Teaching reading is a vital part of a career in the classroom and engaging with the range of different learning styles children have is a real challenge. Trainee teachers need to learn how to address this variety of learning needs and also meet the wider demands of the curriculum. Margaret Perkins helps students meet these challenges to become a confident, reflective teacher of reading by providing an in-depth explanation of phonics teaching alongside other teaching approaches, empowering trainees to choose the right approach for each individual child. Key research findings so students can apply the latest thinking to their teaching practice. School-based activities and independent learning tasks to help apply theory to practice and develop teaching skills through self-reflection.
