Pliny's Natural History. In Thirty-seven Books Pliny (the Elder.),1848 **Three Books of Occult Philosophy**

Heinrich Cornelius Agrippa,2021-11-23 Three hardcover volumes in slipcase Corrects the many mistranslations copyist mistakes and errors introduced from other editions drawing on new research and access to Agrippa's source texts Restores all of Agrippa's original illustrations Presents a nearly complete bibliography of Agrippa's primary sources One of the most important texts in the Western magical tradition for nearly 500 years Heinrich Cornelius Agrippa's 1533 work Three Books of Occult Philosophy collates a multitude of sources from the Classical Medieval and Renaissance periods and organizes them into a coherent explanation of the magical world Divided into three parts the natural world the celestial world and the divine world the book systematically explains the philosophy logic and methods of magic and astrology and how they work The basis for 19th century magical orders such as the Golden Dawn and a primary source for countless books on magical uses of stones herbs incense and astrology Agrippa's many lists and diagrams have proven invaluable to magicians since the 16th century Yet until now all English editions of Agrippa's Three Books were based on the same flawed 1651 translation from the mysterious J F In this new translation from the original 1533 Latin edition Eric Purdue corrects the many mistranslations copyist mistakes and errors introduced from other editions as well as restores all of Agrippa's original illustrations Purdue notates every correction and offers commentary drawing on major developments in the research of older magical and astrological texts He also presents a nearly complete bibliography of Agrippa's primary sources revealing Agrippa as a mainstream scholar of his day Presenting the first new English translation of Three Books of Occult Philosophy in more than 350 years this three volume hardcover boxed set repairs the gaps in knowledge pervasive in the original translation and restores the magical spirit of Agrippa's masterpiece allowing us to hear Agrippa speak again **The Greek Myths** Robert Graves,2012-04-24 Robert Graves classicist poet and unorthodox critic retells the Greek legends of gods and heroes for a modern audience And in the two volumes of The Greek Myths he demonstrates with a dazzling display of relevant knowledge that Greek Mythology is no more mysterious in content than are modern election cartoons His work covers in nearly two hundred sections the creation myths the legends of the births and lives of the great Olympians the Theseus Oedipus and Heracles cycles the Argonaut voyage the tale of Troy and much more All the scattered elements of each myth have been assembled into a harmonious narrative and many variants are recorded which may help to determine its ritual or historical meaning Full references to the classical sources and copious indexes make the book as valuable to the scholar as to the general reader and a full commentary on each myth explains and interprets the classical version in the light of today's archaeological and anthropological knowledge **"The" Natural History of Pliny** Gaius Plinius Secundus,1855

Discovering Second Temple Literature Malka Zeiger Simkovich,2018-11-01 For those unfamiliar with the many

divisions within Judaism at that time or with Jewish life in other parts of the Roman Empire this book offers an excellent introduction to a little studied time period Readers of Jewish history will definitely want to add this work to their shelves Rabbi Rachel Esserman Reporter Exploring the world of the Second Temple period 539 BCE 70 CE in particular the vastly diverse stories commentaries and other documents written by Jews during the last three centuries of this period Malka Z Simkovich takes us to Jerusalem Alexandria and Antioch to the Jewish sectarians and the Roman Jewish historian Josephus to the Cairo genizah and to the ancient caves that kept the secrets of the Dead Sea Scrolls As she recounts Jewish history during this vibrant formative era Simkovich analyzes some of the period s most important works for both familiar and possible meanings This volume interweaves past and present in four parts Part 1 tells modern stories of discovery of Second Temple literature Part 2 describes the Jewish communities that flourished both in the land of Israel and in the Diaspora Part 3 explores the lives worldviews and significant writings of Second Temple authors Part 4 examines how authors of the time introduced novel rewritten and expanded versions of Bible stories in hopes of imparting messages to the people Simkovich s popular style will engage readers in understanding the sometimes surprisingly creative ways Jews at this time chose to practice their religion and interpret its scriptures in light of a cultural setting so unlike that of their Israelite forefathers Like many modern Jews today they made an ancient religion meaningful in an ever changing world **Alexander Histories and**

Iranian Reflections Parivash Jamzadeh,2012-08-17 Parivash Jamzadeh demonstrates how the propaganda material used during Alexander the Great s military campaign to conquer the Achaemenid empire shows multiple layers of Iranian influences She also shows that the studied sources do not always offer an accurate account of the contemporary Iranian customs and occasionally included historical inaccuracies **Alphabetic Catalogue of the English Books in the**

Fisher,2022-08-04 Fascinating revelations Max Hastings Sunday Times An immensely valuable guide to a great and terrible industry The Economist The book I have long been waiting for Essential reading Michael Klare Petroleum has always been used by humans as an adhesive by Neanderthals as a waterproofing agent in Noah s Ark and as a weapon during the Crusades Its eventual extraction from the earth in vast quantities transformed light heat and power A Pipeline Runs Through It is a fresh in depth look at the social economic and geopolitical forces involved in our transition to the modern oil age It tells an extraordinary origin story from the pre industrial history of petroleum through to large scale production in the mid nineteenth century and the development of a dominant fully fledged oil industry by the early twentieth century This was always a story of imperialist violence economic exploitation and environmental destruction The near total eradication of the Native Americans of New York Pennsylvania and Ohio has barely been mentioned as a precondition for the emergence of the first oil region in the United States The growth of Royal Dutch Shell involved the genocidal subjugation of people of the

Dutch East Indies and the exploitation of oil in the Middle East arose seamlessly out of Britain's prior political and military interventions in the region. Finally in an entirely new analysis the book shows how the British navy's increasingly desperate dependence on vulnerable foreign sources of oil may have been a catalytic ingredient in the outbreak of the First World War. The rise of oil has shaped the modern world and this is the book to understand it. **The Oxford encyclopedia of ancient Greece and Rome. - Vol. 1 - 7** Michael Gagarin, 2010 **Crossing the Rubicon** Luca Fezzi, 2020-01-07 A dramatic account of the fateful year leading to the ultimate crisis of the Roman Republic and the rise of Caesar's autocracy. When the Senate ordered Julius Caesar conqueror of Gaul to disband his troops he instead marched his soldiers across the Rubicon River in violation of Roman law. The Senate turned to its proconsul Pompey the Great for help. But Pompey's response was unexpected: he commanded magistrates and senators to abandon Rome, a city that until then had always been defended. The consequences were the ultimate crisis of the Roman Republic and the rise of Caesar's autocracy. In this new history Luca Fezzi argues that Pompey's actions sealed the Republic's fate. Drawing on a wide range of primary sources including Cicero's extensive letters, Fezzi shows how Pompey's decision shocked the Roman people, severely weakened the city, and set in motion a chain of events that allowed Caesar to take power. Seamlessly translated by Richard Dixon, this book casts fresh light on the dramatic events of this crucial moment in ancient Roman history. Three Ancient Geographical Treatises in Translation Duane W. Roller, 2021-11-09 This volume is a translation and commentary on the works of three geographers from Greco-Roman antiquity: Hanno of Carthage from around 500 BC, the author of the *Periodos*; Dedicated to King Nikomedes from the last half of the second century BC; and Avienus from the fourth century AD. The modern translations of texts in this book represent 1,000 years of Greco-Roman geographical scholarship and thus provide an overview of the discipline from its beginnings to late antiquity. Readers will learn about the development of Greek geography and the earliest adventures outside the Mediterranean into the Atlantic as far south as the tropics and north toward the Arctic. These explorations make for fascinating stories about early human endeavors into an unknown world. Three Ancient Geographical Treatises in Translation offers specialists new information about Greek exploration and a modern translation of significant ancient texts, while non-specialist scholars and undergraduate students with an interest in Greco-Roman literature and ancient geography will also find the volume useful and accessible. **Tertullian** Geoffrey D. Dunn, 2004-06-25 This book is the first accessible introduction in English to Tertullian's works, providing translations of *Adversus Iudaeos* (Against the Jews), *Scorpiae Antidote* for the Scorpion's Sting, and *De Verginibus Velandis* (On the Veiling of Virgins). Tertullian (c. AD 160–225) was one of the first theologians of the Western Church and ranks among the most prominent of the early Latin fathers. His literary output is wide-ranging and provides an invaluable insight into the Christian Church in the crucial period when the Roman Empire was in decline. These crucial works, studied together with Geoffrey D. Dunn's comprehensive commentary, illuminate the early church's reaction to paganism, Judaism, Scripture, and its development of a distinctive Christian ethic. The Food and Feasts of the

Apostle Paul Douglas E. Neel, 2024-12-17 With a vibrant narrative recipes and menus this absorbing volume will be of interest to readers of Christian history and those interested in cookery and Mediterranean diets Booklist The Food and Feasts of the Apostle Paul takes readers inside the world of the early Christian church through a new lens what people ate and didn't eat The early church encompassed diverse communities and people and understanding its food helps us understand both the worship and culture of these people as well as their sources of conflict Each chapter introduces readers to a different community or church Paul visited or started explores one or two key foods and offers recipes that reflect each community Recipes range from simple to complex from snack to feast This book will help readers more fully experience the diverse cultures of the early Christian church to better understand the teachings of Jesus Paul and early Christian leaders

Materiality in Roman Art and Architecture Annette Haug, Adrian Hielscher, M. Taylor Lauritsen, 2021-12-31 The focus of this volume is on the aesthetics semantics and function of materials in Roman antiquity between the 2nd century B C and the 2nd century A D It includes contributions on both architectural spaces and their material design and objects types of artefacts that differ greatly in the way they were used perceived and loaded with cultural significance With respect to architecture the analysis of material aesthetics leads to a new understanding of the performance imitation and transformation of surfaces including the social meaning of such strategies In the case of objects surface treatments are equally important However object form a specific design category which can enter into tension with materiality comes into particular focus Only when materials are shaped do their various qualities emerge and these qualities are to a greater or lesser extent transferred to objects With a focus primarily on Roman Italy the papers in this volume underscore the importance of material design and highlight the awareness of this matter in the ancient world Ancient Medicine Vivian Nutton, 2023-12-14 The third edition of this magisterial account of medicine in the Greek and Roman worlds written by the foremost expert on the subject has been updated to incorporate the many new discoveries made in the field over the past decade This revised volume includes discussions of several new or forgotten works by Galen and his contemporaries as well as of new archaeological material RNA analysis has expanded our understanding of disease in the ancient world the book explores the consequences of this for sufferers for example in creating disability Nutton also expands upon the treatment of pre Galenic medicine in Greece and Rome In addition subtitles and a chronology will make for easier student consultation and the bibliography is substantially revised and updated providing avenues for future student research This third edition of Ancient Medicine will remain the definitive textbook on the subject for students of medicine in the classical world and the history of medicine and science more broadly with much to interest scholars in the field as well **Cultures of Contagion** Beatrice Delaurenti, Thomas Le Roux, 2021-10-19 Contagion as process metaphor and timely interpretive tool from antiquity to the twenty first century Cultures of Contagion recounts episodes in the history of contagions from ancient times to the twenty first century It considers contagion not only in the medical sense but also as a process a metaphor and an interpretive

model as a term that describes not only the transmission of a virus but also the propagation of a phenomenon The authors describe a wide range of social cultural political and anthropological instances through the prism of contagion from anti-Semitism to migration from the nuclear contamination of the planet to the violence of Mao's Red Guard The book proceeds in glossary style with a series of short texts arranged alphabetically beginning with an entry on aluminum and environmental contagion and ending with a discussion of writing and textual resemblance caused by influence imitation borrowing and plagiarism The authors leading scholars associated with the Center for Historical Research CRH Centre de recherches historiques Paris consider such topics as the connection between contagion and suggestion waltzmania in post-Terror Paris the effect of reading on sensitive imaginations and the contagiousness of yawning They take two distinct approaches either examining contagion and what it signified contemporaneously or deploying contagion as an interpretive tool Both perspectives illuminate unexpected connections unnoticed configurations and invisible interactions

"Gendered Perceptions of Florentine Last Supper Frescoes, c. 1350-1490" Diana Hiller, 2017-07-05 Despite the large number of monumental Last Supper frescoes which adorn refectories in Quattrocento Florence until now no monograph has appeared in English on the Florentine Last Supper frescoes nor has any study examined the perceptions of the original viewers This study examines the rarely considered effect of gender on the profoundly contextualized perceptions of the male and female religious who viewed the Florentine Last Supper images in surprisingly different physical and cultural refectory environments In addition to offering detailed visual analyses the author draws on a broad spectrum of published and unpublished primary materials including monastic rules devotional tracts and reading materials the constitutions and ordinazioni for individual houses inventories from male and female communities and the Convent Suppression documents of the Archivio di Stato in Florence By examining the original viewers' attitudes to images their educational status acculturated pieties affective responses levels of community degrees of reclusion and even the types of food eaten in the refectories Hiller argues that the perceptions of these viewers of the Last Supper frescoes were intrinsically gendered
