approaches in the field of religious studies Provides a manifesto for a global approach to the subject that is a practice centred rather than a belief centred activity Gives attention to reflexive critical studies of religion as socially constructed and historically located **Rationality, Religious Belief, and Moral Commitment** Robert Audi, William J. Wainwright, 1986

This book is unified by three broad concerns the rationality of belief in God the relation between religion and morality and the explication of the concept of God The essays are however marked by diversity Some focus on historical figures such as Aquinas and Locke others bring recent epistemological and metaphysical developments to bear on problems of religious belief Some of the papers explore neglected issues central to religious practice such as the question of how total devotion to God can permit other deep commitments others apply philosophical distinctions from within a religious tradition for example in setting out a Christian approach to the problem of evil *Religious Belief and Philosophical Thought* William P.

Alston, 1963 **Reason & Religious Belief** Michael L. Peterson, 2003 What is the status of belief in God Must a rational case be made or can such belief be properly basic Is it possible to reconcile the concept of a good God with evil and suffering In light of great differences among religions can only one religion be true The most comprehensive work of its kind Reason and Religious Belief now in its third edition explores these and other perennial questions in the philosophy of religion Drawing from the best in both classical and contemporary discussions the authors examine religious experience faith and reason theistic arguments the problem of evil Reformed epistemology miracles and religious language They also treat subjects not often included in competing texts such as process theism religious pluralism religion and science and the relationship between religion and morality The third edition retains the engaging style and thorough coverage of previous editions and also takes into account the latest contributions in the field by such thinkers as Plantinga Alston Martin Murphy Dembski M Adams and Swinburne Integrating a variety of perspectives it adds a chapter on the openness of God debate several sections on feminist concerns and frequent comparisons of how Eastern religions compare with Western theism A sophisticated yet accessible introduction Reason and Religious Belief 3 e is ideally suited for use with the authors companion anthology

Reason and Religious Belief Michael L. Peterson, 1991 Drawing from both classical and contemporary discussions the authors examine topics of religious experience faith and reason theistic arguments the problem of evil religious language miracles life after death and much more The volume is enhanced by study questions and suggestions for further reading The book also may serve as a companion to the authors 1996 anthology **PHILOSOPHY OF RELIGION** **Philosophy of Religion** Brian Davies, 1998 This is a textbook and reference work by some of the world's leading philosophers of religion Philosophy of religion is concerned with such questions as Does God exist Can God's existence be proved What is God like Is there life after death Can philosophy throw light on the diversity of religious beliefs And what can science tell us about religious matters *Reason to Believe* Richard Purtill, 2009-09-03 Is religious belief reasonable Of course the so called New Atheists such as Richard Dawkins and Sam Harris energetically say No Many others including some believers insist that faith is utterly beyond reasoned argument Faith they declare is believing something that reason tells you can't be so In this way they think they shield belief from rational criticism But philosopher Richard Purtill will have none of that approach to religion In this newly updated classic work Purtill carefully applies the power of the mind to understanding whether there is a rational basis for certain religious beliefs His focus is on widely held Christian beliefs although much of what he says applies also to other religious traditions Purtill assesses the common objections to religious belief the claims that religious tenets are nonsensical wishful thinking the result of gullibility immoral or refuted by modern discoveries Then he considers the arguments in favor of Christian belief by studying the nature of faith of the universe of morality of happiness and the world with God in it He also scrutinizes certain beliefs involving claims of Christian revelation the credentials of revelation the idea of God Jesus as God's Son organized religion and the last things death judgment heaven and hell The two appendices tackle the Christian doctrine of the Atonement and the influence of certain Christian writers on the revival of Christian belief in the 20th century An updated For Further Reading section is included Reason to Believe is not a work of revealed theology or religious devotion it is a highly readable book on the philosophy of religion aimed at the reader who wants to think seriously about religion but who doesn't know all the philosophers and theologians jargon and who may or may not be a committed believer *Feminist Philosophy of Religion* Pamela Sue Anderson, Beverley Clack, 2004 Feminist Philosophy of Religion Critical Readings brings together key new writings in this growing field **Reason & Religious Belief** Michael Peterson, William Hasker, Bruce Reichenbach, David Basinger, 2012-11-29 Reason and Religious Belief now in its fifth edition explores perennial questions in the philosophy of religion Drawing from the best in both classical and contemporary discussions the authors examine religious experience **Reason and Religion** Herman Philipse, 2022-04-28 Combines philosophical investigations concerning the truth of religious convictions with empirical research on the origins and functions of religious beliefs This book focuses on two core questions 1 How probable is it that any particular god exists 2 How should we account for the occurrence of religious beliefs in human societies
