Philosophy And The Civilizing Arts Essays Presented To Herbert W Schneider:

Philosophy and the Civilizing Arts Craig Walton, John Peter Anton, 1974 *Gustav Shpet's Contribution to Philosophy and Cultural Theory* Galin Tihanov, 2009 This book offers original research by leading scholars from the United States United Kingdom Germany France and Russia which covers the central areas of Shpet's work on phenomenology philosophy of language cultural theory and aesthetics and takes forward the current state of knowledge and debates on his contribution to these fields of enquiry The book also contains for the first time in English translation the most seminal portions of Shpet's book length study of hermeneutics which is his most significant work for contemporary students of cultural theory The first part of the book maps out Shpet's legacy in the main areas of his multi faceted work the second part examines in closer detail particular aspects of Shpet's philosophical affiliations and contributions in the framework of cultural theory phenomenology hermeneutics and in the field of Russian intellectual history the final part features the publication of extracts from Shpet's 1918 book on hermeneutics **National Identity and the Agrarian Republic** Manuela Albertone, 2016-04-22 With a few exceptions historiography has paid little attention to the impact of French economic thought during the American Revolution focusing instead on the Revolution's links with Britain This book outlines how from the mid eighteenth to the early nineteenth century the political and social dimension of French economic thought and particularly of Physiocracy spurred American Republicans to a radical shaping of American agrarian ideology Such a perspective allows for a reconsideration of several questions that lie at the heart of contemporary historiographic debate the connection between politics and economics the meaning of republicanism the foundations of representation the role of Europe in the Atlantic world and the interaction between national histories and global context In particular the research methodology adopted here makes it possible to reconstruct how American national identity conceived as an expression of society in economic terms emerged through a cosmopolitan way of thinking focused on the uniqueness of the new state The Victorian Reinvention of Race Edward Beasley, 2010-07-02 Not until the early nineteenth century would polygenetic and racialist theories win many adherents But by the middle of the nineteenth century in England racial categories were imposed upon humanity How the idea of race gained popularity in England at that time is the central focus of *The Victorian Reinvention of Race* *New Racisms and the Problem of Grouping in the Human Sciences* **Kelsenian Legal Science and the Nature of Law** Peter Langford, Ian Bryan, John McGarry, 2017-05-16 This book critically examines the conception of legal science and the nature of law developed by Hans Kelsen It provides a single dedicated space for a range of established European scholars to engage with the influential work of this Austrian jurist legal philosopher and political philosopher The introduction provides a thematization of the Kelsenian notion of law as a legal science Divided into six parts the chapter contributions feature distinct levels of analysis Overall the structure of the book provides a sustained reflection upon central aspects of Kelsenian legal science and the nature of law Parts one and two examine the validity of the project of Kelsenian legal science with

particular reference to the social fact thesis the notion of a science of positive law and the specifically Kelsenian concept of the basic norm Grundnorm The next three parts engage in a critical analysis of the relationship of Kelsenian legal science to constitutionalism practical reason and human rights The last part involves an examination of the continued pertinence of Kelsenian legal science as a theory of the nature of law with a particular focus upon contemporary non positivist theories of law The conclusion discusses the increasing distance of contemporary theories of legal positivism from a Kelsenian notion of legal science in its consideration of the nature of law

History and System Robert L. Perkins, 1984-06-30 *History and System* represents the first contemporary volume on Hegel's philosophy of history to be published in English The editor notes that with the possible exceptions of Augustine and Vico no philosopher before Hegel had such a deep sense of the mutual penetration of history and philosophy as did Hegel Historical reflection influenced his reading of other philosophers and philosophical reason penetrated his views of past events and eras Reflecting the best of Hegelian scholarship the papers here focus on the sources of Hegel's philosophy of history its internal structure and relation to other parts of his system analyses of specific aspects of his philosophy of history and its influence on subsequent thinkers In its breadth and depth the volume attests to the continued and growing importance of Hegel's thought for contemporary philosophy

Dark Vanishings Patrick Brantlinger, 2014-01-15 Patrick Brantlinger here examines the commonly held nineteenth century view that all primitive or savage races around the world were doomed sooner or later to extinction Warlike propensities and presumed cannibalism were regarded as simultaneously noble and suicidal accelerants of the downfall of other races after contact with white civilization Brantlinger finds at the heart of this belief the stereotype of the self exterminating savage or the view that savagery is a sufficient explanation for the ultimate disappearance of savages from the grand theater of world history Humanitarians according to Brantlinger saw the problem in the same terms of inevitability or doom as did scientists such as Charles Darwin and Thomas Henry Huxley as well as propagandists for empire such as Charles Wentworth Dilke and James Anthony Froude Brantlinger analyzes the Irish Famine in the context of ideas and theories about primitive races in North America Australia New Zealand and elsewhere He shows that by the end of the nineteenth century especially through the influence of the eugenics movement extinction discourse was ironically applied to the great white race in various apocalyptic formulations With the rise of fascism and Nazism and with the gradual renewal of aboriginal populations in some parts of the world by the 1930s the stereotypic idea of fatal impact began to unravel as did also various more general forms of race based thinking and of social Darwinism

Hryhorij Savyc Skovoroda University of Alberta. Canadian Institute of Ukrainian Studies, 1994 The essays in this collection of symposium papers about the eminent Ukrainian philosopher and poet Hryhorij Skovoroda 1722-94 examine this unique figure from a number of perspectives historical social literary pedagogical linguistic theological and philosophical Hryhorij Skovoroda is a major figure in the history of Ukrainian and Russian literature and philosophy Educated at the Kyiv Mohyla Academy he served variously as music director of the Russian imperial mission in

Hungary private tutor and instructor of ethics and poetics at the Kharkiv Collegium The last decades of his life which he spent wandering about eastern Ukraine were devoted to writing and contemplation Skovoroda's writings verse fables philosophical dialogues are profoundly steeped in biblical tradition and characterized by the striking use of symbol and metaphor as well as sophisticated linguistic experimentation His influence on Ukrainian and Russian writers began in his own lifetime and has continued and grown ever since It is strongly evident in the works of such figures as Taras Shevchenko Nikolai Gogol Andrei Belyj and Vasyl Barka among others Skovoroda is an indelible presence in the realms of philosophy literature religion and linguistics Yet he is inadequately appreciated particularly in the West Contributors include Dmytro Cyzevs kyj Karen L Black Stephen Scherer George Y Shevelov Bohdan Rubchak Bohdan Struminski George Kline Taras Zakydalsky Mikhail Weiskopf Aleksandr Lavrov and others This volume also includes an exhaustive bibliography of Skovorodiana compiled by Richard Hantula See Dmytro Cyzevs kyj Nikolai Gogol *Ballad and Lyceum in the Encyclopedia of Ukraine*

Kant on Spontaneity Marco Sgarbi, 2012-06-14 The concept of spontaneity is central to Kant's philosophy yet Kant himself never dealt with it explicitly Instead it was presented as an insoluble problem concerning human reason The ambiguity surrounding his approach to this problem is surprising when one considers that he was a philosopher who based his theoretical programme on the critique of the faculties of knowledge feeling and desire However this ambiguity seems to have avoided up to now any possible critique This highly original book presents the first full length study of the problem of spontaneity in Kant Marco Sgarbi demonstrates that spontaneity is a crucial concept in relation to every aspect of Kant's thought He begins by reconstructing the history of the concept of spontaneity in the German Enlightenment prior to Kant and goes on to define knowing thinking acting and feeling as spontaneous activities of the mind that in turn determine Kant's logic ethics and aesthetics Ultimately Sgarbi shows that the notion of spontaneity is key to understanding both Kant's theoretical and practical philosophy

The History of Scepticism Richard H. Popkin, 2003-03-20 This is a thoroughly revised and expanded edition of Richard Popkin's classic *The History of Scepticism* first published in 1960 revised in 1979 and since translated into numerous foreign languages This authoritative work of historical scholarship has been revised throughout including new material on the introduction of ancient skepticism into Renaissance Europe the role of Savonarola and his disciples in bringing Sextus Empiricus to the attention of European thinkers and new material on Henry More Blaise Pascal Thomas Hobbes Baruch Spinoza Nicolas Malebranche G W Leibniz Simon Foucher and Pierre Daniel Huet and Pierre Bayle The bibliography has also been updated

From White to Yellow Rotem Kowner, 2014-12-01 When Europeans first landed in Japan they encountered people they perceived as white skinned and highly civilized but these impressions did not endure Gradually the Europeans' positive impressions faded away and Japanese were seen as yellow skinned and relatively inferior Accounting for this dramatic transformation *From White to Yellow* is a groundbreaking study of the evolution of European interpretations of the Japanese and the emergence of discourses about race in early modern Europe Transcending the

conventional focus on Africans and Jews within the rise of modern racism Rotem Kowner demonstrates that the invention of race did not emerge in a vacuum in eighteenth century Europe but rather was a direct product of earlier discourses of the Other This compelling study indicates that the racial discourse on the Japanese alongside the Chinese played a major role in the rise of the modern concept of race While challenging Europe's self possession and sense of centrality the discourse delayed the eventual consolidation of a hierarchical worldview in which Europeans stood immutably at the apex Drawing from a vast array of primary sources From White to Yellow traces the racial roots of the modern clash between Japan and the West

A Distant Sovereignty Sudipta Sen, 2016-04-22 In this broad study of British rule in India during the late eighteenth and early nineteenth centuries Sudipta Sen takes up this dual agenda sketching out the interrelationships between nationalism imperialism and identity formation as they played out in both England and South Asia

English Ethnicity and Race in Early Modern Drama Mary Floyd-Wilson, 2003-02-20 In *English Ethnicity and Race in Early Modern Drama* first published in 2003 Mary Floyd Wilson outlines what we might call scientific conceptions of racial and ethnic differences in sixteenth and seventeenth century English writing Drawing on classical and contemporary medical texts histories and cosmographies Floyd Wilson demonstrates that Renaissance understandings of racial and ethnic identities contradicted many modern stereotypes concerning difference Southerners Africans in particular were identified as dispassionate cool tempered and wise whereas the more northern English were understood to be unruly impressionable and slow witted Concerned with the unflattering and constraining implications of this classically derived knowledge English writers laboured to reinvent ethnology to their own advantage a labour that paved the way for the invention of more familiar racial ideas Floyd Wilson highlights these English revisionary efforts in her surprising and transformational readings of the period's drama including Marlowe's Tamburlaine Jonson's *The Masque of Blackness* and Shakespeare's *Othello* and *Cymbeline*

Traveling Back Susan McWilliams, 2014-01-15 We live in a global age an age of vast scale and speed an age of great technological and economic and environmental change in conditions our ancestors could hardly have imagined What does this compression of geographical and temporal scale mean for our political thinking Do we need new modes of political thought or a new kind of political imagination How might we begin to develop a truly global political theory Against the common belief that we need a wholly new political theory for our global age Susan McWilliams argues that the best foundation is already behind us and can be found by traveling back In doing this revisiting the history of political thought with a mind to the questions accompanying globalization it becomes clear that the greatest tool for understanding our new world lies in one of the oldest themes in Western political theory travel Since the beginnings of Western political thought the ancient Greeks referred to travel as *theoria* political theorists have used images of travel to illuminate the central questions of globalization where travel stories appear we find serious reflection about how to live in cross cultural and interconnected political conditions Here we find attention to the contingency of political identity to hybridity and to the threats of colonialism

and imperialism We even find self critical questioning about the dangers that face political theorists who want to think globally In *Traveling Back* McWilliams uncovers the rich travel story tradition of political theorizing that speaks directly to the problems of our age She explores why this travel story tradition has been so long neglected especially in this time when we need its wisdom and she calls for its rediscovery In order to move forward toward a global political theory as McWilliams eloquently demonstrates we must first learn to travel back

Educational Theory as Theory of Conduct Joseph James Chambliss, 1987-01-01 Chambliss presents clearly the position that educational theory is a theory of conduct rather than an applied science It is theory of conduct not about conduct He reveals the richness of this idea and examines the various ways it has been discussed in the works of Aristotle Rousseau Dewey and others He also demonstrates its timeliness for today s educators by presenting it as an antidote to the current widespread tendency of trying to quantify conduct to treat education as a thing to be measured

Sexual Sites, Seminal Attitudes Sanjay Srivastava, 2004-03-20 Discussions on sexuality in the South Asian context have tended to focus largely on men s preoccupations through notions such as semen anxiety Another restrictive framework is the excessive importance ascribed to religion in everyday life The result has been a rather narrow debate on sexuality By providing accounts of a myriad sites and meanings of sexuality this remarkable volume broadens the debate on sexuality in South Asia It combines perspectives from history anthropology and cultural and literary studies to provide an interdisciplinary exploration of the cultures of and the multiple meanings and contestations that gather around masculinities and sexualities The collection is unique in the breadth of its theoretical concerns its focus on hitherto marginalized sexual identities and its novel juxtapositions of analyses of colonial discourses with those of postcolonised modernity

Ruminations, Volume 3: The Frozen Landscape: Selected Philosophical, Historical, and Ideological Papers Eric v.d. Luft, 2022-01-26 Essays poems and other short works on Heidegger Nietzsche the ontological argument Hegel Schopenhauer logic the philosophy of religion the philosophy of art socialism metaphysics and the principle of sufficient reason

The History of Scepticism from Erasmus to Spinoza Richard H. Popkin, 2023-09-01 I had read the book before in the shorter Harper Torchbook edition but read it again right through and found it as interesting and exciting as before I regard it as one of the seminal books in the history of ideas Based on a prodigious amount of original research it demonstrated conclusively and in fascinating details how the transmission of ancient skepticism was a vital factor in the formation of modern thought The story is rich in implications for the history of philosophy the history of science and the history of religious thought Popkin s work has already inspired further work by others and the new edition takes account of this most importantly the work of Charles Schmitt The two new chapters extend the story as far as Spinoza with special reference to the beginnings of biblical criticism Popkin s history is of great potential interest to a wide readership wider than most specialist publications and wider than it has so far as I can tell reached hitherto M F Burnyeat Professor of Philosophy University College London I had read the book before in the shorter Harper Torchbook edition but read it again right through

and found it as interesting and exciting as before I regard it as one of the seminal books in the history of ideas Based on a prodigious amount of original research A Contextualistic Worldview Lewis Edwin Hahn, 2001 This selection of articles by Lewis E Hahn addresses the philosophical school of contextualism and four contemporary American philosophers John Dewey Henry Nelson Wieman Stephen C Pepper and Brand Blanshard Stressing the relatively recent contextualistic worldview which he considers one of the best world hypotheses Hahn seeks to achieve a broad perspective within which all things may be given their due place After providing a brief outline Hahn explains contextualism in relation to other philosophies In his opening chapter as in later chapters he expresses contextualism as a form of pragmatic naturalism In spite of Hahn's high regard for contextualism however he does not think it would be good if we were limited to a single worldview The more different views we have and the more different sources of possible light we have the better our chances that some of these cosmic maps will shed light on our world and our place in it *The High Road to Pyrrhonism* Richard Henry Popkin, 1993-01-01 In this sequel to his classic study *The History of Scepticism from Erasmus to Descartes* Popkin examines the important role played by the revival and reformulation of classical scepticism in eighteenth century philosophy
