## **Poor Is Just A Starting Place:**

**Neighbourhoods of Poverty** S. Musterd, A. Murie, C. Kesteloot, 2006-01-27 Neighbourhoods of Poverty is concerned with the spatial dimension of urban social exclusion and integration. It draws on research from twenty-two neighbourhoods in eleven European cities: Amsterdam, Rotterdam, Brussels, Antwerp, London, Birmingham, Berlin, Hamburg, Milan, Naples, and Paris, and addresses two questions: How do different neighbourhoods have an impact upon the opportunities and perspectives of poor individuals and households? Are these neighbourhood impacts conditioned by national and welfare state contexts, by the wider metropolitan structures, and by specific neighbourhood characteristics? Various aspects of poverty, social exclusion, and integration are brought together and provide a new assessment of the place of neighbourhood within these wider debates.

**The Challenge of Slums** United Nations Human Settlements Programme, 2012-05-23 The Challenge of Slums presents the first global assessment of slums, emphasizing their problems and prospects. Using a newly formulated operational definition of slums, it presents estimates of the number of urban slum dwellers and examines the factors at all levels, from local to global, that underlie the formation of slums, as well as their social, spatial, and economic characteristics and dynamics. It goes on to evaluate the principal policy responses to the slum challenge of the last few decades. From this assessment, the immensity of the challenges that slums pose is clear. Almost 1 billion people live in slums, the majority in the developing world, where over 40 per cent of the urban population are slum dwellers. The number is growing and will continue to increase unless there is serious and concerted action by municipal authorities, governments, civil society, and the international community. This report points the way forward and identifies the most promising approaches to achieving the United Nations Millennium Declaration targets for improving the lives of slum dwellers by scaling up participatory slum upgrading and poverty reduction programmes. The Global Report on Human Settlements is the most authoritative and up-to-date assessment of conditions and trends in the world's cities. Written in clear language and supported by informative graphics, case studies, and extensive statistical data, it will be an essential tool and reference for researchers, academics, planners, public authorities, and civil society organizations around the world.

*Insights from Reading the Bible with the Poor* Crystal L. Hall, 2019-10-01 *Insights from Reading the Bible with the Poor* provides a spirited introduction to methodologies and strategies for reading the Bible from below, from the back of what used to be church sanctuaries, from basements, from sidewalks. Drawing on the lineage of various methods of reading the Bible with the poor, the book invites poverty and biblical study into dialogue with real-world organizing to seek justice for those most often treated as Other. The reading process occurs among the intersections of the hermeneutical triangle of Reality, the Bible, and Community. This book is for anyone curious about how to use the Bible as a resource for liberation. It is for faith leaders and community organizers as much as it is for biblical scholars, because it draws on experiences at the intersections of academia, the Church, and communities of organized struggle. It is written with an eye toward praxis, as the author shares from her own experience with the hope that space will be created for

others to reflect on their own contexts
