Philosophy Of Urban Existence:

The Philosophy of Urban Existence Arthur Kalmer Bierman,1973 **Urban Life in the Renaissance** Susan Zimmerman,Ronald F. E. Weissman,1989 This volume derives from two symposia sponsored by the Center for Renaissance and Baroque Studies at the University of Maryland In studies of Italy France England Holland and Spain that range from the fifteenth through the seventeenth centuries it explores various aspects of Renaissance urban culture and urban identity

The Routledge Companion to the Philosophy of Architectural Reconstruction Zoltán Somhegyi,Lisa Giombini,2024-05-30 This companion investigates the philosophical and theoretical foundations determining the conditions of possibility and the limits that make the conservation readaptation and transformation of past buildings legitimate operations As increasing ecological and economic challenges question opportunities for new construction the process of restoring transforming and readapting buildings for new or continued use is becoming an essential part of architectural practice At the same time the role of building conservation is changing from mere material preservation to being part of a broader strategy for social regeneration eco awareness and inclusive urban planning Chapters of this volume explore the complex set of considerations that inform decisions to merely preserve accurately restore or variously reuse a building They also look at the broader philosophical concerns such as ethical and aesthetic values combined with ideas of heritage history and collective identity Case studies on reconstruction after war gentrification the restoration of ancient edifices reconstruction following the effects of climate change and the use of technology solutions among many others make this a timely and urgent volume Adopting a broad transcultural perspective with contributions from five continents the volume combines theoretical approaches with more practical case study based investigations and will be of great interest to upper level students and academics working in the fields of architecture conservation urban design aesthetics and heritage management A Study of the Urban Poetics of Frank O'Hara Wang Xiaoling,Wang Yuzhi,Zheng Mingyuan,2022-05-30 Focusing on the poetry and cultural practice of Frank O Hara the great urban poet of the New York School during the 1950s and 1960s this books explores the interwoven relationship between his urban poetics and the urban culture of New York seeking to shed light on poetic concept and its cultural relevance The poetry of Frank O Hara is deeply rooted in and nourished by his urban experience as a metropolitan and an active participant in the vibrant cultural scene of New York Therefore an investigation into the interactive dynamics between his poetry and the urban culture he helped shape serves as a starting point for further study on the literary representation of European and American urban culture Across eight chapters the authors look into the genesis theoretical constitution the interface with culture and aesthetics of O Hara s urban poetics and also their philosophical foundations literary ethics special expression and representation as well as his reception of modernity and postmodernity The title will appeal to scholars students and general readers interested in American literature poetry and urban culture especially Frank O Hara and the New York School Philosophy and German Literature, 1700–1990 Nicholas

Saul,2002-05-02 Although the importance of the interplay of literature and philosophy in Germany has often been examined within individual works or groups of works by particular authors little research has been undertaken into the broader dialogue of German literature and philosophy as a whole Philosophy and German Literature 1700 1990 offers six chapters by leading specialists on the dialogue between the work of German literary writers and philosophers through their works The volume shows that German literature far from being the mouthpiece of a dour philosophical culture dominated by the great names of Leibniz Kant Hegel Marx Heidegger and Habermas has much more to offer while possessing a high affinity with philosophy it explores regions of human insight and experience beyond philosophy's ken

The urban life of workers in post-Soviet Russia Alexandrina Vanke,2024-01-09 Despite the intense processes of deindustrialisation around the world the working class continues to play an important role in post industrial societies However working class people are often stigmatised morally judged and depicted negatively in dominant discourses This book challenges stereotypical representations of workers building on research into the everyday worlds of working class and ordinary people in Russia's post industrial cities The urban life of workers in post Soviet Russia is centred on the stories of local communities engaged in the everyday struggles that occur in deindustrialising settings under neoliberal neo authoritarianism The book suggests a novel approach to everyday life in post industrial cities Drawing on an ethnographic study with elements of arts based research the book presents a new genre of writing about workers influenced by the avant garde documentary tradition and working class literature

Environment, Agency, and Technology in Urban Life since c.1750 Mikkel Thelle,Mikkel Høghøj,2024-03-12 This book explores the historical relationship between technonatures and urban transformations in the Global North In recent years various interdisciplinary movements such as Urban Political Ecology STS and New Materialism have affected urban history and generated new scholarly insights into the formation of cities and urban life based on notions of hybridity entanglement and metabolism While scholars have increasingly attempted to grasp the socio natural and technical complexity of cities studies dealing with urban transformation within urban history have however mostly concentrated on political actors or broader social and economic changes Seeking to introduce the concept of technonatures to the field of urban environmental history this book instead takes its empirical and analytical starting point in the technonatural fabric of cities Focusing on urban rivers dumps railways flood walls and housing the chapters of the book thus examines how different entanglements of environment technology and agency have shaped cities and processes of urbanization in the Global North from the seventeenth century onwards By foregrounding the transformative role of urban natures materialities and technologies in shaping the politics of urban life and cities more broadly the book aspires to probe the potentiality of technonatures as a conceptual and analytical strategy for urban environmental historians

Everyday Life and Urban Studies Sabine Knierbein,2025-10-13 *Everyday Life*

and Urban Studies revisits the ordinary routines that shape urban life during the crises ridden last century and early new millennium Vast parts of Henri Lefebvre's intellectual work on everyday life however remain underappreciated in urban studies This book seeks to re integrate Lefebvre's Critique of Everyday Life into studies of urbanization Starting in the 1920s the book realigns historical insights with contemporary urban phenomena to uncover patterns of capitalist urbanization By showing the relevance of grasping the minutiae of everyday life to understanding cities the urban and urbanization today everyday life space and philosophy are brought back in tension This work combines analytical methodological exploration pedagogic mission and theoretical advances to carve out an everyday theory based approach to urban studies situated at the interface of the spatial arts the humanities and the social sciences This book examines the transformative potential that lies hidden in everyday life thereby unravelling a way to nurture hope amid unsettled urban conditions The book is essential for students faculty and researchers in the fields of urban studies city planning urban design human geography sociology cultural studies and political science

Space and Muslim Urban Life Simon O'Meara, 2007-08-09 This book develops academic understanding of Muslim urban space by pursuing the structural logic of the premodern Arab Muslim city or medina With particular reference to The Book of Walls an historical discourse of Islamic law whose primary subject is the wall the book determines the meaning of a wall and then uses it to analyze the space of Fez One of a growing number of studies to address space as a category of critical analysis the book makes the following contributions to scholarship Methodologically it breaks with the tradition of viewing Islamic architecture as a well defined object observed by a specialist at an aesthetically directed distance rather it inhabits the logic of this architecture by rethinking it discursively from within the culture that produced it Hermeneutically it sheds new light on one of North Africa's oldest medinas and thereby illuminates a type of environment still common to much of the Arab Muslim world Empirically it brings to the attention of mainstream scholarship a legal discourse and aesthetic that contributed to the form and longevity of this type of environment and it exposes a preoccupation with walls and other limits in premodern urban Arab Muslim culture and a mythical paradigm informing the foundation narratives of a number of historic medinas Presenting a fresh perspective for the understanding of Muslim urban society and thought this innovative study will be of interest to students and researchers of Islamic studies architecture and sociology

Shanghai Urban Life and Its Heterogeneous Cultural Entanglements Yuezhi Xiong, 2022-08-01 In this book Xiong Yuezhi and a team of distinguished scholars bring together cutting edge research on the urban history of Shanghai and the diversity of its distinctive culture Occupying an interstitial space between Chinese and foreign power Shanghai from the mid nineteenth to the mid twentieth century experienced almost unimaginably complex developments in its political social economic and cultural history To untangle this complexity Xiong and his team have carefully constructed in thematic and chronological fashion the interactions between the imperialist powers foreign settlers and the Chinese community of Shanghai from the origins of the racially segregated International Settlement in the 1840s to

the internment of foreign settlers in Shanghai during World War II in the 1940s Sehrenciz, Urban Rituals and Deviant Sufi Mysticism in Ottoman Istanbul B. Deniz Çalis-Kural,2016-04-01 ehrenciz is an Ottoman genre of poetry written in honor of various cities and provincial towns of the Ottoman Empire from the early sixteenth century to the early eighteenth century This book examines the urban culture of Ottoman Istanbul through ehrenciz as the Ottoman space culture and traditions have been shaped by a constant struggle between conflicting groups practicing political and religious attitudes at odds By examining real and imaginary gardens landscapes and urban spaces and associated ritualized traditions the book questions the formation of Ottoman space culture in relation to practices of orthodox and heterodox Islamic practices and imperial politics The study proposes that ehrenciz was a subtext for secret rituals performed in city spaces carrying dissident ideals of Melami mysticism following after the ideals of the thirteenth century Sufi philosopher Ibn al Arabi who proposed a theory of creative imagination and a three tiered definition of space the ideal the real and the intermediary barzakh In these rituals marginal groups of guilds emphasized the autonomy of individual self and suggested a novel proposition that the city shall become an intermediary space for reconciling the orthodox and heterodox worlds In the early eighteenth century liminal expressions of these marginal groups gave rise to new urban rituals this time adopted by the Ottoman court society and by affluent city dwellers and expressed in the poetry of Ned m The author traces how a tradition that had its roots in the early sixteenth century as a marginal protest movement evolved until the early eighteenth century as a movement of urban space reform Urban Culture Chris Jenks,2004 This set includes key pieces from Peter Ackroyd Charles Baudelaire Walter Benjamin Homi Bhaba Charles Dickens Fredrick Engles Paul Gilroy Thomas Hobbes Max Weber George Simmel Ian Sinclair Edward W Soja Gayatri Spivak Nigel Thrift Virginia Woolf Sharon Zukin and many others The material is arranged thematically highlighting the variety of interests that coexist and conflict within the city Issues such as gender class race age and disability are covered along with urban experiences such as walking politics anthropology cultural history cultural geography art critical theory visual culture literary studies social policy and cultural studies http://www.loc.gov/catdir/enhancements/fy0650/2004044268_d.html **The Oxford Handbook of Philosophy of Technology** Shannon Vallor,2022 The Oxford Handbook of Philosophy of Technology gives readers a view into this increasingly vital and urgently needed domain of philosophical understanding offering an in depth collection of leading and emerging voices in the philosophy of technology The thirty two contributions in this volume cut across and connect diverse philosophical traditions methodologies and subfields providing the reader with provocative and original insights on the history concepts problems and challenges that mark humanity s attempts to attain deeper and more lasting wisdom about our complex and evolving relationship to technology **The Beginnings of American Urban Life** Hattie Gertrude Hicks,1923 Jews and Urban Life Leonard J. Greenspoon,2023-12-15 Jews and Urban Life recognizes that throughout their long history Jews have often inhabited cities The reality of this urban experience ranged from ghetto restrictions to robust participation in a range of civic and social

activities Essays in this collection present relevant examples from within the Jewish community itself moving historically from the biblical period to the modern day State of Israel Taking a comparative approach while recognizing the particulars of individual instances authors examine these phenomena from a wide variety of approaches genres and media Interdisciplinary and accessibly written the articles display a multitude of instances throughout history showing the range of Jewish life in urban settings

Antonio López García's Everyday Urban Worlds Benjamin Fraser, 2014-08-26 Antonio López García's *Everyday Urban Worlds: A Philosophy of Painting* is the first book to give the famed Spanish artist the critical attention he deserves Born in Tomelloso in 1936 and still living in the Spanish capital today Antonio López has long cultivated a reputation for impressive urban scenes but it is urban time that is his real subject Going far beyond mere artist biography Benjamin Fraser explores the relevance of multiple disciplines to an understanding of the painter's large scale canvasses Weaving selected images together with their urban referents and without ever straying too far from discussion of the painter's oeuvre method and reception by critics Fraser pulls from disciplines as varied as philosophy history Spanish literature and film cultural studies urban geography architecture and city planning in his analyses The book begins at ground level with one of the artist's most recognizable images the *Gran Vía* which captures the urban project that sought to establish Madrid as an emblem of modernity Here discussion of the artist's chosen painting style one that has been referred to as a hyperrealism is integrated with the central street's history the capital's famous literary figures and its filmic representations setting up the philosophical perspective toward which the book gradually develops Chapter two rises in altitude to focus on Madrid desde Torres Blancas an urban image painted from the vantage point provided by an iconic high rise in the north central area of the city Discussion of the Spanish capital's northward expansion complements a broad view of the artist's push into representations of landscape and allows for the exploration of themes such as political conflict social inequality and the accelerated cultural change of an increasingly mobile nation during the 1960s Chapter three views Madrid desde la torre de bomberos de Vallecas and signals a turn toward political philosophy Here the size of the artist's image itself foregrounds questions of scale which Fraser paints in broad strokes as he blends discussions of artistry with the turbulent history of one of Madrid's outlying districts and a continued focus on urban development and its literary and filmic resonance Antonio López García's *Everyday Urban Worlds* also includes an artist timeline a concise introduction and an epilogue centering on the artist's role in the Spanish film *El sol del membrillo* The book's clear style and comprehensive endnotes make it appropriate for both general readers and specialists alike

[Russia, Ukraine, and the Breakup of the Soviet Union](#) Roman Szporluk, 2020-02-24 This book chronicles the final two decades in the history of the Soviet Union and presents a story that is often lost in the standard interpretations of the collapse of communism in Eastern Europe and the USSR Although there were numerous reasons for the collapse of communism it did not happen as it may have seemed to some overnight Indeed says Roman Szporluk the root causes go back even earlier than 1917 To understand why the USSR broke up the way it did it is

necessary to understand the relationship between the two most important nations of the USSR Russia and Ukraine during the Soviet period and before as well as the parallel but interrelated processes of nation formation in both states Szporluk details a number of often overlooked factors leading to the USSR's fall how the processes of Russian identity formation were not completed by the time of the communist takeover in 1917 the unification of Ukraine in 1939 1945 and the Soviet period failing to find a resolution of the question of Russian Ukrainian relations The present day conflict in the Caucasus he asserts is a sign that the problems of Russian identity remain The Quality of Urban Life United States. From a Philosophical Point of View Morton White, 2009-02-09 One of the most important philosophers of recent times Morton White has spent a career building bridges among the increasingly fragmented worlds of the humanities social sciences and natural sciences From a Philosophical Point of View is a selection of White's best essays written over a period of more than sixty years Together these selections represent the belief that philosophers should reflect not only on mathematics and science but also on other aspects of culture such as religion art history law education and morality White's essays cover the full range of his interests studies in ethics the theory of knowledge and metaphysics as well as in the philosophy of culture the history of pragmatism and allied currents in social political and legal thought The book also includes pieces on philosophers who have influenced White at different stages of his career among them William James John Dewey G E Moore and W V Quine Throughout White argues from a holistic standpoint against a sharp epistemological distinction between logical and physical beliefs and also against an equally sharp one between descriptive and normative beliefs White maintains that once the philosopher abandons the dogma that the logical analysis of mathematics and physics is the essence of his subject he frees himself to resume his traditional role as a student of the central institutions of civilization Philosophers should function not merely as spectators of all time and existence he argues but as empirically minded students of culture who try to use some of their ideas for the benefit of society
