on your own. Instead, it does something that virtually no other Elements book has ever done: it tells you flat out which settings to use when to use them and why. If you're looking for one of those "tell me everything about the Unsharp Mask filter" books, this isn't it. You can grab any other Elements book on the shelf because they all do that. Instead, this book gives you the inside tips and tricks of the trade for organizing, correcting, editing, sharpening, retouching, and printing your photos like a pro. You'll be absolutely amazed at how easy and effective these techniques are once you know the secrets. **LEARN HOW THE PROS DO IT.** Each year we train thousands of digital photographers, and almost without exception, they have the same questions and face the same problems that's exactly what we cover in this book. You'll learn the real secrets of how the pros retouch portraits. How to unlock the power of layers. You'll be amazed at how easy it is. How to use Camera Raw for processing not only RAW photos but JPEGs, TIFFs, and PSDs too. And you'll learn why so many pros like it best because it's faster and easier. The sharpening techniques the pros really use. There's an entire chapter just on this: How to deal with common digital camera image problems, including brightening people in dark shadows and getting the best color possible. The most requested photographic special effects and much more. **THE BOOK'S SECRET WEAPON.** Although Elements 13 offers some digital photography features that Photoshop CC doesn't offer, there are plenty of features that Photoshop CC has that Elements 13 still doesn't have, things like channels, HDR, etc. But in this book, you'll learn some slick workarounds, cheats, and some fairly ingenious ways to replicate many of those Photoshop features from right within Elements. Plus, you can follow along with all the images used in the book, available for download on the book's companion webpage. Since this book is designed for photographers, it doesn't waste your time talking about what a pixel is, how to frame a shot, set your exposure, etc., and there's no talk about which camera or printer to buy. It's all Elements, step by step, cover to cover, in the only book of its kind, and you're gonna love it.

The Digital Photography Book, Part 3 Scott Kelby, 2009-07-21 Scott Kelby author of The Digital Photography Book volume 1 the world s best selling digital photography book of all time is back with a follow up to his volume 2 smash best seller with an entirely new book that picks up right where he left off It s even more of that Ah ha so that s how they do it straight to the point skip the techno jargon stuff you can really use today to make your shots even better This book truly has a brilliant premise and here s how Scott describes it If you and I were out on a shoot and you asked me Hey Scott I want the light for this portrait to look really soft and flattering How far back should I put this softbox I wouldn t give you a lecture about lighting ratios or flash modifiers In real life I d just turn to you and say Move it in as close to your subject as you possibly can without it actually showing up in the shot Well that s what this book is all about you and I out shooting where I answer questions give you advice and share the secrets I ve learned just like I would with a friend without all the technical explanations and techie photo speak Each page covers a single concept on how to make your photography better Every time you turn the page you ll learn another pro setting tool or trick to transform your work from snapshots into gallery prints If you re tired of taking shots that look okay and if you re tired of looking in photography magazines and thinking Why don t my shots look like that then this is the book for you This isn t a book of theory full of confusing jargon and detailed concepts This is a book on which button to push which setting to use and when to use it With nearly 200 more of the most closely guarded photographic tricks of the trade this book gets you shooting dramatically better looking sharper more colorful more professional looking photos every time

Light It, Shoot It, Retouch It Scott Kelby, 2011-09-02 FOR THE FIRST TIME EVER YOU LL LEARN ALL THREE ASPECTS OF WHAT IT TAKES TO CREATE STUNNING PORTRAITS HINT IT

IS NOT JUST THE LIGHTING Scott Kelby the world's #1 best selling author of photography books Editor in Chief and Publisher of Photoshop User magazine and Publisher of the just released Light It magazine has reinvented how lighting books are written by finally revealing the entire process from start to finish You see everything from the complete lighting setup and all the gear used to the shoot including all the camera settings and a contact sheet of the progression of the shoot to the all important part that most books don't dare include the post processing and retouching in Photoshop This book also breaks new ground in the visual way it teaches you the lighting setup There aren't any sketches or 3D models you see the lighting layout in a full page photo taken from above during the live shoot so you can see exactly where everything's positioned the subject the photographer the lighting the background you name it you see it all Plus you'll see side over the shoulder and more behind the scenes views so you can absolutely nail the lighting every time **LEARN THE LIGHTING SETUPS THE PROS USE** Each year Scott trains thousands of professional photographers during his Light It Shoot It Retouch It LIVE seminar tour and now for the first time ever he's taken that incredibly popular style of learning and put it into book form Now everyone can have a real world reference for getting the same looks today's clients are clamoring for You'll learn The step by step layouts for creating the most requested and sought after lighting looks How to get more out of one light than you ever thought you could this is worth it alone How to control and shape your light without breaking the bank The camera settings gear and power settings for every shot The retouching techniques the pros really use to make their subjects look their very best How to retouch hair eyes lips skin and lots of other little retouching tricks that make a really big difference How to create high contrast portrait effects without buying expensive plug ins A host of insider tricks invaluable shortcuts and kick butt special effects to give you a real advantage over the competition Plus Scott includes a special bonus chapter that shows how to create these same studio looks using off camera hot shoe flashes and the modifiers made for them There's never been a book like it *Scott Kelby's Lightroom 7-Point System* Scott Kelby, 2021-07-06 Learn Scott Kelby's 7 Point System for developing photos to perfection in Adobe Lightroom Imagine how awesome it would be if you opened up an image in Lightroom even a really messed up one and you knew exactly what to do first what to do next and every step along the way to take that image from flat to fabulous Well that is precisely what this book is all about You're learning a system the same one taught in colleges and universities around the world that was crafted by world renowned Lightroom expert Scott Kelby the world's #1 best selling Lightroom book author This is a new way of working and thinking about editing your images that will change the way you work in Lightroom forever so you'll spend less time fixing your photos and more time finishing them and doing the fun creative things that make Lightroom the amazing tool that it is Scott narrowed things down to just the seven major editing moves we need to master to enhance our images like a pro so we're not learning Lightroom tools we're probably never going to need Then and perhaps most importantly he determined exactly when and in which order to apply these seven techniques that make up this proven time tested Lightroom 7 Point System But the magic of this book isn't just

listing the seven techniques and how they work It's how they're used together and it's the learning process you go through that makes this book so unique This isn't a read about it book This is a hands on you do it book You start each lesson with the RAW photo right out of the camera you can download Scott's images so you can follow right along Then you're going to apply the 7 Point System in a very specific way and you're going to do it over and over again and again and again on a range of various photos with different challenges and situations until these seven points are absolutely second nature to you You're going to do the full edit each time from beginning to end with nothing left out Once you learn this system there won't be an image on your screen that you won't be able to enhance fix edit and finish like a pro As you move through the book you'll be amazed at how well this system works across such a wide range of photos from landscapes to portraits from architectural to sports photography from wedding photos to everything in between The book is 21 short lessons including two bonus lessons where you work with Lightroom and Photoshop together and if you spend just 10 minutes a day doing that day's lesson in three weeks there won't be a photo you won't be able to beat You'll know what to do first what to do next and in exactly which order to take a dull lifeless image and make it one you'd proudly hang on your wall Best of all you'll learn more than just the 7 Point System along the way as you'll have to tackle whatever each image throws at you so you're going to discover extra techniques shortcuts and workarounds that will help you in every aspect of your editing This is the book you've been waiting for the industry has been waiting for and once you learn this system and start applying it yourself you'll be the next one to say You can't beat the system
