Travel Magazine, 1915 Love of Quilts Cuesta Benberry, Carol Pinney Crabb, 2004-03-11 There are more than 20 million quilters in the United States and 78 percent of dedicated quilters read for pleasure. To reach this vast group we've expanded our line of quilting books by bringing back *A Patchwork of Pieces* previously published in 1993. *Love of Quilts* features twenty-eight entertaining short stories about quilts and quilters collected from the pages of classic magazines such as *Godey's Lady's Book*, *Harper's Bazaar*, and *Good Housekeeping*, introducing readers to the captivating worlds of quilters in other times and places. From courtships that nearly go astray to husbands and wives brought together by quilts to quilters obsessed with securing scraps, *Love of Quilts* has something for every quilter. Fascinating fiction, these stories also provide important social history. This book also includes a bibliography of quilt fiction and a time line that lists American quilt fiction, plays, poems, and patterns published from 1845 to 1940.

Play and Creativity in Art Teaching George Szekely, 2015-03-02 In *Play and Creativity in Art Teaching*, esteemed art educator George Szekely draws on his two classic volumes, *Encouraging Creativity in Art Lessons* and *From Play to Art*, to create a new book for new times. The central premise is that art teachers are not only a source of knowledge about art but also a catalyst for creating conditions that encourage students to use their own ideas for making art. By observing children at play and using props and situations familiar to them, teachers can build on children's energy and self-initiated discoveries to inspire school art that comes from the child's imagination. The foundation of this teaching approach is the belief that the essential goal of art teaching is to inspire children to behave like artists that art comes from within themselves and not from the art teacher. *Play and Creativity in Art Teaching* offers plans for the study of children's play and for discovering creative art teaching as a way to bring play into the art room. While it does not offer a teaching formula or a single set of techniques to be followed, it demystifies art and shows how teachers can help children find art in familiar and ordinary places accessible to everyone. This book also speaks to parents and the important roles they can play in supporting school art programs and nourishing the creativity of their children.
