**The Face on Film** Noa Steimatsky, 2017-01-03 The human face was said to be rediscovered with the advent of motion pictures in which it is often viewed as expressive locus as figure and even as essence of the cinema But how has the modern technological mass circulating art revealed the face in ways that are also distinct from any other medium How has it altered our perception of this quintessential incarnation of the person The archaic powers of masks and icons the fashioning of the individual in the humanist portrait the modernist anxieties of fragmentation and de figuration these are among the cultural precedents informing our experience in the movie theatre Yet the moving image also offers radical new confrontations with the face Dreyer s *Passion of Joan of Arc* Donen s *Funny Face* Hitchcock s *The Wrong Man* Bresson s enigmatic *Au hasard* Balthazar Antonioni s *Screen Test* Warhol s filmic portraits of celebrity and anonymity are among the key works explored in this book In different ways these intense encounters manifest a desire for transparency and plenitude but especially in post classical cinema they also betray a profound ambiguity that haunts the human countenance as it wavers between image and language between what we see and what we know The spectacular impact of the cinematic face is uncannily bound up with an opacity a reticence But is it not for this very reason that like faces in the world it still enthralls us **Boy Bands and the**

**Performance of Pop Masculinity** Georgina Gregory, 2019-04-03 *Boy Bands and the Performance of Pop Masculinity* provides a history of the boy band from the Beatles to One Direction placing the modern male pop group within the wider context of twentieth and twenty first century popular music and culture Offering the first extended look at pop masculinity as exhibited by boy bands this volume links the evolving expressions of gender and sexuality in the boy band to wider economic and social changes that have resulted in new ways of representing what it is to be a man The popularity of boy bands is unquestionable and their contributions to popular music are significant yet they have attracted relatively little study This book fills that gap with chapters exploring the challenges of defining the boy band phenomenon its origins and history from the 1940s to the present the role of management and marketing the performance of gender and sexuality and the nature of fandom and fan agency Throughout the author illuminates the ways in which identity politics influence the production and consumption of pop music and shows how the mainstream pop of boy bands can both reinforce and subvert gender and class hierarchies

Davisson,2008 This book is requisite reading material for any person claiming to be an educated and informed member of the global community Our understanding in the West of the Eastern cultures specially the different cultures involving the Muslims is alarmingly low The book strives to offer a view from the ground a keyhole perspective that offers the readers a close and personal peek into some of the ethical underpinnings and the philosophical guiding parameters that inform the Muslim and the Eastern mind There are over 1.3 billion Muslims in the world It would be a serious intellectual fallacy to assume that they are all homogenous or to be more preposterous assume they are all terrorists It is extremely tragic that it took the Iranian hostage crisis to teach us about Shia Islam and 9/11 to teach us about Wahabi Islam Properly acquired knowledge not just what we learn from the media will allow us to be anticipatory and rational rather than being reactive and emotional For the Muslim

reader specially the children and the youth the book strives to offer a deeper understanding of Islam beyond the boundaries of ritual Islam into the wide open space of spiritual and intellectual Islam To inspire them to appreciate and live up to the wonderful legacy of Islam and not to be mired down into some deviant interpretations of people with questionable motives The book is designed to encourage the process of tearing down walls and building bridges We share common dreams aspirations and challenges We share a common globe and a common destiny The author believes that there are no clashes of civilizations just clashes of ignorance and misunderstanding
