**The Philosophy of Right & The Philosophy of Law** Georg

Wilhelm Friedrich Hegel, 2019-04-26 The Philosophy of Right is Hegel's most mature statement of his legal, moral, social and political philosophy. It begins with a discussion of the concept of the free will and argues that the free will can only realize itself in the complicated social context of property rights and relations, contracts, moral commitments, family life, the economy, the legal system, and the polity. A person is not truly free in other words unless he is a participant in all of these different aspects of the life of the state. The Philosophy of Law is an essay in which Hegel explains the fundamentals of legal philosophy. Hegel's philosophy of law is best understood as a natural law theory.

**Hegel's Philosophy of Right, with Marx's Commentary** H.P. Kainz, 2012-12-06

GEORG WILHELM FRIEDRICH HEGEL 1770-1831 THE PLACE OF HEGEL IN THE HISTORY OF PHILOSOPHY In order to gain a proper perspective of Hegel's place in the history of philosophy it might be useful to focus on one key concept which has evolved significantly in meaning from the time of Aristotle to Hegel. I am speaking of the philosophical concept of the category. In Aristotle's system there were ten categories or predicaments of reality or being. These included substantiality, time, place, quantity, quality, and other aspects of knowable beings. The most notable thing about these categories is that they all have to do with what we would call objective realities. That is, none of them purport to describe subjective or mental states or conditions. In modern philosophy, i.e. philosophy since the time of Descartes, there was a swing of the pendulum in the opposite direction from objectivity to subjectivity, culminating in the twelve new categories of Kant. All of Kant's categories were subjective ways of looking at reality. We can organize objective phenomena into universal unities; therefore, the first Kantian category is unity. We can separate objective phenomena into particular divisions; therefore, the second category is plurality. And so forth. With Hegel, the modern trend to subjectivism is arrested, and we have not surprisingly a new type of category: the category of the unity of thought and being of self and other of subject and object.

Hegel's Philosophy of Right (Classic Reprint) S. W.
