

love to maintain a discerning watch over the senses and a continual recollection of God. In performing these and other ascetical practices (summed up as "the practise of purity"), the passions become more and more purified, until one is ready to enter the stage of sanctification and illumination, where grace illumines the mind to see the various levels of reality in different ways. B. discusses at length what and how one can know spiritually, first through concepts and symbols, and then in a state of union where no mental image is perceived. The sign of this latter state is the attainment of a freedom to be able promptly to repulse passionate impulses arising in one's heart. In this new mystical state John distinguishes two moments: an initial approach to the "cloud of divine light," and then an ever deepening penetration into it, where everything is known in God and everything is seen as God sees it. On this level one experiences the glory and beauty of the divine nature, but not the divine nature itself.

B. demonstrates impressive mastery over his subject. The vast amount of unedited material necessary for a doctoral thesis makes for heavy reading. Yet the book will be of value to everyone interested in mysticism from an academic point of view, especially the mysticism of the patristic period.

REASON IN RELIGION: THE FOUNDATIONS OF HEGEL'S PHILOSOPHY OF RELIGION. By Walter Jaeschke. Translated from the German by J. Michael Stewart and Peter C. Hodgson. Berkeley: University of California, 1990. Pp. xvii + 464. \$49.95.

Jaeschke's greatest achievement has been to make sense of Hegel's posthumously published *Lectures on the Philosophy of Religion*. Previous editions had run together and reconciled Hegel's manuscript and sets of student lecture notes from the four occasions at the University of Berlin on which Hegel had delivered this series of lectures, thus creating a text that was not Hegel's and rarely made much sense at all. J.'s critical edition, an English version of which has been published by the University of California, painstakingly separated out the four versions of the lectures. It has made it possible for students of Hegel both to see something of the development of his thought and, perhaps even more importantly, finally be able to study a text with reasonable confidence that it approximates Hegel's original intention.

In the present work, a set of substantial essays, J. claims that Hegel's purpose in his work on religion is to find a way to reintroduce the idea of God into theoretical philosophy, to have once again both a philosophy

Crucicentric, Congregational, and Catholic David R. Peel,2019-03-04 This book presents a synthesis of Alan Sell s theology drawn from his voluminous publications As Sell s doctrinal views are explored and interpreted his indebtedness to P T Forsyth becomes clear What emerges is a theology rooted in and flowing from the Cross Resurrection event Standing in the Separatist Dissenting and Nonconformist traditions Sell advocates a wholehearted commitment to a Congregational ecclesiology which he maintains carries the potential to break through the log jams holding up the establishment of full ecumenical relationships across the churches Saddened by Christianity s many sectarianisms Sell s intentions are thoroughly catholic while his faithfulness to the Christian tradition handed on to him is matched by a willingness to receive insights from beyond it The result is a generous if eclectic expression of Christian orthodoxy The critical phase of the book turns upon the question whether Sell s generous orthodoxy is generous enough Do his theological conclusions actually do justice to the life and ministry of Jesus And secondly are they credible in the contemporary world For all Sell s commitment to apologetics does his theology actually speak to contemporary hearers **The American Catalog** ,1896 *Announcement* ,1913
