# Philosophy Matters

**Vittorio Bufacchi**

## **Philosophy Matters:**

**Philosophy Matters: An Introduction to Philosophy** Roger Trigg, 2001-10-16 Written for those who may be approaching the subject for the first time *Philosophy Matters* shows that philosophy is crucial in questioning our presuppositions and for helping us to establish our own beliefs about the nature of the world *Philosophy Matters* Anthony J. Lisska, 1977

**Why Philosophy Matters** Raymond Angelo Belliotti, 2015-09-18 This book demonstrates that philosophy matters to everyday living and that people who ignore the enduring fundamental questions of life thereby unwittingly relinquish part of their humanity The question How should I live my life along with cosmological inquiries about the nature of the world animated Western philosophy during its earliest recorded years Given that belief in the Greek and Roman gods failed to provide substantive guidelines for everyday living philosophy arose in large measure as practical instruction in the art of living the good human life Throughout history philosophers have provided vastly different answers to the question of what constitutes such a life By analyzing carefully their disparate definitions recipes and accounts of the good human life we can understand better who we are and who we might be This work examines the answers provided by over thirty philosophers to aspects of building character forging personal relations promoting sound political strategies living meaningfully and dying gracefully In so doing over twenty lessons for living a worthy life emerge

**Why Medieval Philosophy Matters** Stephen Boulter, 2019-01-24 Tackling the question of why medieval philosophy matters in the current age Stephen Boulter issues a passionate and robust defence of this school in the history of ideas He examines both familiar territory and neglected texts and thinkers whilst also asking the question of why exactly this matters or should matter to how we think now Why Medieval Philosophy is also provides a introduction to medieval philosophy more generally exploring how this area of philosophy has been received debated and sometimes dismissed in the history of philosophy Why philosophy matters ,20??

**Philosophy and the City** Sharon M. Meagher, 2008-01-10 Using philosophical works from ancient Greece to contemporary times *Philosophy and the City* demonstrates both why philosophy matters to the city and how cities matter to philosophy The collection addresses questions that remain central to urban planning and everyday urban life such as What is a city What does it mean to be a good citizen By bringing various perspectives together Sharon M Meagher provides readers the opportunity to better understand key philosophical debates concerning not only social and political philosophy but also place and identity formation aesthetics philosophy of race and diversity and environmental philosophy

**Why Human Nature Matters** Matteo Mameli, 2024-01-11 Does human nature constrain social and political change or do social and political changes transform human nature *Why Human Nature Matters* argues that the answer to both questions is yes This philosophical account offers new tools for connecting biological and political perspectives on humanity The focus is on the construction of human relations and environments and on the complex materiality of these transformations The structure and history of the philosophical and scientific debates on human nature show that political praxis and ideas about human nature

interact in a variety of ways Ideas about human nature affect how people live their lives organize their societies and imagine their futures The book explores these processes and their implications for the present state of our species Appeals to human nature can uphold the status quo or advocate for change and they can be wielded for exclusion or inclusion The book proposes ways of thinking about human nature that stress the importance of diversity plasticity cooperation and freedom

**Why Philosophy Matters for the Study of Religion--and Vice Versa** Thomas A. Lewis, 2015-12-17 Work in philosophy of religion is still strongly marked by an excessive focus on Christianity and to a lesser extent Judaism almost to the exclusion of other religious traditions Moreover in many cases it has been confined to a narrow set of intellectual problems without embedding these in their larger social historical and practical contexts *Why Philosophy Matters for the Study of Religion and Vice Versa* addresses this situation through a series of interventions intended to work against the gap that exists between much scholarship in philosophy of religion and important recent developments that speak to religious studies as a whole This volume takes up what in recent years has often been seen as a fundamental reason for excluding religious ethics and philosophy of religion from religious studies their explicit normativity Against this presupposition Thomas A Lewis argues that normativity is pervasive not unique to ethics and philosophy of religion and therefore not a reason to exclude them from religious studies Lewis bridges more philosophical and historical subfields by arguing for the importance of history to the philosophy of religion He considers the future of religious ethics explaining that the field as whole should learn from the methodological developments associated with recent work in comparative religious ethics and comparative religious ethics should no longer be conceived as a distinct subfield The concluding chapter engages broader post 9 11 arguments about the importance of studying religion arguing that prominent contemporary notions of religious literacy actually hinder our ability to grasp religion s significance and impact in the world today

*Why Cicero Matters* Vittorio Bufacchi, 2023-10-19 *Why Cicero Matters* shows us how the Roman philosopher and statesman Marcus Tullius better known as Cicero can help realize a new political world His impact on humanitarianism the Enlightenment and the Founding Fathers of America is immense Yet we give Julius Caesar all our attention Why What does this say about modern politics and political culture This book gives us Cicero as an antidote to the myth of the strong man of history Reading Cicero s *On Duties* alongside two more introspective philosophical texts *On Friendship* and *On Old Age* we see how Cicero turned politics into a higher intellectual form of art believing in education in culture and above all in the power of philosophy to instil morality Cicero has reassuring words on the indispensable work philosophers make and why the common good needs philosophy In an age when anti intellectualism runs rampant *Why Cicero Matters* introduces us to an ancient thinker who argues culture is or ought to be the foundation of any modern democracy and books its building blocks

**Why Delusions Matter** Lisa Bortolotti, 2023-07-13 When we talk about delusions we may refer to symptoms of mental health problems such as clinical delusions in schizophrenia or simply the beliefs that people cling to which are implausible and resistant to counterevidence these can include anything from

beliefs about the benefits of homeopathy to concerns about the threat of alien abduction Why do people adopt delusional beliefs and why are they so reluctant to part with them In *Why Delusions Matter* Lisa Bortolotti explains what delusions really are and argues that despite their negative reputation they can also play a positive role in people's lives imposing some meaning on adverse experiences and strengthening personal or social identities In a clear and accessible style Bortolotti contributes to the growing research on the philosophy of the cognitive sciences offering a novel and nuanced view of delusions

**Neurophilosophy** Patricia Smith Churchland, 1989 A Bradford book Bibliography p 491 523 Includes index

An Introduction to Indian Philosophy Roy W. Perrett, 2016-01-25 This wide ranging introduction to classical Indian philosophy is philosophically rigorous without being too technical for beginners Through detailed explorations of the full range of Indian philosophical concerns including some metaphilosophical issues it provides readers with non Western perspectives on central areas of philosophy including epistemology logic metaphysics ethics philosophy of language and philosophy of religion Chapters are structured thematically with each including suggestions for further reading This provides readers with an informed overview whilst enabling them to focus on particular topics if needed Translated Sanskrit texts are accompanied by authorial explanations and contextualisations giving the reader an understanding of the argumentative context and philosophical style of Indian texts A detailed glossary and a guide to Sanskrit pronunciation equip readers with the tools needed for reading and understanding Sanskrit terms and names The book will be an essential resource for both beginners and advanced students of philosophy and Asian studies

**Morality Matters** Roger Trigg, 2008-04-15 *Morality still matters* argues philosopher Roger Trigg in this accessible introduction to moral thinking Written for general readers with no background in philosophy Argues that we need a shared moral vision in order to live together both nationally and internationally Considers the need for a shared morality in relation to subjects of vital importance such as human rights Stresses that private behaviour cannot be kept separate from public choices Discusses matters of topical debate on both sides of the Atlantic

This Is Metaphysics Kris McDaniel, 2020-05-07 Metaphysics the philosophical study of the nature of reality is a dynamic sub field which encompasses many of the most fundamental and elusive questions in contemporary analytic philosophy A concise and focused introduction to contemporary metaphysics This is Metaphysics An Introduction takes readers with minimal technical knowledge of the field on a guided tour of the intellectual landscape of the discipline Approachable and engaging the book covers a broad range of key topics and principles in metaphysics including classification the nature and existence of properties ontology the nature of possibility and necessity and fundamental questions concerning being and existence Each chapter challenges readers to grapple with thought provoking examples that build upon the seminal theoretical contributions of contemporary metaphysicians like Peter van Inwagen and David Lewis and concludes with a *Doing Metaphysics* section encouraging readers to think through substantive metaphysical questions while weighing possible arguments and objections A thoughtful and comprehensive introduction provides a framework for

author Kris McDaniel's pedagogical approach and each section incorporates multi platform online resources and plentiful footnotes to support further reading and deeper conceptual engagement A welcome addition to the popular This is Philosophy series This is Metaphysics is a reader friendly survey of metaphysics for philosophy majors undergraduates in introductory philosophy courses and curious members of the general public interested in investigating this expansive and enigmatic area of study

**An Introduction to Metaphilosophy** Søren Overgaard, Paul Gilbert, Stephen Burwood, 2013-03-07 A clear and comprehensive introduction to what philosophy is how it should be done and why we should do it

**The Oxford Handbook of Contextual Political Analysis** Robert E. Goodin, Charles Tilly, 2008-06-19 This is part of a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science This work explores the idea of context in politics from a number of angles including philosophically psychologically historically and culturally

**Morality Matters** Roger Trigg, 2004-08-13 Morality still matters argues philosopher Roger Trigg in this accessible introduction to moral thinking Written for general readers with no background in philosophy Argues that we need a shared moral vision in order to live together both nationally and internationally Considers the need for a shared morality in relation to subjects of vital importance such as human rights Stresses that private behaviour cannot be kept separate from public choices Discusses matters of topical debate on both sides of the Atlantic
