**The Philosophy of Rudolf Carnap** Rudolf Carnap, 1991 The first volume of the Library of Living Philosophers LLP appeared in 1939 the brainchild of the late Professor Paul A Schilpp Schilpp saw that it would help to eliminate confusion and endless sterile disputes over interpretation if great philosophers could be confronted by their capable philosophical peers and asked to reply As well as a number of critical essays with the chosen philosopher s replies to each essay each volume would include an intellectual autobiography and an up to date bibliography The LLP series has exceeded even Schilpp s expectations enabling great philosophers to do more than clarify by extending and elaborating their thoughts A volume in the Library of Living Philosophers is not merely a commentary on a philosopher s work it is a critical part of that work

**The Logical Structure of the World** Rudolf Carnap, 2003 Available for the first time in 20 years here are two important works from the 1920s by the best known representative of the Vienna Circle In The Logical Structure of the World Carnap adopts the position of methodological solipsism and shows that it is possible to describe the world from the immediate data of experience In his Pseudoproblems in Philosophy he asserts that many philosophical problems are meaningless

**The Philosophy of Rudolf Carnap** Paul Arthur Schilpp, 1963 *Meaning and Necessity - A Study in Semantics and Modal Logic* Rudolf Carnap, 2011-03-23 The main purpose of this book is the development of a new method for the semantical analysis of meaning that is a new method for analyzing and describing the meanings of linguistic expressions This method called the method of extension and intension is developed by modifying and extending certain customary concepts especially those of class and property The method will be contrasted with various other semantical methods used in traditional philosophy or by contemporary authors These other methods have one characteristic in common They all regard an expression in a language as a name of a concrete or abstract entity In contradistinction the method here proposed takes an

expression not as naming anything but as possessing an intension and an extension Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions using the original text and artwork

**Dear Carnap, Dear Van** W. V. Quine, Rudolf Carnap, 2023-11-15 Rudolf Carnap and W V Quine two of the twentieth century's most important philosophers corresponded at length and over a long period of time on matters personal professional and philosophical Their friendship encompassed issues and disagreements that go to the heart of contemporary philosophic discussions Carnap 1891-1970 was a founder and leader of the logical positivist school The younger Quine 1908 began as his staunch admirer but diverged from him increasingly over questions in the analysis of meaning and the justification of belief That they remained close relishing their differences through years of correspondence shows their stature both as thinkers and as friends The letters are presented here in full for the first time The substantial introduction by Richard Creath offers a lively overview of Carnap's and Quine's careers and backgrounds allowing the nonspecialist to see their writings in historical and intellectual perspective Creath also provides a judicious analysis of the philosophical divide between them showing how deep the issues cut into the discipline and how to a large extent they remain unresolved Rudolf Carnap and W V Quine two of the twentieth century's most important philosophers corresponded at length and over a long period of time on matters personal professional and philosophical Their friendship encompassed issues and disagreements th

Rudolf Carnap: Early Writings A. W. Carus,Michael Friedman,Wolfgang Kienzler,Alan Richardson,Sven Schlotter,2019-06-25 Rudolf Carnap 1891 1970 is generally acknowledged to have been one of the central figures of twentieth century philosophy He was the leading philosopher of the Vienna Circle a group that was central to the international movement known as logical empiricism which pursued the goal of making philosophy scientific and eliminating metaphysics that went beyond the limits of what humans can coherently comprehend Carnap was not only well versed in this area of thought but also contrary ideas he interacted philosophically with Gottlob Frege Bertrand Russell Ludwig Wittgenstein Edmund Husserl and Martin Heidegger and in his formative years he was influenced by the positivists Mach and Ostwald neo Kantians such as Cassirer and Natorp and Husserl s phenomenology Interest in logical empiricism waned in the decades following Carnap s death but was revived towards the end of the twentieth century the wave of new scholarship that resulted identified Carnap as far more subtle and interesting than was previously understood The complete fourteen volume edition of Carnap s published writings builds upon these more recent interpretations of his philosophy This first book contains Carnap s early publications up until 1928 none of which have previously been translated from their original German The introduction and notes place the text in the relevant scientific and historical contexts in addition to explaining obscure references or outdated notation and terminology Carnap s neo Kantian origins are more obvious in these works than in his later writings and the overall figure which emerges from this volume is a very different Carnap to the caricature that many philosophers will know **Carnap Brought Home** Steve Awodey,Carsten Klein,2004 This collection of 16 papers
