Wildlife photography is an adventure, and as any great adventure story unfolds, odds are there are bound to be some great risks involved. Whether it's the risk or the reward or both that motivates wildlife shooters, there is one pervasive truth: Preparation is key to success and survival. In this book, Joe Classen approaches the art of wildlife photography from a hunter's perspective. He teaches readers how to select and use the appropriate specialized photographic gear required for the rigors of wildlife photography as you'd expect. However, he also teaches you how to mentally and physically prepare for an outing in which your wits must be as keen as your eye. Classen provides detailed insights into planning and packing for a wilderness adventure. Readers will learn how to securely pack their delicate photographic gear for a rugged outdoor environment but will also learn how to choose and tote the best clothing for the site, accessories to ensure your personal safety, and even basic cooking and drinking requirements for days spent shooting in remote areas. Once you've scouted your location, you'll learn how to track and lure your photographic subject using time-honored practices: calls from lust to hunger to anger, and sloth, decoys, attractor scents.
