls and shortcomings of modeling can be cured only if we resort to a higher level of inquiry called metainquiry and metadesign We reach this level by the process of abstraction The book contains five chapters from my previous work Applied General Systems Theory Harper and Row London and New York First Edition 1974 Second Edition 1978 More than ten years after its publication this material still appears relevant to the main thrust of system design This book is dedicated to all those who are involved in changing the world for the better In a way we all are involved in system design from the city manager who struggles with the problems of mass transportation or the consolidation of a city and its suburbs to the social worker who tries to provide benefits to the urban poor It includes the
