The Late Victorian Gothic Hilary Grimes, 2016-03-03 Examining the automatic writing of the spiritualist s ances discursive technologies like the telegraph and the photograph various genres and late nineteenth century mental science this book shows the failure of writers attempts to use technology as a way of translating the supernatural at the fin de si cle Hilary Grimes shows that both new technology and explorations into the ghostly aspects of the mind made agency problematic When notions of agency are suspended Grimes argues authorship itself becomes uncanny Grimes s study is distinct in both recognizing and crossing strict boundaries to suggest that Gothic literature itself resists categorization not only between literary periods but also between genres Treating a wide range of authors Henry James Rudyard Kipling Arthur Conan Doyle George Du Maurier Vernon Lee Mary Louisa Molesworth Sarah Grand and George Paston Grimes shows how fin de si cle works negotiate themes associated with the Victorian and Modernist periods such as psychical research mass marketing and new technologies With particular attention to texts that are not placed within the Gothic genre but which nevertheless conceal Gothic themes The Late Victorian Gothic demonstrates that the end of the nineteenth century produced a Gothicism specific to the period

Victoria's Madmen C. Bloom, 2016-01-13 Victoria s Madmen is the story of those who were outcasts by temperament and choice the non conformists of the Victorian Age Clive Bloom s readable account of the dark underbelly of Victoria s Britain captures the

unrest bubbling under the surface of strait laced Victorian society Conjuring the Spirit World George H. Schwartz, Tedi Asher, Christopher Jones, Lan Morgan, Tony Oursler, Jennifer Lemmer Posey, Mark Schwartz, 2024-09-03 Posters, photography and objects from the height of Spiritualism and the history of magic gain renewed power when seen through today's lens. The human desire to connect with the dead since the mid 19th century gave rise to a fascination with the supernatural and the magical. Mediums and magicians from Harry Houdini, Margery the Medium, Howard Thurston and the Fox Sisters offered communication with the departed at séances and magic shows, two interrelated forms of popular culture that relied heavily on illusions and stagecraft. This is the first illustrated volume to gather the art and objects that made medium and magician performances iconic during the Spiritualism movement and beyond, a time when people actively debated and wondered if spirits return. An international selection of paintings, photographs, posters, stage apparatuses, film, publications and other objects reveal how audiences were entranced and mystified by these experiential performances, captivating willing believers and garnering skeptics as they navigated the intersecting realms of science and spirituality. From the origins of the iconic Ouija board to spirit photography, this book is a treasure trove.

Photography and Other Media in the Nineteenth Century Nicoletta Leonardi, Simone Natale, 2018-11-08 In this volume, leading scholars of photography and media examine photography's vital role in the evolution of media and communication in the nineteenth century. In the first half of the nineteenth century, the introduction of telegraphy, the development of a cheaper and more reliable postal service, the rise of the mass circulation press and the emergence of the railway dramatically changed the way people communicated and experienced time and space. Concurrently, photography developed as a medium that changed how

images were produced and circulated Yet for the most part photography of the era is studied outside the field of media history The contributors to this volume challenge those established disciplinary boundaries as they programmatically explore the intersections of photography and new media during a period of fast paced change Their essays look at the emergence and early history of photography in the context of broader changes in the history of communications the role of the nascent photographic press in photography s infancy and the development of photographic techniques as part of a broader media culture that included the mass consumed novel sound recording and cinema Featuring essays by noteworthy historians in photography and media history this discipline shifting examination of the communication revolution of the nineteenth century is an essential addition to the field of media studies In addition to the editors contributors to this volume are Geoffrey Batchen Geoffrey Belknap Lynn Berger Jan von Brevern Anthony Enns Andr Gaudreault Lisa Gitelman David Henkin Erkki Huhtamo Philippe Marion Peppino Ortoleva Steffen Siegel Richard Taws and Kim Timby

Photography's Materialities Geoff Bender, Rasmus R. Simonsen, 2021-05-17 There is little dispute that photography is a material practice and that the photograph itself is ineluctably material And yet matter material and materiality have proven to be remarkably elusive terms of inquiry frequently producing studies that are disparate in scope sharing seemingly little common ground Although the wide methodological range of materialist study can be dizzying it is this book's contention that that multiplicity is also the field's greatest asset keeping materialist inquiry enduringly vibrant provided that varying methods are in close enough proximity to converse Photography's Materialities orchestrates one such conversation Juxtaposing the insights of theorists like Lacan Benjamin and Latour beside close studies of crime spirit and composite photography among others this collection aims for a productive synergy one capacious enough to span transatlantic spaces over the long nineteenth century Contributors Kris Belden Adams University of Mississippi Maura Coughlin Bryant University David LaRocca independent scholar Jacob W Lewis University of Rochester Mary Marchand Goucher College Zachary Tavlin Art Institute of Chicago Christa Holm Vogelius University of Copenhagen

American Journal of Photography, 1892 [Trance Mediums and New Media](#) Anja Dreschke, Martin Zillinger, 2014-12-01 Ongoing debates about the return of religion have paid little attention to the orgiastic and enthusiastic qualities of religiosity despite a significant increase in the use of techniques of trance and possession around the globe Likewise research on religion and media has neglected the fact that historically the rise of mediumship and spirit possession was closely linked to the development of new media of communication This innovative volume brings together a wide range of ethnographic studies on local spiritual and media practices Recognizing that processes of globalization are shaped by mass mediation the volume raises questions such as How are media like photography cinema video the telephone or television integrated in seances and healing rituals How do spirit mediums connect with these media Why are certain technical media shunned in these contexts

Photo-Era Magazine, the American Journal of Photography Juan C. Abel, Thomas Harrison Cummings, Wilfred A. French, A. H. Beardsley, 1920 *Photographing the Invisible* James Coates, 1911 In this 100 year old book the mechanics of spirit photography are explained by apparent spirits communicating through

mediums It has to do with ether and semi materialization apparently However the presence of a medium before the taking of the photograph is essential reportedly In addition the medium should be morally and physically healthy and able to maintain a passive mental state Anxiety is reportedly a great hindrance That way the subconscious thought forms are liberated There s a photo of Alfred Russel Wallace and his deceased mother Wallace states The facts were too many for me Photos of people s doubles were apparently also possible such as the photo taken of medium Stainton Moses and his double Mr Coates includes a photo of himself and his dead wife Thought photography is discussed towards the end of the book which apparently dates from 1876 Images of objects enter and fix themselves in our brains through the retina and then they can leave our brains by the same route reportedly Coates includes a letter from a correspondent who reportedly received evidence that there is a large band of workers in the spirit world who are helping to convince the Western World that there are things and beings which cannot be cognised by ordinary sense faculty A good book to generate conversation about
