Phyle Of A Scorpion Puerto Rican Heat To be honest I never would have thought the original Phyle Of A Scorpion would have a second part It wasn't easy to put together It took just as much time to come together as it did to think of what it should be about After the original POAS was written I thought that was it There would be no second book because I couldn't think of anything at the time I had said all I wanted to say Three months after the release of the original POAS I began to take notes for short stories I wanted to put together whenever I had some time Over a small amount of time I had written three short stories There was one left that I was working on when a friend of mine got with me and we started talking about taking a trip to Cancun I liked the idea and it was perfect for all the ideas I needed for my next book It was going to be about a trip to Cancun and I wasn't going to write about it until I came back from there Unfortunately my friend and I couldn't make the trip We had the money but he was going to be moving to another state The ideas for Cancun were going to be talked about in a special chapter for the book called Return To The Original Phyle That section was going to be dedicated to the original POAS I had to do something to keep it real POAS is what got me started so there was no way I was going to turn away from it It's just that I had something different in mind after another three months One night I found myself chatting on the internet with one of my friends from Florida She asked me what I missed about Florida because it has been forever since I've been there There was a cruise that I went on and I loved it All I could think about was how it would mean the world if I could share that with someone That night I had ideas coming in like bills on the first of the month I decided to take notes for what would be my next book My friend was going to be a character in the story along with me We were going to take a cruise but the plot was for us not to know each other We would meet and it would go on from there So where would the ship be going to Not Cancun I decided to save the best for last The ship would be on its way to Puerto Rico The story wouldn't be the same if my friend wasn't in it that I was supposed to go to Cancun with so he became a character in the story I needed more characters now Instead of creating personalities for several different people I decided to do something else I took six of my closest friends and made them all characters in my story For one reason my friend was leaving the state soon And for another reason I've already had three others move away This is just my way of saying that I haven't forgotten about them and we'll always be hanging out together in the book As for a story line all I had was the cruise and the island That was a start I needed a way to have my friends stand out The original POAS came from actual events that happened to me in the past During that time me and my friends have had a lot of great days when we were hanging out Also there was much to talk and laugh about All the notes began crashing into my mind I just knew that the new book was going to be better than the first The final notes for the book were written after I had met Kennedy We became very close over a small matter of time I'm sure at one point in everyone's life you eventually stop and think about your happiness Who will you spend it with That's what Kennedy and I thought about so I talked about it

throughout the book So many times people date around until they find something worth hanging on to That s what was happening to me in this story It all started with me listening to the radio and winning some tickets to go to Puerto Rico Since I won who better to take with me than six of my closest **Phyle of a Scorpion** Shawn Orgain,2016-08-02 There is nobody better than you What would this world be like without you Imagine if there were two of you Life couldn t get any better than that or could it Imagine if there were four of you Everyone you know wouldn t know how to handle it Now imagine if there were eight of you including yourself but you had no idea they even existed It all began when Shawnyboy Watkins made a wish that he had a twin not knowing what he was about to get himself into Clones of himself began showing up in his life one by one each having their own impact The damages alone could be Shawnyboy s undoing Everything he has earned and built could be lost in a matter of days Could it be stopped in time What will happen if it can t be stopped at all Better yet why are there so many clones Phyle of a Scorpion is back presenting you with title number four Legendary Scorpio Find out how the series started from the very beginning in this all new storyline making it one of the best comedy adventures ever Are you ready for more originality More laughs Twisted plots Unforgettable poetry and dialogue The look in your eye says you are more than ready The Eye and Man in Ancient Egypt Richey L.
