## **Philosophy Literature:**

**Philosophy, Literature, and the Human Good** Michael Weston, 2001 In this provocative new examination of the philosophical moral and religious significance of literature Michael Weston explores the role of literature in both analytic and continental traditions He initiates a dialogue between them and investigates the growing importance of these issues for major contemporary thinkers Each chapter explores a philosopher or literary figure who has written on the relation between literature and the good life such as Derrida Kierkegaard Murdoch and Blanchot Challenging and insightful Philosophy Literature and the Human Good is ideal for all students of philosophy and literature *Literature and Philosophy* D. Rudrum, 2006-07-31 A collection of essays grounded in state of the art research that explores contemporary debates at the interface between literature and philosophy It brings together diverse schools of thought and provides both a useful overview and an examination of one of the most fascinating cross disciplinary encounters in the humanities today Philosophy, Literature, Art and Reality Maduka Enyimba, 2020-12-08 There is a fundamental relationship between philosophy and literature in their attempt to interpret and reflect reality Both philosophy and literature are arts or at least aspects of art Aesthetics otherwise known as the philosophy of art exposes very clearly the link between philosophy and literature On the other hand through its major genres namely drama prose and poetry the link between literature and philosophy is made bare Moreover philosophy in playing its second order role delves into the literary world or the discipline of literature with its philosophical paraphernalia of criticality reflectivity analyticity and rigour among others to investigate activities of literary professionals especially as they relate to interpretation and understanding of the nature of the reality of human existential experience It is on the basis of this that this book proposes and exposes the relationship between philosophy and the literary arts This it does by using aesthetics as an aspect of philosophy to elucidate the nature and function of philosophy in literary art as well as their relationship with each other It also uses drama poetry and prose as genres of literature to enunciate the nature and function of literary art The argument here is that both philosophical aesthetics and literature drama poetry and prose are geared toward interpretation and reflection of a people's worldview man's existential experience the nature of human society and by extension the nature of reality in general Thus to succeed in its avowed aim the book is divided into seven 7 chapters The first and second chapters clarify the meaning of philosophy literature and philosophy of literature The third and fourth chapters are concerned with aesthetics as philosophy of art the nature of art where prose drama and poetry are examined as literary arts The fifth chapter examines the role of philosophy and literary arts in understanding reality The sixth chapter examines the nature and role of intention and analogy in the arts The last chapter is a conclusion of all that has been discussed The motivation for compiling this book is to fill the obvious gap found in textbooks on Aesthetics or Philosophy of arts No textbook written on this subject has dealt with the relationship between aesthetics and literary art and the role of literature and aesthetics in understanding and interpreting reality It is my sincere hope that this book will not only

fill this gap but also serve as useful material for students and lecturers of the philosophy of literature and philosophy of art aesthetics     The Oxford Handbook of Philosophy and Literature Richard Eldridge, 2009-03-27 This title investigates literature as a form of attention to human life Various forms of attention are considered and in each case the effort is to track and evaluate how specific modes and works of imaginative literature answer to important needs of human subjects

*Philosophical Approaches to Literature* William E. Cain, 1984 This volume presents eleven new essays that reveal how significant nineteenth and twentieth century writers have drawn from and in some cases opposed major trends in philosophy Essays in this collection deal with Tennyson Coleridge Woolf Faulkner De Quincey Beckett romance as a genre the state of contemporary literary theory as shaped by the writings of Wittgenstein Ricoeur and Derrida and other topics     Philosophy as World Literature Jeffrey R. Di Leo, 2020-11-26 What does it mean to consider philosophy as a species of not just literature but world literature The authors in this collection explore philosophy through the lens of the worlding of literature that is how philosophy is connected and reconnected through global literary networks that cross borders mix stories and speak in translation and dialect Historically much of the world's most influential philosophy from Plato's dialogues and Augustine's confessions to Nietzsche's aphorisms and Sartre's plays was a form of literature as well as by extension a form of world literature *Philosophy as World Literature* offers a variety of accounts of how the worlding of literature problematizes the national categorizing of philosophy and brings new meanings and challenges to the discussion of intersections between philosophy and literature     **Buddhist Literature as Philosophy, Buddhist Philosophy as Literature** Rafal K.

Stepien, 2020-11-01 Can literature reveal reality Is philosophical truth a literary artifice How does the way we think affect what we can know Buddhism has been grappling with these questions for centuries and this book attempts to answer them by exploring the relationship between literature and philosophy across the classical and contemporary Buddhist worlds of India Tibet China Japan Korea and North America Written by leading scholars the book examines literary texts composed over two millennia ranging in form from lyric verse narrative poetry panegyric hymn and koan to novel hagiography secret autobiography autofiction treatise and sutra all in sustained conversation with topics in metaphysics ethics aesthetics and the philosophies of mind language literature and religion Interdisciplinary and cross cultural this book deliberately works across and against the boundaries separating three mainstays of humanistic pursuit literature philosophy and religion by focusing on the multiple relationships at play between content and form in works drawn from a truly diverse range of philosophical schools literary genres religious cultures and historical eras Overall the book calls into question the very ways in which we do philosophy study literature and think about religious texts It shows that Buddhist thought provides sophisticated responses to some of the perennial problems regarding how we find create and apply meaning on the page in the mind and throughout our lives     *PHILOSOPHICAL INTERPRETATIONS IN LITERATURE* Dr. Sankhang Basumatary, 2022-04-28 The main purpose of this book is to analyse the philosophical ideas employed by Jean Paul Sartre in his philosophical fiction titled

Nausea 1938 Sartre tries to convey some of his philosophical concerns through this novel Although the philosophical ideas are conveyed in the novel these are not as vivid as could be in a philosophical texts The Transcendence of the Ego 1936 Being and Nothingness 1943 The significance of this work however lies not on understanding the philosophical concerns in isolation but in employing the same in the form of a literary work and certain literary technique in pseudonymous plays or names Sartre engages with pseudonymous play of protagonist and many other characters in his semi autobiographical novel Nausea as he also says by himself in his later publication of autobiographical work The Words 1946 and first undated sheets of the novel Nausea where he laments his constant confrontation with difficult situations of lived experience **The Visible**

**and the Invisible in the Interplay between Philosophy, Literature and Reality** Anna-Teresa Tymieniecka, 2012-12-06 Merleau Ponty's categories of the visible and the invisible are investigated afresh and with originality in this penetrating collection of literary and philosophical inquiries Going beyond the traditional and current references to the mental and the sensory mind and body perceptual content and the abstract ideas conveyed in language etc these studies range from the hidden spheres of reality to the play of the visible and the invisible left as traces in works of human genius the origins of intellect and language the real and the imaginary in literature and the hidden realities in the philosophy of the everyday world These literary and philosophical probings collectively reveal the role of this disjoined conjoined pairing in the ontopoietic establishment of reality that is in the manifestation of the logos of life In tandem they bring to light the hidden play of the visible and the invisible in the emergence of our vital societal intimate intellectual and creative involvements

Greenberg, Lance Schachterle, 1992 Major authors investigated include Chaucer Blake Romaine Pynchon and Prigogine     Medieval Jewish Philosophy and Its Literary Forms Aaron W. Hughes, James T. Robinson, 2019-07-11 This well written accessible essay collection demonstrates a maturation in Jewish studies and medieval philosophy Choice Too often the study of philosophical texts is carried out in ways that do not pay significant attention to how the ideas contained within them are presented articulated and developed This was not always the case The contributors to this collected work consider Jewish philosophy in the medieval period when new genres and forms of written expression were flourishing in the wake of renewed interest in ancient philosophy Many medieval Jewish philosophers were highly accomplished poets for example and made conscious efforts to write in a poetic style This volume turns attention to the connections that medieval Jewish thinkers made between the literary the exegetical the philosophical and the mystical to shed light on the creativity and diversity of medieval thought As they broaden the scope of what counts as medieval Jewish philosophy the essays collected here consider questions about how an argument is formed how text is put into the service of philosophy and the social and intellectual environment in which philosophical texts were produced     **The Literary Wittgenstein** John Gibson, Wolfgang Huemer, 2004 A stellar collection of articles relating the philosophy of Ludwig Wittgenstein 1889 1951 to core problems in the theory and philosophy of literature written by the most prominent figures in the field     Acts of Literature Jacques Derrida, 2017-09-25 First

published in 1992 *Acts of Literature* compiled in close association with Derrida brings together for the first time a number of Derrida's writings on literary texts on the question of literature. The essays discuss literary figures such as Rousseau, Mallarmé, Joyce, Shakespeare and Kafka. Comprising pieces spanning Derrida's career, the collection includes a substantial new interview with him on questions of literature, deconstruction, politics, feminism and history. Derek Attridge provides an introductory essay on deconstruction and the question of literature and offers suggestions for further reading. These essays examine the place and function of literature in Western culture. They highlight Derrida's interest in literature as a significant cultural institution and as a peculiarly challenging form of writing with inescapable consequences for our thinking about philosophy, politics and ethics. This book should be of interest to undergraduates and academics in the field of literary theory and criticism and continental philosophy.
