**Ways to the West** Tim Sullivan, 2015-08-09 In Ways to the West Tim Sullivan embarks on a car less road trip through the Intermountain West exploring how the region is taking on what may be its greatest challenge sustainable transportation Combining personal travel narrative historical research and his professional expertise in urban planning Sullivan takes a critical yet optimistic and often humorous look at how contemporary Western cities are making themselves more hospitable

to a life less centered on the personal vehicle The modern West was built by the automobile but so much driving has jeopardized the West's mystic hold on the American future At first automobility heightened the things that made the West great but love became dependence and dependence became addiction Via his travels by bicycle bus and train through Las Vegas Phoenix Denver Boise Salt Lake City and Portland Sullivan captures the modern transportation evolution taking place across the region and the resulting ways in which contemporary Western communities are reinterpreting classic American values like mobility opportunity adventure and freedom Finding a West created lost and reclaimed Ways to the West will be of great interest to anyone curious about sustainable transportation and the history geography and culture of the American West

Yuan Nancy Shatzman Steinhardt, 2023-12-12 A monumental illustrated survey of the architecture of thirteenth and fourteenth century China The Yuan dynasty endured for a century leaving behind an architectural legacy without equal from palaces temples and pagodas to pavilions tombs and stages With a history enlivened by the likes of Khubilai Khan and Marco Polo this spectacular empire spanned the breadth of China and far far beyond but its rulers were Mongols Yuan presents the first comprehensive study in English of the architecture of China under Mongol rule In this richly illustrated book Nancy Shatzman Steinhardt looks at cities such as the legendary Shangdu inspiration for Samuel Taylor Coleridge's Xanadu as well as the architecture the Mongols encountered on their routes of conquest She examines the buildings and monuments of diverse faiths in China during the period from Buddhist and Daoist to Confucian Islamic and Christian as well as unusual structures such as observatories archways stone and metal buildings and sarcophaguses Steinhardt dispels long standing views of the Mongols as destroyers of cities and architecture across Asia showing how the khans and their families built more than they tore down She demonstrates that the stipulations of the Chinese building system were powerful and resilient enough to guide the architecture that rose under Mongolian rule Drawing on Steinhardt's groundbreaking textual research in numerous languages as well as her pioneering fieldwork at sites across East Asia Yuan will become the standard reference on this critical period of cultural and artistic exchange

Native Students at Work Kevin Whalen, 2016-06-01 Native Students at Work tells the stories of Native people from around the American Southwest who participated in labor programs at Sherman Institute a federal Indian boarding school in Riverside California The school placed young Native men and women in and around Los Angeles as domestic workers farmhands and factory laborers For the first time historian Kevin Whalen reveals the challenges these students faced as they left their homes for boarding schools and then endured an outing program that aimed to strip them of their identities and cultures by sending them to live and work among non Native people Tracing their journeys Whalen shows how male students faced low pay and grueling conditions on industrial farms near the edge of the city yet still made more money than they could near their reservations Similarly many young women serving as domestic workers in Los Angeles made the best of their situations by tapping into the city's Indigenous social networks and even enrolling in its public schools As Whalen reveals despite cruel working conditions Native people used the outing

program to their advantage whenever they could forming urban indigenous communities and sharing money and knowledge gained in the city with those back home A mostly overlooked chapter in Native American and labor histories Native Students at Work deepens our understanding of the boarding school experience and sheds further light on Native American participation in the workforce Expanding the View of Hohokam Platform Mounds Mark D. Elson, 2016-12-15 For more than a hundred years archaeologists have investigated the function of earthen platform mounds in the American Southwest Built by the Hohokam groups between A D 1150 and 1350 these mounds are among the few monumental structures in the Southwest yet their use and the nature of the groups who built them remain unresolved Mark Elson now takes a fresh look at these monuments and sheds new light on their significance He goes beyond previous studies by examining platform mound function and social group organization through a cross cultural study of historic mound using groups in the Pacific Ocean region South America and the southeastern United States Using this information he develops a number of important new generalizations about how people used mounds Elson then applies these data to the study of a prehistoric settlement system in the eastern Tonto Basin of Arizona that contained five platform mounds He argues that the mounds were used variously as residences and ceremonial facilities by competing descent groups and were an indication of hereditary leadership They were important in group integration and resource management after abandonment they served as ancestral shrines Elson s study provides a fresh approach to an old puzzle and offers new suggestions regarding variability among Hohokam populations Its innovative use of comparative data and analyses enriches our understanding of both Hohokam culture and other ancient societies **Morning Glories** Amy Bridges, 1999-08-15 George Washington Plunkitt once dismissed municipal reformers as morning glories who looked good early on but soon faded Political scientist Amy Bridges shows how that description fit the Northeast when Tammany Hall ruled New York City but not the Southwest Here Bridges traces reform politics and government in large Southwestern cities since 1901 *Coast Banker*, 1913 **American Oasis** Kyle Paoletta, 2025-01-14 An expansive and revelatory historical exploration of the multicultural water seeking land destroying settlers of the most arid corner of North America arguing that in order to know where the United States is going in the era of mass migration and climate crisis we must understand where the Southwest has already been Albuquerque Phoenix Tucson El Paso Las Vegas Iconic American cities surrounded by desert and rust Teeming metropolises that seem to exist independently of the seemingly inhospitable and arid landscape that surrounds them belying the rich insight they offer into American stories of migration industry bloodshed and rebirth Charting a geographic path through America s largest and hottest deserts acclaimed journalist Kyle Paoletta maps the past and future of these cities and the many other settlements from rural town to urban sprawl that make up the region that has come to be called the American Southwest Weaving together the stories of immigrants and indigenous populations American Oasis pulls back the layers of settlement sediment habit and effect that successive empires have left on the region from the Athapascan Din Tewa Apache and Comanche to the Spanish Mexican and

finally American As Paoletta's journey into the Southwest's history becomes inextricably linked to an exploration of its dependency on water he begins to ask where ultimately will cities like Las Vegas and Phoenix find themselves once the Colorado River and its branches dry up Richly reported and sweeping in its history American Oasis is the story of what one iconic region's past can tell us about our shared environmental and cultural future **Mexico and the United States** Lee Stacy,2002-10 Examines the history and culture of Mexico and its relations with its neighbors to the north and east from the Spanish Conquest to the current presidency of Vicente Fox Studio Ghibli Animation as Adaptations Dominic J. Nardi,Keli Fancher,2025-05-15 This collection investigates how Hayao Miyazaki Isao Takahata and other Studio Ghibli storytellers have approached the process of reimagining literary sources for animation Studio Ghibli is renowned for its original storytelling in films like My Neighbor Totoro but many of its most famous films including Howl's Moving Castle and Ponyo have their origins in pre-existing novels manga or fairy tales Studio Ghibli's adaptations seldom directly translate source material to animation but instead transform the works to incorporate themes or imagery central to the studio's sensibilities Studio Ghibli Animation as Adaptations explores how these adaptations often blur genre boundaries and raise questions about what constitutes fidelity to source material The collection also shows how the studio reinterprets and recontextualizes stories across cultures for Japanese audiences and across mediums like manga **The Human Tradition in the American West** Benson Tong,Regan A. Lutz,2001-08-01 The Human Tradition in the American West is an engrossing collection of 13 biographies of men and women whose contributions to the development of the American West have largely been left untold in the history books This volume goes beyond the traditional biographical reader by including the lives that collectively offer racial and gender diversity as well as differing class and sexual orientation backgrounds Editors Benson Tong and Regan A. Lutz have assembled an impressive group of scholars whose succinct and well-written accounts will give students a more complete understanding of this diverse dynamic region of the United States This book is an excellent resource for courses on the American West U.S. history survey courses and courses in American social and cultural history **Design with the Desert** Richard Malloy,John Brock,Anthony Floyd,Margaret Livingston,Robert H. Webb,2016-04-19 Typical development in the American Southwest often resulted in scraping the desert lands of the ancient living landscape to be replaced with one that is human-made and dependent on a large consumption of energy and natural resources This transdisciplinary book explores the natural and built environment of this desert region and introduces development tools for shaping its future in a more sustainable way It offers valuable insights to help promote ecological balance between nature and the built environment in the American Southwest and in other ecologically fragile regions around the world **Companion to Literary Myths, Heroes and Archetypes** Pierre Brunel,2015-07-30 First published in French in 1988 and in English in 1992 this companion explores the nature of the literary myth in a collection of over 100 essays from Abraham to Zoroaster Its coverage is international and draws on legends from prehistory to the modern age throughout literature whether fiction
