centuries from the period when Christianity first made its appearance in Egypt to when it became the region's dominant religion roughly 100 to 600 C E Taking into account the full range of witnesses to continuing native piety from papyri and saints' lives to archaeology and terracotta figurines and drawing on anthropological studies of folk religion David Frankfurter argues that the religion of Pharaonic Egypt did not die out as early as has been supposed but was instead relegated from political centers to village and home where it continued a vigorous existence for centuries In analyzing the fate of the Egyptian oracle and of the priesthoods the function of magical texts and the dynamics of domestic cults Frankfurter describes how an ancient culture maintained itself while also being transformed through influences such as Hellenism Roman government and Christian dominance Recognizing the special characteristics of Egypt which differentiated it from the other Mediterranean cultures that were undergoing simultaneous social and political changes he departs from the traditional decline of paganism triumph of Christianity model most often used to describe the Roman period By revealing late Egyptian religion in its Egyptian historical context he moves us away from scenarios of Christian triumph and shows us how long and how energetically pagan worship survived *Egyptian Hieroglyphs in the Late Antique Imagination* Jennifer Taylor Westerfeld, 2019-10-04 Throughout the pharaonic period hieroglyphs served both practical and aesthetic purposes Carved on stelae statues and temple walls hieroglyphic inscriptions were one of the most prominent and distinctive features of ancient Egyptian visual culture For both the literate minority of Egyptians and the vast illiterate majority of the population hieroglyphs possessed a potent symbolic value that went beyond their capacity to render language visible For nearly three thousand years the hieroglyphic script remained closely bound to indigenous notions of religious and cultural identity By the late antique period literacy in hieroglyphs had been almost entirely lost However the monumental temples and tombs that marked the Egyptian landscape together with the hieroglyphic inscriptions that adorned them still stood as inescapable reminders that Christianity was a relatively new arrival to the ancient land of the pharaohs In *Egyptian Hieroglyphs in the Late Antique Imagination* Jennifer Westerfeld argues that depictions of hieroglyphic inscriptions in late antique Christian texts reflect the authors' attitudes toward Egypt's pharaonic past Whether hieroglyphs were condemned as idolatrous images or valued as a source of mystical knowledge control over the representation and interpretation of hieroglyphic texts constituted an important source of Christian authority Westerfeld examines the ways in which hieroglyphs are deployed in the works of Eusebius and Augustine to debate biblical chronology in Greek Roman and patristic sources to claim that hieroglyphs encoded the mysteries of the Egyptian priesthood and in a polemical sermon by the fifth century monastic leader Shenoute of Atripe to argue that hieroglyphs should be destroyed lest they promote a return to idolatry She argues that in the absence of any genuine understanding of hieroglyphic writing late antique Christian authors were able to take this powerful symbol of Egyptian identity and manipulate it to serve their particular theological and ideological ends Middle Egyptian James P. Allen, 2010-04-15 Middle Egyptian introduces the reader to the writing system of ancient Egypt and the

language of hieroglyphic texts It contains twenty six lessons exercises with answers a list of hieroglyphic signs and a dictionary It also includes a series of twenty five essays on the most important aspects of ancient Egyptian history society religion and literature The combination of grammar lessons and cultural essays allows users to not only read hieroglyphic texts but also to understand them providing readers with the foundation to understand texts on monuments and to read great works of ancient Egyptian literature in the original text This second edition contains revised exercises and essays providing an up to date account of current research and discoveries New illustrations enhance discussions and examples These additions combine with the previous edition to create a complete grammatical description of the classical language of ancient Egypt for specialists in linguistics and other fields

Vitaly Surnin, 2013-12-28 This book is the preliminary part of a great work titled THE BOOK OF THE EGYPTIAN The beginning of the basic Egyptology or a key to the understanding of history philosophy and world religion Usually the introduction is made in the form of a brief preface or foreword but I got a whole book as the first step in a multi volume publication of the study The purpose of this specific introduction as the beginning of serious research is right at the level of the opening to inspire a reader showing him in a clear visual and comprehensible form the whole true mechanism of the hieroglyphic writing To achieve this I will completely dispel the myth created by the modern science that hieroglyphs do not convey any meaning of words the whole idea but only individual sounds letters or their combination syllables This scientific myth will be finally deprived of the status of scientific knowledge and the translation of the Phaistos disc on the contrary will be clearly shown what is called broken apart and will be read in the ancient hieroglyphic language united by the principle of construction in the language of the ancient Egyptians I can say that it will not be two simultaneously existing systems of hieroglyphs translation as well as two Egyptologies one will be false and the other true To prove the validity of the system of translation I wanted to give you immediately not only a complete translation of the text of the Phaistos disc where the number of occurrences of each hieroglyph is not big 1 to 19 times but the translation of the whole ancient Egyptian writing because the number of times it is used in there is thousands if not even millions And each such use of each hieroglyph is translating in the same way so it creates the full reading of the hieroglyphic texts writing which will be easily read by everyone with the dictionary of hieroglyphs in the future The main reason why I wanted to do it is because at first I read the ancient Egyptian texts and only then by chance came across with the hieroglyphs of the Phaistos disc But then I decided to set a different aim to teach the reader to think and not just to read hieroglyphs Since we have no ancient Egyptian temple and you re not its novice the method of achieving the aims will be different than in the antiquity First of all I would suggest not a translation of ancient Egyptian hieroglyphs but a complete translation of the Phaistos disc and at the same time to give them a sort of test of common sense to modern science in the face of particular academies and universities of the world Let them answer me the question not knowing the translations of ancient Egyptian texts whether they think this translation of the Phaistos disc is correct So when I completely publish The Book of Egyptian it will become clear who they are and where do they lead all of you As they always test the students it s a time to test them as well Will they pass the test I do not know but any way you my reader will get to know about it in the main manuscript and will be able to draw your own conclusions

about their intellectual level Therefore I recommend you to take this message of the book at least with the attention because not every day the science gets a ready revelation designed in the form of scientific study And here the attention and common sense will help the reader to re look the original pure uncomplicated meaning of the Hieroglyphs which through the veil of delusion will finally begin to appear in their true original and vibrant colors and finally get from the nether world into the realm of the living
