

MORALS AND ETHICS

Morals and ethics encompass the principles and values that govern human behavior and decision-making, promoting virtuous conduct and human well-being..

OVERVIEW

Morals and ethics are intertwined concepts that deal with principles and guidelines for human behavior and decision-making. Morals are personal beliefs and values that help individuals distinguish between right and wrong, while ethics provide a broader framework that evaluates and guides conduct within a specific context, such as a profession or society.

EXAMPLES

- **Telling the Truth** – Lying to others is disrespectful of them. Even when telling the truth might hurt us, it's still important to be truthful to be true to our best selves.
- **Work Ethic** – It would be wrong to sit around and not do anything all day then take a paycheck for the day. It's our responsibility to put effort in and work hard.
