**PHILOSOPHY AS A WAY OF LIFE - SPIRITUAL EXERCISES FROM SOCRATES TO FOUCAULT.** PIERRE HADOT, 2022

**The Care of the Self and the Care of the Other** Daniel Louis Wyche, 2025-05-20 What is the relationship between the ethical transformation of the self and the political transformation of the world This book explores the ways several twentieth century thinkers can help us relate the care of the self to the care of the other tracing their accounts of how and why practices intended to change an individual can help spur social and political change just as collective political action can produce a transformation of the self Daniel Louis Wyche examines the political implications of what he calls practices of ethical self change These include Pierre Hadot's notion of spiritual exercises what the French sociologist of labor Georges Friedmann calls the interior effort Michel Foucault's ethics of the care of the self what Martin Luther King Jr refers to as the work of self purification integral to direct action and Audre Lorde's claim that caring for herself constitutes a form of political warfare Wyche argues that these concepts can collectively provide an understanding that effaces distinctions between the care of the self the other and the community in a way that avoids reducing the political to the ethical Ambitious and nuanced *The Care of the Self and the Care of the Other* offers a framework for unifying individual moral action and collective political life

*The Philosophy of Foucault* Todd May, 2014-12-05 Michel Foucault's historical and philosophical investigations have gone through many phases the archaeological the genealogical and the ethical among them What remains constant however is the question that motivates them who are we Todd May follows Foucault's itinerary from his early history of madness to his posthumously published College de France lectures and shows how the question of who we are shifts and changes but remains constantly at or just below the surface of his writings By approaching Foucault's work in this way May is able to offer readers an engaging and illuminating way to understand

Foucault Each of Foucault's key works *Madness and Civilization* *The Archaeology of Knowledge* *The Order of Things* *Discipline and Punish* and the multi volume *History of Sexuality* are examined in detail and situated in an historical context that makes effective use of comparisons with other thinkers such as Freud Nietzsche and Sartre Throughout this book May strikes a balance between sympathetic presentation and criticism of Foucault's ideas and in so doing exposes Foucault's contributions of lasting value *The Philosophy of Foucault* is an accessible and stimulating introduction to one of the most popular and influential thinkers of recent years and will be welcomed by students studying Foucault as part of politics sociology history and philosophy courses *Philosophy of Culture as Theory, Method, and Way of Life*, 2022-05-16 The idea of culture comprises almost all human activities from science to art from music to microscopy Does anything important escape the limits of this idea The authors of this collection argue that all philosophy is really the philosophy of culture since in some way each and every discipline and subdiscipline is foremost a manifestation of our collective cultural effort Further they argue that by engaging with philosophy as a cultural activity and as a discipline to meaningfully engage with all dimensions of intercultural life we can live more meaningful flourishing and wisely guided lives **The Socratic Way of Life** Thomas L. Pangle, 2018-04-03 The Socratic Way of Life is the first English language book length study of the philosopher Xenophon's masterwork In it Thomas L Pangle shows that Xenophon depicts more authentically than does Plato the true teachings and way of life of the citizen philosopher Socrates founder of political philosophy In the first part of the book Pangle analyzes Xenophon's defense of Socrates against the two charges of injustice upon which he was convicted by democratic Athens impiety and corruption of the youth In the second part Pangle analyzes Xenophon's account of how Socrates's life as a whole was just in the sense of helping through his teaching a wide range of people Socrates taught by never ceasing to raise and to progress in answering the fundamental and enduring civic questions what is pious and impious noble and ignoble just and unjust genuine statesmanship and genuine citizenship Inspired by Hegel's and Nietzsche's assessments of Xenophon as the true voice of Socrates *The Socratic Way of Life* establishes the *Memorabilia* as the groundwork of all subsequent political philosophy Hadot and Foucault on Ancient Philosophy, 2024-03-04 The affinities between Pierre Hadot's and Michel Foucault's interpretations of ancient philosophy as well as their impact are well known However these interpretations have been criticized in several crucial points This book provides the first extensive critical assessment of these interpretations It brings together specialists in ancient philosophy as well as Hadot and Foucault scholars in order both to explore criticisms and clarify Hadot's and Foucault's accounts In doing so it not only offers an overview of the main trends in Philosophy as a Way of Life but also recasts the debate and opens new paths of inquiry in the field The Sermon on the Mount and Spiritual Exercises George Branch-Trevathan, 2020-03-31 What in Matthew's view should a human being become and how does one attain that ideal In *The Sermon on the Mount and Spiritual Exercises* *The Making of the Matthean Self* George Branch Trevathan presents a new account of Matthew's ethics and argues that the

evangelist presents the Sermon on the Mount as functioning like many other ancient sayings collections that is as facilitating transformative work on oneself or spiritual exercises that enable one to realize the evangelist's ideals. The conclusion suggests some implications for our understanding of ethical formation in antiquity and the study of ethics more generally. This will be an essential volume for scholars studying the Gospel of Matthew, early Christian ethics, the relationships between early Christian and ancient philosophical writings or ethical formation in antiquity.

**Augustine and Roman Virtue** Brian Harding, 2011-10-20 Augustine and Roman Virtue seeks to correct what the author sees as a fundamental misapprehension in medieval thought, a misapprehension that fuels further problems and misunderstandings in the historiography of philosophy. This misapprehension is the assumption that the development of certain themes associated with medieval philosophy is due primarily if not exclusively to extra philosophical religious commitments rather than philosophical argumentation referred to here as the sacralization thesis. Brian Harding explores this problem through a detailed reading of Augustine's City of God as understood in a Latin context that is in dialogue with Latin writers such as Cicero, Livy, Sallust, and Seneca. The book seeks to revise a common reading of Augustine's critique of ancient virtue by focusing on that dialogue while showing that his attitude towards those authors is more sympathetic and more critical than one might expect. Harding argues that the criticisms rest on sympathy and that Augustine's critique of ancient virtue thinks through and develops certain trends noticeable in the major figures of Latin philosophy.

**Phenomenology and Intercultural Understanding** Kwok-Ying Lau, 2016-09-29 This book approaches the topic of intercultural understanding in philosophy from a phenomenological perspective. It provides a bridge between Western and Eastern philosophy through in-depth discussion of concepts and doctrines of phenomenology and ancient and contemporary Chinese philosophy. Phenomenological readings of Daoist and Buddhist philosophies are provided; the reader will find a study of theoretical and methodological issues and innovative readings of traditional Chinese and Indian philosophies from the phenomenological perspective. The author uses a descriptive rigor to avoid cultural prejudices and provides a non-Eurocentric conception and practice of philosophy. Through this East-West comparative study, a compelling criticism of a Eurocentric conception of philosophy emerges. New concepts and methods in intercultural philosophy are proposed through these chapters. Researchers, teachers, postgraduates, and students of philosophy will all find this work intriguing, and those with an interest in non-Western philosophy or phenomenology will find it particularly engaging.

**Crisis of Authority** Nancy Luxon, 2013-09-23 Contemporary social and political theory has reached an impasse about a problem that had once seemed straightforward: how can individuals make ethical judgments about power and politics? Crisis of Authority analyzes the practices that bind authority, trust, and truthfulness in contemporary theory and politics. Drawing on newly available archival materials, Nancy Luxon locates two models for such practices in Sigmund Freud's writings on psychoanalytic technique and Michel Foucault's unpublished lectures on the ancient ethical practices of fearless speech or parrhesia. Luxon argues that the dynamics provoked by the figures of psychoanalyst and truth teller are central to this

process Her account offers a more supple understanding of the modern ethical subject and new insights into political authority and authorship **Food and Faith** Norman Wirzba, 2011-05-23 A comprehensive theological framework for assessing the significance of eating demonstrating that eating is of profound economic moral and theological significance

The Selected Writings of Pierre Hadot Pierre Hadot, 2020-05-28 This collection of writings from Pierre Hadot 1992 2010 presents for the first time previously unreleased and in some cases untranslated materials from one of the world's most prominent classical philosophers and historians of thought As a passionate proponent of philosophy as a way of life most powerfully communicated in the life of Socrates Pierre Hadot rejuvenated interest in the ancient philosophers and developed a philosophy based on their work which is peculiarly contemporary His radical recasting of philosophy in the West was both provocative and substantial Indeed Michel Foucault cites Pierre Hadot as a major influence on his work This beautifully written lucid collection of writings will not only be of interest to historians classicists and philosophers but also those interested in nourishing as Pierre Hadot himself might have put it a spiritual life **The Force of Truth** Daniele Lorenzini, 2023-09-13 A groundbreaking examination of Michel Foucault's history of truth Many blame Michel Foucault for our post truth and conspiracy laden society In this provocative work Daniele Lorenzini argues that such criticism fundamentally misunderstands the philosopher's project Foucault did not question truth itself but what Lorenzini calls the force of truth or how some truth claims are given the power to govern our conduct while others are not This interest Lorenzini shows drove Foucault to articulate a new ethics and politics of truth telling precisely in order to evade the threat of relativism The Force of Truth explores this neglected dimension of Foucault's project by putting his writings on regimes of truth and parrhesia in conversation with early analytic philosophy and by drawing out the possibilizing elements of Foucault's genealogies that remain vital for practicing critique today **The Biopolitics of Lifestyle** Christopher Mayes, 2015-12-22 A growing sense of urgency over obesity at the national and international level has led to a proliferation of medical and non medical interventions into the daily lives of individuals and populations This work focuses on the biopolitical use of lifestyle to govern individual choice and secure population health from the threat of obesity The characterization of obesity as a threat to society caused by the cumulative effect of individual lifestyles has led to the politicization of daily choices habits and practices as potential threats This book critically examines these unquestioned assumptions about obesity and lifestyle and their relation to wider debates surrounding neoliberal governmentality biopolitical regulation of populations discipline of bodies and the possibility of community resistance The rationale for this book follows Michel Foucault's approach of problematization addressing the way lifestyle is problematized as a biopolitical domain in neoliberal societies Mayes argues that in response to the threat of obesity lifestyle has emerged as a network of disparate knowledges relations and practices through which individuals are governed toward the security of the population's health Although a central focus is government health campaigns this volume demonstrates that the network of lifestyle emanates from a variety of overlapping

domains and disciplines including public health clinical medicine media entertainment school programs advertising sociology and ethics This book offers a timely critique of the continued interventions into the lives of individuals and communities by government agencies private industries medical and non medical experts in the name of health and population security and will be of interests to students and scholars of critical international relations theory health and bioethics and governmentality studies *The Oxford Handbook of Critical Improvisation Studies, Volume 1* George E. T. Wilson Dickinson, 2018-08-27 This book unfolds a vision for philosophical theology centered on the practices of the care of the self the city and creation Rooted in Paul's articulation of the wisdom of the cross and in conversation with ecological radical and political theologies continental philosophy and political ecology it addresses the challenge of injustice and ecological catastrophe Part one reads 1 Corinthians as an exercise in reading and writing that shapes and changes relationships and capabilities Part two follows this alternative path for theology through Derrida and Kierkegaard and neglected trajectories in Origen Augustine and Luther Along the way reading and writing are explored as exercises that transform selves communities and even habitats They are creaturely acts that can scandalize the dominant orders of consumption and competition for the ends of love and justice This is a philosophical theology engaged with political ecology exercises that help cultivate new creation **Desiring Conversion** B. Diane Lipsett, 2011-01-27 Lipsett's approach is theoretically versatile drawing on the writings of Foucault psychoanalytic theorists and the ancient literary critic Longinus Lipsett offers close readings of each story while advancing discussions of ancient views of desire masculinity virginity and the self Book Jacket
