[The 17th and 18th Centuries](#) Frank N. Magill,2013-09-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography

*Who Really Invented the Steamboat?* Jack L. Shagena,2004-06-30 An engineer retired from aerospace electronics and a historian Shagena one day ran across a roadside marker identifying someone other than Robert Fulton as the inventor of the steamboat He had to investigate He found that most people who have written about the subject have been historians or biographers without a technical background so he loo

**The American Manufactory** Laura Rigal,2021-03-09 This cultural history of American federalism argues that nation building cannot be understood apart from the process of industrialization and the making of the working class in the late eighteenth century United States Citing the coincidental rise of federalism and industrialism Laura Rigal examines the

creations and performances of writers collectors engineers inventors and illustrators who assembled an early national world of things at a time when American craftsmen were transformed into wage laborers and production was rationalized mechanized and put to new ideological purposes American federalism emerges here as a culture of self making in forms as various as street parades magazine writing painting autobiography advertisement natural history collections and trials and trial transcripts Chapters center on the craftsmen who celebrated the Constitution by marching in Philadelphia s Grand Federal Procession of 1788 the autobiographical writings of John Fitch an inventor of the steamboat before Fulton the exhumation and museum display of the first American mastodon by the Peale family of Philadelphia Joseph Dennie s literary miscellany the Port Folio the nine volume American Ornithology of Alexander Wilson and finally the autobiography and portrait of Philadelphia locksmith Pat Lyon who was falsely imprisoned for bank robbery in 1798 but eventually emerged as an icon for the American working man Rigal demonstrates that federalism is not merely a political movement or an artifact of language but a phenomenon of culture one among many innovations elaborated in the manufactory of early American nation building
