Hall, Roger T. Ames, 1987-10-15 Thinking Through Confucius critically interprets the conceptual structure underlying Confucius philosophical reflections It also investigates thinking or philosophy from the perspective of Confucius Perhaps the philosophical question of our time is what is philosophy The authors suggest that an examination of the Chinese philosophy may provide an alternative definition of philosophy that can be used to address some of the pressing issues of the Western cultural tradition This book finds an appropriate language for the interpretation of traditional Chinese philosophical thought a language which is relatively free from the bias and presuppositions of Western philosophy Philosophy of Confucius James Legge, Confucius, 2013-08 **Confucianism** Paul R. Goldin, 2014-12-05 Confucianism presents the history and salient tenets of Confucian thought and discusses its viability from both a social and a philosophical point of view in the modern world Despite most of the major Confucian texts having been translated into English there remains a surprising lack of straightforward textbooks on Confucian philosophy in any Western language Those that do exist are often oriented from the point of view of Western philosophy or worse a peculiar school of thought within Western philosophy and advance correspondingly skewed interpretations of Confucianism This book seeks to rectify this situation It guides readers through

the philosophies of the three major classical Confucians Confucius 551 479 BCE Mencius 372 289 BCE and Xunzi fl 3rd cent BCE and concludes with an overview of later Confucian revivals and the standing of Confucianism today the Analects of Confucius Peimin Ni, 2017-02-07 A new translation and commentary of the Analects for contemporary audiences The Analects of Confucius is arguably the single most influential work of China's cultural heritage In this new English translation Peimin Ni accomplishes the rare feat of simultaneously providing a faithful translation of the text offering his own reading based on gongfu practice perspective and presenting major alternative readings to help the reader understand how diverse interpretations and controversies arise In addition to the inclusion of the original Chinese text Ni adds a comprehensive introduction a discussion of key terms annotations and extensive cross references In doing so Ni makes the text accessible and engaging for today's audience Understanding the Analects of Confucius is an outstanding work of sinological scholarship Henry Rosemont Jr author of A Reader's Companion to the Confucian Analects Peimin Ni s translation of the Analects has many virtues that make it stand out as an exemplary version of this most important Chinese text Ni has chosen to present the text as a living document embedded in two thousand years of commentarial conversation over its meaning with today s readers very much part of that ongoing conversation Stephen C Angle author of Contemporary Confucian Political Philosophy *An Introduction to Chinese Philosophy* Karyn Lai, 2017-03-30 This book explores traditions including Confucianism Daoism Mohism Legalism and Chinese Buddhism and how they shape Chinese thought
