Edited with Some Passages Newly Translated, and a General Introd., by Vernon J. Bourke** Thomas, Aquinas, Saint, 1225?-1274,1960 *Selections from the Writings of St. Thomas* ,1969 **Tending the Fire That Burns at the Center of the World** David F. White,2022-07-29 Tending the Fire at the Center of the World engages the central question of Christian formation that is what kind of knowing is most likely to awaken and sustain Christian faith This book seeks to reclaim aesthetics beauty and creativity as the church s most native theological way of knowing and being which participates with God s own glory and creativity This book traces the prominence of aesthetics up until the dawn of the Enlightenment including recent theologians who reclaim aesthetics for theology and formation The book elaborates the aims and techniques of aesthetic approaches to teaching and learning in the church Finally this book cautions against overly determined rationalisms and moralisms that do not retain a sense of wonder delight and openness in the church s teaching liturgy and proclamation In this view the church does not simply regurgitate familiar texts political tropes or flattened doctrines but breaks into the world as Christ s body a parable a song a flash mob interrupting business as usual giving new expression to acts of care repentance forgiveness joy and communion awake to the beauty of God s gifts and inviting our worship

Pocket History of Theology Roger E. Olson,Adam C. English,2010-03-18 Based on Roger Olson s widely acclaimed *The Story of Christian Theology* this concise and informative guide surveys events teachings and challenges to the Christian faith from the second to the twenty first centuries *Robert Smithson* Ann Reynolds,2004-10-01 An examination of the interplay between cultural context and artistic practice in the work of Robert Smithson Robert Smithson 1938 1973 produced his best known work during the 1960s and early 1970s a period in which the boundaries of the art world and the objectives of art making were questioned perhaps more consistently and thoroughly than any time before or since In *Robert Smithson* Ann Reynolds elucidates the complexity of Smithson s work and thought by placing them in their historical context a context greatly enhanced by the vast archival materials that Smithson s widow Nancy Holt donated to the Archives of American Art in 1987 The archive provides Reynolds with the remnants of Smithson s working life magazines postcards from other artists notebooks and perhaps most important his library from which she reconstructs the physical and conceptual world that Smithson inhabited Reynolds explores the relation of Smithson s art making thinking about art making writing and interaction with other artists to the articulated ideology and discreet assumptions that determined the parameters of artistic practice of the time A central focus of Reynolds s analysis is Smithson s fascination with the blind spots at the center of

established ways of seeing and thinking about culture For Smithson New Jersey was such a blind spot and he returned there again and again alone and with fellow artists to make art that through its location alone undermined assumptions about what and more important where art should be For those who guarded the integrity of the established art world New Jersey was elsewhere but for Smithson elsewheres were the defining if often forgotten locations on the map of contemporary culture

Land As an Economic Factor and Its Biblical Origins Kenneth Wenzer, 2003-11 Our homage to freedom is a mockery for the blinding glare of riches and power have made of democracy an illusion The consequence is life without social and economic justice and a false view we are chained to monetary acquisitiveness group identities and other limited perspectives Power and influence coupled with technology bureaucracy and greed have masked accumulated wisdom the bedrock of individual integrity Even social injustice masked as property rights takes on a look of integrity liberty and prosperity At the root of our problems is the relation of man to the land and his mental and physical separation from it The most enduring structure would be built upon the Fatherhood of God which the ancient Hebrews perceived as requiring the sharing among the entire people of the divine gift of land While land rent has been acknowledged to be socially created a theft by private interests of natural resources that belong to mankind in common is protected and exalted as the fruit of effort and a basis of personal rights The *First Definitive History of Land Economics* stands in a tradition of social criticism that recognizes that land rent income should be the tax base of the community and the means to eliminate poverty The author hopes to do something towards overcoming a way of thinking that in the guise of defending property rights defends privilege in its robbery of Nature labor and life

Political Agape Timothy P. Jackson, 2015-04-29 What is the place of Christian love in a pluralistic society dedicated to liberty and justice for all What would it mean to take both Jesus Christ and Abraham Lincoln seriously and attempt to translate love of God and neighbor into every quarter of life including law and politics Timothy Jackson addresses such questions in *Political Agape* Prophetic Christianity and Liberal Democracy Jackson

argues that love of God and neighbor is the perilously neglected civil virtue of our time and that it must be considered even before justice in structuring political principles and policies To indicate the specific implications of civic agapism he looks at such issues as the death penalty Christian complicity in the Holocaust the case for same sex marriage and the morality of adoption The book concludes with Jackson s reflections on Martin Luther King Jr as a Christian hero
