doctrine of Existentialism His concern however was to relate his theory to human response and the practical demands of living To achieve this he carried his philosophical concepts into his novels and plays and there subjected them to the test of imagined experience His uniqueness lies in the success with which he demonstrated the utility of Existentialist doctrine while creating at the same time works of the highest literary merit Thus Sartre became the populariser of his own literary thought Originally delivered as a lecture in Paris in 1945 Existentialism and Humanism is Jean Paul Sartre s seminal defence of Existentialism as a doctrine true to Humanism as opposed to a purely nihilistic creed and a plan for its practical application to everyday human life This exploration of one of the central tenets of his philosophical thought has become the essential introduction to his work and a fundamental text for all students of philosophy page 4 of cover *An Introduction to Existentialism* Robert Goodwin Olson,1962-01-01 A topical approach to the major existentialist themes which presupposes no previous knowledge of philosophy *Existentialism: A Philosophical Inquiry* Joel Smith,2022-06-14 Existentialism asks some of the most fundamental questions about human existence What gives our lives meaning and value What is it to choose freely How do I live an authentic life How should I relate to myself and to others In this book Joel Smith introduces and assesses the arguments and controversies surrounding these questions in an engaging way providing a superb introduction to this important and perennial philosophical subject Connecting existentialist themes with contemporary questions in ethics philosophy of action and the emotions he brings existentialism to life He does so by focusing on a set of distinctively existentialist questions and themes including race and gender whilst at the same time engaging with the classic existentialist texts from Kierkegaard Nietzsche Heidegger Sartre de Beauvoir Fanon and others The book is organised clearly around the following key topics Life Subjectivity Meaning Freedom Angst Bad Faith Alienation Gender Race Authenticity Including chapter summaries and annotated further reading *Existentialism A Philosophical Inquiry* is the ideal starting point for anyone interested in this fascinating and important subject in Philosophy as well as related disciplines such as Literature and Religion **Existentialism and Human Emotions** Jean-Paul Sartre,1985 Proposes that individuals must create their own values take responsibility for their actions and find a sense of meaning while living in a universe without purpose **From Rationalism to Existentialism** Robert C. Existentialism and its relevance to the contemporary system of education in India: Existentialism and present educational scenario Rukhsana Akhter,2014-05-01 Existentialism represents a protest against the rationalism of traditional philosophy against misleading notions of the bourgeois culture and the dehumanizing values of industrial civilization Since alienation loneliness and self estrangement constitute threats to human personality in the modern world existential thought has viewed as its cardinal concerns a quest for subjective truth a reaction against the negation of Being and a perennial search for freedom From the ancient Greek philosopher Socrates to the twentieth century French philosopher Jean Paul Sartre and other thinkers have dealt with this tragic sense of ontological reality the human situation within a comic context The book put forward is the beginning of an attempt to revive existentialism by addressing these issues The idea is eventually to present a conception of personhood that is recognizably existentialist or similar to that presented by writers like

Kierkegaard Heidegger Jaspers and Sartre in certain fundamental ways but that takes into account the last twenty years of developments in the many different areas of philosophy that directly affect our understanding of what it is to be a person The result will hopefully be a more sophisticated existentialist theory of personhood that can be presented in contemporary terms as a serious challenge to current dogmas in metaphysics and moral theory and be defended against the ascendant naturalistic rationalistic or pragmatist alternatives

In Search of Authenticity Jacob Golomb, 2012-11-12 Great philosophers such as Kierkegaard Nietzsche and Sartre have clearly been preoccupied by the possibility of authenticity In this study Jacob Golomb looks closely at the literature and writings of these philosophers in his analysis of their ethics Golomb's writings shows his passionate commitment to the quest for the authenticity particularly in our climate of post modern scepticism He argues that existentialism is all the more pertinent and relevant today when set against the general disillusionment which characterises the late twentieth century This book is invaluable reading for those who have been fascinated by figures like Camus's Meursault Sartre's Matthieu and Nietzsche's Zarathustra
