Though the industrial model of the musical was disrupted by the emergence of pop the Hollywood musical has not gone extinct. Many Hollywood productions from the 1960s to the present have revisited the forms and conventions of the classic musical except instead of drawing from showtunes and jazz standards they employ the styles and iconography of pop. Alberto Mira offers a new account of how pop music revolutionized the Hollywood musical. He shows that while the Hollywood system ceased producing large scale traditional musicals different pop strains disco rock n roll doo wop glam and hip hop renewed the genre giving it a new life. While the classical musical presented a world light on conflict defined by theatricality and where effortless talent can shine through the introduction of pop spurred musicals to address contemporary social and political conditions. Mira traces the emergence of a new set of themes such as the painful hard work depicted in *Dirty Dancing* 1987 the double edged fandom of *Velvet Goldmine* 1998 and the racial politics of *Dreamgirls* 2006 to explore why the Hollywood musical has found renewed relevance.
