## **Population Environment And Social Organization Current Issues In Human Ecology:**

Population, Environment, and Social Organization: Current Issues in Human Ecology Michael Micklin, 1973 The story of the Great Irish Famine through the eyes and memories of the Irish people Tells how they lived why their lives depended on the potato how they dreaded the workhouse and how they feared and defied the landlord who collected the rent and evicted them

Population, Environment, and Social Organization: Current Issues in Human Ecology, 1982      **Population, Environment, and Social Organization: Current Issues in Human Ecology** Michael Micklin, 1973 The story of the Great Irish Famine through the eyes and memories of the Irish people Tells how they lived why their lives depended on the potato how they dreaded the workhouse and how they feared and defied the landlord who collected the rent and evicted them

Sociological Human Ecology Michael Micklin, Harvey M Choldin, 2019-09-18 First published in This volume grew out of concerns raised by the contributors and a few others over the current status of human ecology within the field of sociology Stemming from conferences and subsequent discussions by a group of sociologist demographers on recent developments in sociological human ecology which started at the annual meeting of the Population Association of America in 1976 the original essays contained in this book are designed to review and assess the current state of knowledge in the field      **Continuities**

**in Sociological Human Ecology** Michael Micklin, Dudley L. Poston, 2013-11-11 The completion of this volume would not have been possible without the generous and dedicated help of numerous people The book had its genesis in a conference held at Cornell University in the fall of 1990 that was organized by Dudley Poston Paul Eberts and Michael Hannan all professors at the time at Cornell With the very generous financial assistance of David Call then the dean of Cornell's College of Agriculture and Life Sciences Poston Eberts and Hannan put together a two day conference of lectures and papers by human ecologists from Cornell University and elsewhere The conference focused on sociological human ecology and celebrated the fortieth anniversary of the publication of Amos Hawley's Human Ecology Ronald Press 1950 Professor Hawley was the keynote speaker at the conference Many of the authors of the chapters in this volume presented earlier versions at the Cornell conference in 1990 Cornell's Departments of Rural Sociology and Sociology also contributed financial assistance however without Dean Call's very generous support the conference would not have been possible A few months after the conference Poston and Michael Micklin discussed the possibility of asking the various authors of the Cornell conference papers to revise them for publication in a volume on sociological human ecology Many opted to do so but others did not because of time and other kinds of commitments and constraints      Handbook of Population Dudley L. Poston, Michael

Micklin, 2006-04-26 This comprehensive handbook provides an overview and update of the issues theories processes and applications of the social science of population studies The volume's 30 chapters cover the full range of conceptual empirical disciplinary and applied approaches to the study of demographic phenomena This book is the first effort to assess the entire field since Hauser and Duncan's 1959 classic The Study of Population The chapter authors are among the leading

contributors to demographic scholarship over the past four decades They represent a variety of disciplines and theoretical perspectives as well as interests in both basic and applied research

**City and Region** Wendelin Strubelt, Grzegorz Gorzelak, 2008-02-26 This book deals with the development of cities and regions in times of decisive transformation in Europe throughout these past twenty years In the Western parts of Europe cities and regions were challenged from the outside by globalisation and by technological and demographic change from the inside On top of that the Eastern parts were confronted with deep restructuring processes enforced by the transition from socialist to capitalistic structures By now all European cities and regions are confronted with challenges stemming from a new global competition for jobs population and status Authors from different national backgrounds of Central Europe are analysing and reflecting on these changing structures and processes

The Ecological Transition John W. Bennett, 2017-09-29 Written during the height of the ecology movement The Ecological Transition is a stunning interdisciplinary work It combines anthropology ecology and sociology to formulate an understanding of cultural environmental relationships While anthropologists have been studying relationships between humans and the physical environment for a very long time only in the last thirty years have questions inherent in these relationships broadened beyond description and classification For example the concept of environment has been extended beyond the physical into the social Although anthropologists have adopted many of the concepts that Bennett develops in the book he also feels that the central issues have never been addressed either by anthropologists or by people in related disciplines The most important of these in Bennett s opinion is the failure to incorporate a respect for the environmental in contemporary culture which would allow making exceptions in certain human practices in order to protect the environment His point in The Ecological Transition is that a basic cultural change in modern civilization is necessary to achieve this end Both a theoretical and a practical work The Ecological Transition emphasizes the relationships between human culture the physical environment technology and social policy The Ecological Transition is a challenging volume that makes us face the consequences of human behavior in the modern world its effect on pollution natural resources agriculture the economy and population to name just a few areas The book remains a significant contribution to the discourse on social economic and environmental problems While the book was first published in 1976 it still reads as a contemporary tract

Hickey, 1995 Four miles southeast of the village of Matfield Green in Chase County Kansas the heart of the Flint Hills lies the abandoned settlement of Thurman At the turn of the century Thurman was a prosperous farming and ranching settlement with fifty one households a post office two general stores a blacksmith shop five schools and a church Today only the ruins of Thurman remain Joseph Hickey uses Thurman to explore the settlement form of social organization which along with the village hamlet and small town was a dominant feature of nineteenth and early twentieth century American life He traces Thurman s birth in 1874 its shallow rises and falls and its demise in 1944 Akin to what William Least Heat Moon did for Chase County in PrairyErth Hicky provides a deep map for one post office community and consequently tells us a great deal about America s rural past Describing the shifting relationships between Thurmanites and their Matfield Green neighbors Hickey details how social forces set in motion by the American ideal of individualism and the machinations of capitalist entrepreneurs produced a Darwinian struggle between Thurman stock raisers and Flint Hills cattle barons that ultimately doomed Thurman Central to the story are the concept of ordinary entrepreneurship and the profoundly capitalist attitudes of the farmers who settled Thurman and thousands of other communities dotting the American landscape Hickey s account of Thurman s social organization and disintegration provides a new perspective on what happened when the cattle drives from Texas and the Southwest shifted in the 1880s from the Kansas cowtowns to the Flint Hills Moreover he punctures numerous myths about the Flint Hills including those that cattle dominated because the land is too rocky to farm or that Indians refused to farm because of traditional beliefs Like many other small rural communities Hickey argues Thurman during its seventy year history was actually several different settlements A product of changing social conditions each one resulted from shifting memberships and boundaries that reflected the efforts of local entrepreneurs to use country schools churches and other forms of social capital to gain advantages over their competitors In the end Thurman succumbed to the

impact of agribusiness which had the effect of transforming social capital from an asset into a liability Ultimately Hickey shows the settlement s fate echoed the decline of rural community throughout America *Farmer Participation and Irrigation Organization* Bradley W. Parlin,2019-02-28 This book elaborates a perspective that can be used to democratize decentralize and privatize irrigation organizations It uses case examples to illustrate the interrelationships between project performance irrigation organization and farmer participation *Of Time and the Enterprise* John William Bennett,Seena B. Kohl,Geraldine Binion, **Structural Human Ecology** Nadine Bratchatzek,Paul Ehrlich,Sylvia Hiller,Roger E. Kasperson,Sandra T. Marquart-Pyatt,Allan Mazur,Ortwin Renn,Dirk Scheer,2021-09-24 The desire to understand people s influence on ecosystems has inspired scientific studies and analyses of the stress individuals and communities place on the environment human well being and the tradeoffs between them As an emerging discipline Structural Human Ecology is devoted to unlocking the dynamic links between population environment social organization and technology The new field offers cutting edge research in risk analysis that can be used to evaluate environmental policies and thus help citizens and societies worldwide learn how to most effectively mitigate human impacts on the biosphere The essays in this volume were presented by leading international scholars at a 2011 symposium honoring the late Dr Eugene Rosa then Boeing Distinguished Professor of Environmental Sociology at WSU **Iowa State Journal of Research** Iowa. State College, Cedar Falls,1986 **Social Geography** Vincent J. Del Casino, Jr.,2009-03-09 Introducing the debates that inform current social geographic research and theory and interrogating the historical development of social geography *Social Geography A Critical Introduction* explores how urban and rural spaces are organized in ways that construct and maintain social inequality Puts into context the assumptions of various strains of social geographic thought as they have developed historically Assists students in addressing key social geographic questions and methodologies Provides a showcase for cutting edge work in the field Is written in an accessible and lively style setting out a wide breadth of social geographic research
