Religious Periodicals and Publishing in Transnational Contexts Anja-Maria Bassimir, Oliver Scheiding, 2017-06-23

This volume explores the interrelationship of religion and print practices and sheds new light on the history of religious publishing in a globalizing world and its changing media consumption. Periodicals have recently become of interest to scholars in book history and religious studies as they try to determine how magazines, journals, newsletters, and newspapers meet the diverse spiritual demands of believers conditioned by an increasingly translocal and pluralistic religious landscape in modern America and beyond. Existing publications in this field have produced new insights into the multilayered nineteenth and twentieth century publishing enterprises as well as the numerous actors behind them often crossing ethnic, gender, and national boundaries. This volume focuses instead on the socio-economic conditions, institutional organizations, action networks, and communicative environments that shape religious publishing and its medial apparatus in transnational contexts. In doing so, the authors study the material devices, business structures, and cultural networks needed for circulating words and images that nourish specific formations of religious adherence.

He covers not only elite Euro-American institutions but also the educating of African Americans, women, and working-class white leaders. His vision of ministers, priests, and rabbis as participants in the civic culture of the nation recovers and refurbishes a long tradition. Pg 4 of cover.

The Conservative Press in Eighteenth- and Nineteenth-Century America Ronald Lora, William Henry Longton, 1999-08-30. Selecting journals that speak for a very large number of topics addressed by the conservative press, this volume profiles selected conservative journals published since 1787. The conservative press has scarcely spoken with a single voice; whether the topics treated or even the time inhabited are the same or different. Yet these journals testify to the persistent vigor and importance of conservatism. Together they provide a focused survey of the history of American conservative thought from the late 18th Century to the late 19th Century. Along with the companion volume covering the 20th Century conservative press, the book provides an important resource on conservative thought in America. Despite the disparities in conservative intellectual thought, the journals covered, even the more idiosyncratic and extreme, are connected by their core values of conservatism. The book is organized into sections reflecting these connections. The first section covers journals associated with Federal Whig or in the Civil War era Northern Democratic political interests. A later section includes journals sharing an attachment to Southern conservative values during the antebellum and Reconstruction periods. Two sections deal respectively with 19th Century Orthodox Protestant periodicals and 19th Century Catholic and Episcopal journals, and yet another section discusses journals united by a major focus on literary topics and cultural connections.
