Popular Dissent Human Agency And Global Politics

**Thomas Risse, Thomas Risse-
Kappen, Steve C. Ropp, Stephen C.
Ropp, Kathryn Sikkink**

Popular Dissent Human Agency And Global Politics:

Popular Dissent, Human Agency, and Global Politics Roland Bleiker, 2000 This book demonstrates how popular dissent is becoming an increasingly important aspect of global politics The author draws upon several case studies including the collapse of the Berlin Wall to show how people influence the course of politics at a time when boundaries between domestic and international spheres are blurring

The Global Resistance Reader Louise Amoore, 2005 The Global Resistance Reader provides the first comprehensive collection of work on the phenomenal rise of transnational social movements and resistance politics from the visible struggles against the financial economic and political authority of large international organizations such as the World Trade Organization World Bank and International Monetary Fund to the much less visible acts of resistance in everyday life The conceptual debates substantive themes and case studies have been selected to open up the idea of global resistance to interrogation and discussion by students and to provide a one stop orientation for researchers journalists policymakers and activists

Affective Communities in World Politics Emma Hutchison, 2016-03-11 Emotions underpin how political communities are formed and function Nowhere is this more pronounced than in times of trauma The emotions associated with suffering caused by war terrorism natural disasters famine and poverty can play a pivotal role in shaping communities and orientating their politics This book investigates how affective communities emerge after trauma Drawing on several case studies and an unusually broad set of interdisciplinary sources it examines the role played by representations from media images to historical narratives and political speeches Representations of traumatic events are crucial because they generate socially embedded emotional meanings which in turn enable direct victims and distant witnesses to share the injury as well as the associated loss in a manner that affirms a particular notion of collective identity While ensuing political orders often re establish old patterns traumatic events can also generate new emotional cultures that genuinely transform national and transnational communities

World Literature Reader Theo D'haen, César Domínguez, Mads Rosendahl Thomsen, 2012-06 World Literature is an increasingly influential subject in literary studies which has led to the re framing of contemporary ideas of national literatures language and translation World Literature A Reader brings together thirty essential readings which display the theoretical foundations of the subject as well as showing its conceptual development over a two hundred year period The book features an illuminating introduction to the subject with suggested reading paths to help readers navigate through the materials texts exploring key themes such as globalization cosmopolitanism post trans nationalism and translation and nationalism writings by major figures including J W Goethe Karl Marx Friedrich Engels Longxi Zhao David Damrosch Gayatri Chakravorty Spivak Pascale Casanova and Milan Kundera The early explorations of the meaning of Weltliteratur are introduced while twenty first century interpretations by leading scholars today show the latest critical developments in the field The editors offer readers the ideal introduction to the theories and debates surrounding the impact of this crucial area on the modern literary landscape

International

Relations, Meaning and Mimesis Necati Polat, 2012-05-31 International Relations Meaning and Mimesis is an innovative assessment of the uses of theory in making sense of international politics opening up new pathways to thinking about the basics of the study area Insights drawn from an interdisciplinary corpus of critical scholarship are synthesized and brought to bear on key concepts such as sovereignty the state peace law justice ethics and supranationality The mainstream characteristically dismisses the narrativity that accompanies these concepts as derivative tending to treat meaning attributable to them as static The work shows how problematic this disdain of mimesis exchange reproduction imitation is and how this mindset effectively incapacitates conventional theorizing in both predicting phenomena and providing a normative vision Integrating the study of international politics into debates in the wider academia over meaning and mimesis this ambitious work is fluent and accessible at the same time with exceptional lucidity in presenting difficult philosophical notions A series of radical positions advanced in the book on theory and methodology not only address and call to account the mainstream imagination on international politics but also outline the implications of this critique for a host of specific issue areas including peace research normative theories international law and European studies *The Social in the Global* Jonathan Joseph, 2012-07-12 How do influential social ideas contribute to global governance This book takes an original approach to international relations by looking at the way social ideas help to portray the world in a particular way Jonathan Joseph begins by analysing the role of important concepts such as globalisation global civil society social capital networks and risk then examines the role these concepts play in the discourse of international organisations Using the concept of governmentality he argues that contemporary social theories help justify contemporary forms of governance By comparing organisations like the EU and the World Bank Joseph investigates the extent to which these ideas are influential in theory and in practice *Encyclopedia of Law and Society* David S. Clark, 2007-07-10 Introduction to and survey of the field of law and society Includes interdisciplinary perspectives on law from sociology criminology cultural anthropology political science social psychology and economics **Responsibility for Human Rights** David Jason Karp, 2014-03-27 An original analysis of which global actors are responsible for human rights in today's world and why *The Persistent Power of Human Rights* Thomas Risse, Thomas Risse-Kappen, Steve C. Ropp, Stephen C. Ropp, Kathryn Sikkink, 2013-03-07 This book offers a unique combination of quantitative and qualitative research arguing for the persistent power of human rights norms *Making Global Society* Barry Buzan, 2023-08-10 Barry Buzan proposes a new approach to making International Relations a truly global discipline that transcends both Eurocentrism and comparative civilisations He narrates the story of humankind as a whole across three eras using its material conditions and social structures to show how global society has evolved Deploying the English School's idea of primary institutions and setting their story across three domains interpolity transnational and interhuman this book conveys a living historical sense of the human story whilst avoiding the overabstraction of many social science grand theories Buzan sharpens the familiar story of three main eras in human history with the novel idea that these

eras are separated by turbulent periods of transition This device enables a radical retelling of how modernity emerged from the late 18th century He shows how the concept of global society can build bridges connecting International Relations Global Historical Sociology and Global World History *The Politics of International Law* Christian Reus-Smit,2004-04-29 Politics and law appear deeply entwined in contemporary international relations Yet existing perspectives struggle to understand the complex interplay between these aspects of international life In this path breaking volume a group of leading international relations scholars and legal theorists advance a new constructivist perspective on the politics of international law They reconceive politics as a field of human action that stands at the intersection of issues of identity purpose ethics and strategy and define law as an historically contingent institutional expression of such politics They explain how liberal politics has conditioned modern international law and how law feeds back to constitute international relations and world politics This new perspective on the politics of international law is illustrated through detailed case studies of the use of force climate change landmines migrant rights the International Criminal Court the Kosovo bombing campaign international financial institutions and global governance **International Relations Theories** Timothy Dunne,Milja Kurki,Steve Smith,2013-01-03 Drawing on a wealth of expertise from an international team of contributors the second edition of International Relations Theories presents a diverse selection of theoretical positions Arguing that theory is central to explaining the dynamics of world politics editors Tim Dunne Milja Kurki and Steve Smith cover a wide variety of theoretical positions from the historically dominant traditions to powerful critical voices since the 1980s The editors have brought together a team of international contributors each specializing in a different theory The contributors explain the theoretical background to their positions before showing how and why their theories matter The book opens up space for analysis and debate allowing students to decide which theories they find most useful in explaining and understanding international relations **Corporate Social Performance** Agata Stachowicz-Stanusch,2016-10-01 Corporate Social Performance reflecting on the past and investing in the future is aimed at filling the fundamental gap that exists in our understanding of the drivers Corporate Social Performance its evolution and relationships with the existing concepts and theories and the paradoxes that come from those connections Moreover the volume aims at shedding the light on most important pitfalls that may occur while CSP application in business practice The last but not least reason for its publishing is to show Corporate Social Performance as a significant pathway to the better world that as I hope will be the inspiration for the readers This book is authored by a range of international experts and scientists from all over the world with a diversity of professional and cultural backgrounds what hopefully will give the readers the opportunity to understand the CSP concept from different perspectives Gender Politics and Security Discourse Laura McLeod,2015-07-16 This book investigates competing modes of thought about gender security and aims to understand the policy implications of personal political imaginations The work draws upon extensive research conducted by the author in Serbia to develop a comprehensive picture of how feminist and

women's organising relates to the broader national and international contexts surrounding gender security. Through an innovative analytical framework of personal political imaginations, the book explores the role that memories, perceptions, and hopes about conflict and post-conflict have upon the logics of gender security. It investigates how contrasting and competing modes of thought about gender security are made, paying attention to how the dynamics of gender politics in Serbia shape the security discourse and narratives of activists. The volume explores in detail how feminist and women's organisations have responded to UNSCR 1325 by analysing two policy debates and campaigns that seek to achieve its goals and gender security in Serbia: 1. feminist antimilitarism and 2. connecting domestic violence to the abuse of small arms and light weapons. Ultimately, the book argues that the configuration of gender security discourse is intimately linked to personal political imaginations of conflict and post-conflict. This book will be of much interest to students of gender politics, conflict studies, critical security studies, European politics, and IR in general.

Simon Dalby: A Pioneer in International Relations

Simon Dalby, Roger Boyd, 2025-06-11. This book profiles Simon Dalby's academic contributions in the fields of critical geopolitics, environmental security, and the intersection of international relations and the Anthropocene. It includes reprints of key essays that highlight innovations in critical thought at the intersections between geopolitics, environment, and security. Starting with an analysis of American reconstructions of the Soviet threat in the 1970s, an early contribution to the emerging field of critical geopolitics, subsequent papers focus on the emergent formulations of environmental security in the aftermath of the Cold War and the environmental costs of globalization. Focusing on the implicit geographical framing in discourses of globalization, the book offered a critique that extended the ambit of critical geopolitics to grapple with the issues of environmental security and the rising concern with climate change, as well as the political identities invoked in that debate. In the aftermath of 9/11, similar arguments about contextualization applied to the American global war on terror and the revival of discussions of empire and its geographies, both in arguments for invading Iraq as well as the wider discussions in policy discourse and popular culture. Simultaneously, the emergence of earth system science and the concept of the Anthropocene offered another way to highlight the dangers of fossil-fueled economic activities. The necessity of fundamentally rethinking the premises of security policy in light of this recontextualization is emphasized in more recent contributions on climate security and the current ecological crisis. Critical geopolitics, Environmental security, Global war on terror, Firepower in the Anthropocene.

Securitization and the Iraq War Faye Donnelly, 2013-08-15. This book critiques the conceptualization of security found in mainstream and critical theoretical debates and applies this to the empirical case of the 2003 Iraq War. The Iraq War represents one of the most puzzling, complex, and controversial events in the post-Cold War era. The manner in which the Bush administration finally decided to hold Saddam Hussein accountable through military intervention provoked a worldwide outcry due to the narratives they constructed to justify the pre-emptive use of force and enhanced interrogation techniques. Responding to constructivist and post-structuralist scholars' calls for a turn to discourse and aligning its argument with

critical security studies particularly the Copenhagen School CS this book conceptualizes language as a pivotal mechanism of power Adopting a Wittgensteinian approach it moves away from thinking about the nexus between security and language from a single action or speech act to a series of actions or interactions To illustrate this new approach the author examines two cases in particular the UN inspectors finding that there was no credible evidence that Iraq possessed weapons of mass destruction WMD in early 2003 and the Abu Ghraib scandal in 2004 Both events show that the boundaries and relations between securitized rules and environments are not pre given but produced in a particular language game This book will be of much interest to students of critical security studies US foreign policy and IR in general **Global Shell Games** Michael G. Findley, Daniel L. Nielson, 2014-01-23 Every year a staggering number of corporate service providers mask perpetrators of terrorist financing corruption and illegal arms trades but the degree to which firms flout global identification standards remains unknown This book sheds new light on the sordid world of anonymous shell corporations through a series of field experiments **The Cambridge Handbook of Social Sciences in Australia** Ian McAllister, Steve Dowrick, Riaz Hassan, 2003-08-07 First published in 2003 The Cambridge Handbook of Social Sciences in Australia is a high quality reference on significant research in Australian social sciences The book is divided into three main sections covering the central areas of the social sciences economics political science and sociology Each section examines the significant research in the field placing it within the context of broader debates about the nature of the social sciences and the ways in which institutional changes have shaped how they are defined taught and researched **Making Human** Matthew S. Weinert, 2015-02-20 Differences between human beings have long been used to justify a range of degrading exclusionary and murderous practices that strip people of their humanity and dignity While considerable scholarship has been devoted to such dehumanization Matthew S Weinert asks how we might conceive its reverse humanization or what it means to make human Weinert proposes an account of making human centered on five mechanisms reflection recognition resistance replication of dominant mores and responsibility Examining cases such as the UN Security Council's engagements with crises and the International Court of Justice's grappling with Kosovo's unilateral declaration of independence he illustrates the distinct and contingent ways these mechanisms have been deployed Theoretically the cases evince a complex evolving relationship between state centric and human centric views of society ultimately revealing the normative potentialities of both Though the case studies concern specific human relations issues on an international level Weinert argues in favor of starting from the shared problem of being human and of living in a world in which the humanity of countless groups has been demeaned or denied Working outward from that point he proposes we obtain a more pragmatically grounded understanding of the social construction of the human being *Peace in International Relations* Oliver Richmond, 2003-03-19 This book examines the way in which peace is conceptualized in IR theory a topic which has until now been largely overlooked The volume explores the way peace has been implicitly conceptualized within the different strands of IR theory and in the policy world as

exemplified through practices in the peacebuilding efforts since the end of the Cold War Issues addressed include the problem of how peace efforts become sustainable rather than merely inscribed in international and state level diplomatic and military frameworks The book also explores themes relating to culture development agency and structure It explores in particular the current mantras associated with the liberal peace which appears to have become a foundational assumption of much of mainstream IR and the policy world Analyzing war has often led to the dominance of violence as a basic assumption in and response to the problems of international relations This book aims to redress the balance by arguing that IR now in fact offers a rich basis for the study of peace

Enjoying the Beat of Phrase: An Psychological Symphony within **Popular Dissent Human Agency And Global Politics**

In a global eaten by displays and the ceaseless chatter of instant connection, the melodic splendor and mental symphony created by the published term usually diminish into the background, eclipsed by the relentless sound and distractions that permeate our lives. Nevertheless, situated within the pages of **Popular Dissent Human Agency And Global Politics** a marvelous literary treasure brimming with fresh feelings, lies an immersive symphony waiting to be embraced. Crafted by a masterful musician of language, that interesting masterpiece conducts readers on a mental journey, well unraveling the hidden songs and profound impact resonating within each carefully constructed phrase. Within the depths of this emotional assessment, we will explore the book is key harmonies, analyze their enthralling writing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.

Popular Dissent Human Agency And Global Politics Introduction

In today's digital age, the availability of Popular Dissent Human Agency And Global Politics books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Popular Dissent Human Agency And Global Politics books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Popular Dissent Human Agency And Global Politics books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Popular Dissent Human Agency And Global Politics versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Popular Dissent Human Agency And Global Politics books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Popular Dissent Human Agency And Global Politics books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another

popular platform for Popular Dissent Human Agency And Global Politics books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system.

Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Popular Dissent Human Agency And Global Politics books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Popular Dissent Human Agency And Global Politics books and manuals for download and embark on your journey of knowledge?

FAQs About Popular Dissent Human Agency And Global Politics Books

1. Where can I buy Popular Dissent Human Agency And Global Politics books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
