*Philosophy Of The Upanishads* Sri Aurobindo, 2007 Written sometime between 1904 and 1906 during the latter part of his stay in Baroda The Philosophy of the Upanishads though left incomplete by the author represents an early stage of Sri Aurobindo's thinking on the most important scriptures of Vedanta philosophy In the Preface he comments that not only is the philosophy of the Upanishads at the base of all Indian religion and morals and of Hindu politics legislation and society but it has also profoundly influenced Western thought in both subtle and evident ways *The Religion and Philosophy of the Veda and Upanishads* Arthur Berriedale Keith, 1925

**The Principal Upanisads** Sarvepalli Radhakrishnan, 1992 The Upanisads the basic philosophical texts of Hinduism represent the height of Vedic philosophy Many of the older Upanisads can be dated in the eighth and seventh centuries BCE This newly reissued scholarly work by S Radhakrishnan first published in 1953 and long out of print contains in full the classical Upanisads those commented on or mentioned by the eighth century Indian philosopher Shankara The Sanskrit text transliterated into Roman script is followed verse by verse with an English translation The volume also includes a commentary on the argument notes on the vocabulary and a very detailed introduction by Dr Radhakrishnan

**The Philosophy of the Upanisads** S. M. Srinivasa Chari, 2002 Description The Upanisads which contain lofty philosophical teachings of the great seers constitute the most authoritative sourcebook for the Vedanta system of philosophy However there is no unanimity among the ancient exponents of Vedanta regarding the nature of the philosophy adumbrated in the Upanisads Dr Chari's scholarly work attempts to make a dispassionate study of the philosophical passages of the fourteen Principal Upanisads by giving due consideration to not only the comments of Samkara Ramanuja and Madhva but more importantly the authoritative views of Badarayana as enshrined in his classic Vedantasutras In the first part of the book he presents the important passages of the Upanisads along with English rendering indicating the variations in the interpretation by the three commentators and also discusses their philosophical implications with reference to the Vedanta doctrines developed in the post Upanisadic period In the second part he has attempted to consolidate the variety of philosophical thoughts scattered all over the Upanisads into coherent doctrines under five broad subjects Brahman jivatman jagat sadhana and parama purusartha In the final chapter he conclusively establishes on the basis of an objective evaluation of the views of the commentators that the Upanisads do not support the main tenets of Advaita such as the concept of Nirvisesa Brahman the identity of jivatman and Brahman the phenomenal character of the jagat and the doctrine of maya The author maintains with sufficient textual support that the nature of the philosophy advocated by the Upanisads is Theistic Monism savisesadvaita This book which is the first of its kind presents an authentic and comprehensive exposition of the philosophy of the Upanisads

**The Call of the Upanishads** Rohit Mehta,1970 The seers and sages of Ancient India revealed fundamental principles of perennial philosophy The Upanishads contain the essential principles of this perennial this ageless philosophy They contain a large number of inspiring and instructive passages and verses It has not been possible to include all of them in this book For the purposes of this book the author has taken those verses and passages that have a bearing on the mystical teaching of the Upanishads It is mysticism which is the very core of the Upanishads and so in understanding its mysticism one comes to the heart of the sublime and magnificent teaching of the Upanishads In this age where science and technology may lead us into a world devoid of meaning and significance Modern man needs today a meaningful philosophy if the achievements of science are not to lead him to greater and greater destruction but to sublime and majestic heights of creative living It is in the Vision of Life given by the Upanishads that man can find the fundamental philosophy of Creative Living a philosophy that can serve as a Beacon Light even in the midst of surrounding darkness a philosophy that can lead him from the unreal to the Real from darkness to Light from death to Immortality
